

**Schedule of Maximum Allowable Payments
Clinical Laboratory and Anatomical Pathology
Services**

GEORGIA DEPARTMENT OF COMMUNITY HEALTH

DIVISION OF MEDICAID

JULY 1, 2018

This is not a fee schedule. As required by Divisional policy, providers must bill the Division their usual and customary fees. "Usual and customary" means the lowest rate charged to private patients, other third party payers and insurance carriers, HMOs or other members of the general public for comparable services. The lowest rate includes any special price or discounts offered to such patients.

The primary coding mechanism used for laboratory services is CPT (Current Procedural Terminology).

LABORATORY PROCEDURES

Laboratory procedures are defined in the Pathology and Laboratory section of the CPT. Combinations of laboratory procedures performed on multi-channel equipment should be coded with the appropriate procedure codes. When automated or multi-channel tests are performed, the individual components must be billed separately. Procedure codes in the range 80047 through 80076 must be used to bill for problem-oriented panels when specifically ordered by a physician or other provider (see section below). Multiple problem-oriented panels will be denied. The maximum allowable payments shown in this schedule apply to laboratory procedures that are performed in the physician's office, outpatient hospital, or in an independent laboratory.

Professional Component

The procedures listed below should be used by providers to bill for the professional component associated with anatomical and clinical pathology services.

Anatomical Pathology - Laboratory charges for anatomical pathology performed in an inpatient or outpatient hospital setting are reimbursed only for the professional component. The professional component is identified by placing the modifier twenty-six (26) at the end of the CPT code; e.g., 88321-26.

Clinical Pathology Consultation Services - Charges for pathology services performed in an inpatient or outpatient hospital setting are reimbursed for the professional component when one of the following procedure codes applies:

80500 Clinical pathology consultation, limited, without review of patient's history and medical records.

80502 Comprehensive, for a complex diagnostic problem, with review of patient's history and medical records.

Limitations - Only one (1) unit of either code is allowed per date of service. Reimbursement for the professional component will not be made to the patient's attending physician.

Other Pathology Services - The unit of service for procedure codes 88300 through 88309 is the specimen. A specimen is defined as tissue(s) that is submitted for individual and separate examination. For billing purposes, please note the information shown below.

Procedure codes in the range 88300-88309 include accession, examination and reporting. They do not include the services described in codes 88311 through 88365.

Procedure code 88300 should be used for any specimen that in the opinion of the examining pathologist can be accurately diagnosed without microscopic examination.

Surgical pathology services which include the gross and microscopic examinations of organ tissue. These services are reported under the following CPT-4 codes: 88302, 88304, 88305, 88307, 88309, 88311, 88312, 88313, 88314, 88318, 88319, 88321, 88323, 88325, 88329, 88331, 88332, 88342, 88346, 88347, 88348, 88349, 88355, 88356, 88358, 88362, 88365, 88371 and 88372.

Specific cytopathology services which include the examination of cells, from fluids, washings, brushings or smears, but generally excluding hematology, with cervical and vaginal smears as the most common service. Cervical and vaginal smears do not require an interpretation by a physician unless the results appear to be abnormal. In such cases, a physician normally conducts a separate microscopic evaluation. Follow current CPT guidelines for reporting.

INTERPRETATION CRITERIA FOR PATHOLOGY SERVICES

In order to be covered, interpretive pathology services must be requested by the patient's attending physician and result in a written narrative report being made by the pathologist must be included in the patient's medical record. The clinical pathology consultation must relate to test results that lie outside the clinically significant normal or expected range in view of the patient's condition.

Technical Component

Under certain circumstances, a laboratory may bill the technical component alone. The technical charge is identified by using the modifier TC when billing. The charges for the technical component may be allowed for an institution such as a hospital or independent laboratory and will not be covered when billed by physicians (pathologists).

AUTOMATED TEST PROCEDURES REIMBURSEMENT

This schedule is applicable when the bundling or unbundling of automated chemistry procedures has been indicated on the Remittance Advice Copy.

Automated Chemistries (Bundling and Unbundling)

When any of the twenty-three automated tests are performed on the same member and the same date of service.

Bill the CPT for each individual test, or
Bill the CPT for the Organ Disease Panel (OD) plus the individual CPT code for any automated tests not included in the panel.

When several panels are ordered that contain some or all of the same automated chemistries, payment will be equal to the total number of different automated chemistries in all of the panels (minus any duplicate tests). Multiples of OD panels may be denied.

When any of the twenty-two automated chemistries are part of an OD panel, payment for the OD panel will be made if the panel contains only the automated tests for that date of service for that member.

When other automated chemistries are ordered along with the OD panel, the panel will be unbundled and a fee based on the least expensive method of grouping the automated chemistries and OD panel.
