EDWP-CCSP and SOURCE General Services
Chapter 600: EDWP- (CCSP And Source) Service Overview

601. Introduction to EDWP (CCSP and SOURCE)

The Elderly and Disabled Waiver Program/EDWP (CCSP and SOURCE) operates under a Home and Community-Based Waiver (1915c) granted by the Centers for Medicare and Medicaid Services (CMS). This Waiver permits the Division of Medical Assistance to use Title XIX funds to purchase services for EDWP (CCSP and SOURCE) members who meet program requirements.

EDWP (CCSP and SOURCE) assists individuals who are 21 and over and functionally impaired to continue living in their own homes and communities as an alternative to nursing home placement. Individuals served by the program are required to meet the same level of care for admission to a nursing facility and be Medicaid eligible or potentially Medicaid eligible. Applicants with primary psychiatric, developmental or congenital conditions will be referred to other appropriate services.

601.1. For EDWP, the eligible individual will meet the target population guidelines and Intermediate Nursing Home LOC:

The target population for EDWP is physically disabled individuals who are functionally impaired [late loss ADL (activities of daily living] or who have acquired a cognitive loss that results in need of services to assist with the performance of the activities of daily living (ADLs). All individuals must meet the Definition for Intermediate Nursing Home LEVEL OF CARE:

601.2. Summary for Intermediate Nursing home LEVEL OF CARE CRITERIA and EDWP Program guidelines:

601.2.1. Services may be provided to an individual with a stable medical condition requiring intermittent skilled nursing services under the direction of a licensed physician (Column A Medical Status) AND either a mental/ cognitive (Column B) and/or functional impairment that would prevent self-execution of the required nursing care (Column C Functional Status).

601.2.2. Special attention should be given to cases where psychiatric/developmental treatment is involved. A patient is not considered appropriate for intermediate care services in EDWP when the primary diagnosis or the primary needs of the patient are psychiatric or related to a developmental disability rather than medical need. This individual must also have medical care needs that meet the criteria for intermediate care facility placement. In some cases, a patient suffering from mental illness/developmental delay may need the type of services which constitute intermediate care because the mental condition/developmental is secondary to another more acute medical disorder

601.3. EDWP (CCSP and SOURCE) are consumer-oriented program, with the following goals:

601.3.1. To provide quality services, consistent with the needs of the individual member, which are effective in improving/maintaining the member's independence and safety in the community as long as possible.

601.3.2. To provide cost effective services

601.3.3. To involve the member or member's representative in the provision and decision-making process regarding member care. Across and within all HCBS Waiver Programs, a non-family representative cannot represent more than three(3) waiver participants.

601.3.4. To demonstrate compassion for those served by treating members with dignity and respect while providing quality services.

601.3.5. Provision of quality services and supervision of member care are vital to preventing premature institutional placement. Service providers are expected to be qualified and to provide services in compliance with the policies, procedures, and goals of EDWP (CCSP and SOURCE) and of any other applicable regulatory agency.

601.4. Providers' performance standards must exceed basic licensing requirements; specific areas of accountability include:

601.4.1. Reliability of service

601.4.2. Competency and compatibility of staffing

601.4.3. Responsiveness to members' concerns

601.4.4. Communicate and coordinate services with care coordination staff

601.4.5. The EDWP (CCSP and SOURCE) Program Policies and Procedures Manuals define standard policies and procedures for services provided in the EDWP (CCSP and SOURCE). All enrolled providers must adhere to the requirements as outlined in these manuals.

602. Structure and Administration of the Program

Services under EDWP (CCSP and SOURCE) are provided with the cooperation of the following state and local public agencies and private businesses:

602.1. The Division of Medical Assistance (DMA) of the Department of Community Health (DCH) is responsible for provider enrollment and reimbursement to providers for services provided to those members who have applied and been approved for the Program. DMA conducts utilization reviews of providers to assure that only authorized and appropriate EDWP (CCSP and SOURCE) services are delivered.

Effective July 1, 2016, DMA is also responsible for the overall coordination, administration, and quality assurance of the program. The EDWP (CCSP and SOURCE) Unit at DMA reviews and recommends approval of provider enrollment applications, conducts site visits and provider training. It also supervises the care coordination services that are provided to EDWP (CCSP and SOURCE) members in the 12 services regions of Georgia.

602.2. The Division of Aging Services (DAS) of the Georgia Department of Human Services (DHS) provides Adult Protective Services (APS) for the prevention of abuse, neglect and exploitation of individuals.

602.3. The Georgia Department of Behavioral Health / Developmental Disabilities, and Addictive Diseases provides psychological and psychiatric evaluations and therapeutic services through regional boards.

602.4. The Division of Family and Children Services (DFCS) of the Georgia Department of Human Services determines Medicaid eligibility and member cost share (if any) for potentially Medicaid eligible members entering the EDWP (CCSP and SOURCE).

602.5. The Office of Information Technology (IT) of the Georgia Department of Human Services provides information technology to the EDWP (CCSP and SOURCE) Unit and Area Agencies on Aging regarding service authorization.

602.6. The Healthcare Facility Regulation Division (HFRD) of the Georgia Department of Community Health licenses and monitors personal care homes, private home care providers, adult day health providers and home health agencies. (Rev. 04/2016)

602.7. Area Agencies on Aging (AAA)/Lead Agency (12 statewide) are designated in each Planning and Service Area by the Division of Aging Services as the local administrator and points of contact for members or members' representatives, service providers, and potential service providers. The Lead Agency assures program accessibility by serving as the focal point responsible for local administration, coordination and implementation of EDWP (CCSP and SOURCE), including telephone screening of all potential EDWP (CCSP and SOURCE) members.

602.8. GAINWELL TECHNOLOGIES is under contract with DMA to reimburse Medicaid provider(s) and operate the Provider Enrollment Unit. GAINWELL TECHNOLOGIES distributes information about enrollment, trains Medicaid providers in the billing process, and reimburses them for authorized services. GAINWELL TECHNOLOGIES also operates the Billing Inquiry Unit to assist Medicaid providers with questions related to billing.

602.9. The Care Coordinator (CC) facilitates the process of assessing, planning, authorizing, arranging, coordinating, and evaluating service delivery to the EDWP (CCSP and SOURCE) member. The care coordinator provides the member and member's representative with a single access of resource information.

602.10. Alliant Health (formerly GMCF) reviews the member's assessment documents and validates or denies the member's need for a nursing home level of care. If the level of care is approved, Alliant issues a Level of Care Prior Authorization (LOC PA) for a

length of stay of up to 365 days.

602.11. The member's physician or the case management agency's medical director approves the plan of care and attests to the member's need for a nursing home level of care and consults with the care coordinator as requested.

602.12. Service Providers enrolled in EDWP (CCSP and SOURCE) deliver services as ordered on the care plan authorized by the care coordinator. By sharing information with the care coordinator, providers serve as a vital component of the member's care team.

603. Services of the Program

EDWP (CCSP and SOURCE) offer the following services as an alternative to institutional care. Qualified providers may seek enrollment in one or more of the services.

603.1. Adult Day Health (ADH) provides nursing services, medical supervision, health, therapeutic, and social services activities in a congregate community-based day program.

603.2. Alternative Living Service (ALS) provides twenty-four-hour supervision, personal care, nursing supervision, and health-related support services in licensed personal care homes.

603.3. Emergency Response System (ERS) provides two-way verbal and electronic communication with a central monitoring station seven days a week, 24 hours a day to geographically and socially isolated members

603.4. Home Delivered Meals (HDM) provide and deliver prepared meals to the EDWP (CCSP and SOURCE) member's home. Each meal meets at least 1/3 of the recommended daily nutritional requirement.

603.5. Home Delivered Services (HDS) provide home health services rendered on an intermittent basis by certified, licensed home health agencies to members in their homes.

603.6. Personal Support Services (PSS) provide personal care tasks such as assistance with eating, bathing, dressing, personal hygiene, preparation of meals, light housekeeping tasks, and other activities of daily living. Extended Personal Support Services refer to those tasks designed for members who need assistance with activities of daily living, as well as relieve those persons(s) normally providing care and/or oversight.

603.7. Respite Care (RC) provides for temporary relief of the individual(s) normally providing care. Respite Care is provided in an approved facility such as a personal care home or adult day health center. Respite care may include overnight care.

603.8. Skilled Nursing Services (SNS) by Private Home Care Providers provide skilled nursing intervention/monitoring when a home health agency is unable to provide service to the member.

603.9. Structured Family Caregiver (SFC) agencies provide coaching, support and a daily financial stiped to live-in family caregivers.

604. Authority

In the EDWP (CCSP/SOURCE) and Services for the Elderly Act, (O.C.G.A. 49-6, Article 5). The

Georgia General Assembly stated its intent as follows:

604.1. To assist functionally impaired elderly in living dignified and reasonably independent lives in their own homes or with their families

604.2. To establish a continuum of care for such elderly in the least restrictive environment suitable to their needs

604.3. To maximize the use of existing community social and health services to prevent unnecessary placement of individuals in long-term care facilities

604.4. To develop innovative approaches to program management, staff training and service delivery that impact cost avoidance, cost effectiveness and program efficiency.

It is further the intent of the General Assembly that the Georgia Department of Human Services shall serve as the agency responsible for planning and implementing the provision of community-based services to the elderly reimbursable under the "Georgia Medical Assistance Act of 1977."

The Georgia Department of Human Services established a EDWP(CCSP/SOURCE) unit within the Division of Aging Services. Effective July 1, 2016, this unit was transferred by the Georgia General Assembly to the Division of Medical Assistance (DMA) in the Georgia Department of Community Health (DCH). The EDWP (CCSP/SOURCE) unit plans and oversees implementation of a system of coordinated EDWP (CCSP/SOURCE) and support services for the elderly. The EDWP (CCSP/SOURCE) unit develops uniform assessment criteria that are used to determine an individual's functional impairment and evaluate on a periodic basis the individual's need for community support services or institutionalized long-term care.

practice, including the provision of nursing supervision.

If the provider agency experiences temporary staffing problems and is unable to provide services as required by the member's care plan, the provider must immediately notify the care coordinator. If the problem is expected to continue more than ten (10) business days, or the member's condition is such that a delay/interruption of service would be a disservice to the member, the care coordinator will rebroker the member's services with another provider.

608.4.2.13. Failure to Refund Fees – Failure of a provider agency to refund fees to members after a determination that a member is due a refund

NOTE: Retroactive Medicaid eligibility and/or other reasons may cause a provider to owe refunds to a member.

608.4.2.14. Failure to Notify Prior to Termination – Failure of a provider agency to provide required notice prior to termination of services. Providers who abruptly discontinue services may not request re-enrollment for a period of one (1) year from the date services were discontinued

The EDWP (CCSP and SOURCE) Unit may consider further

adverse action.

608.4.3.4. Delaying the processing of pending and additional provider enrollment applications and expansion requests.

NOTE: Even in the absence of any adverse action, care coordination may re-broker service(s) to another provider at any time the member requests a change in providers.

608.5. Duration of Adverse Action

The adverse action letter will stipulate the time frame within which the provider is required to correct deficiencies. The DCH shall determine the period of adverse action.

NOTE: The EDWP (CCSP and SOURCE) Unit may conduct an unannounced site visit prior to removal of the adverse action to determine whether the provider has achieved compliance. Failure to achieve compliance by the end of the adverse action period will result in a recommendation to continue the adverse action and/or impose additional adverse action.

608.6. Provider Notification of Adverse Action and Appeal Rights

The DCH will send to the provider a Notice of Adverse Action in accordance with policy. The notice will include:

608.6.1. Reason for imposing the adverse action

The effective date and duration of the proposed adverse action(s) will be determined by DCH. The provider may appeal the action taken by DCH, but appealing the action will not stay the action appealed.

608.6.2. The address to which requested information is to be sent and the name of a DCH contact person to call for clarification regarding the notice

608.6.3. The actions and time frame necessary to oppose/appeal the adverse action. If the provider fails to request an Administrative Review or fails to submit the requested information within the time frame specified in the Notice of Adverse Action, the adverse action becomes final and no further administrative or judicial review will be available. If the provider fails to respond to the notice or to correct the deficiencies, the DCH will make a determination on the adverse action, including re-brokering of EDWP (CCSP and SOURCE) General Services VI-39 services with another provider and termination of the provider's enrollment in the EDWP (CCSP and SOURCE).

609. Admissions

609.1. Each provider must maintain written policies, procedures and criteria for accepting members referred by the care coordinator. The policies, procedures and criteria apply uniformly to all EDWP (CCSP and SOURCE) referrals. The member must be informed in writing in advance of running any credit checks.

609.2. Admissions policies, procedures and criteria may not discriminate or permit

611.1.2. A EDWP (CCSP and SOURCE) member must meet the level of care criteria for intermediate nursing home placement. Alliant Health Solutions (formerly GMCF) must validate the member's level of care (LOC) and assign a length of stay (LOS) not to exceed a maximum of 365 days. The member's physician signs the Form 5588 (EDWP (CCSP and SOURCE) Level of Care Placement Instrument) to attest to the member's need for a nursing home LOC, after which the EDWP (CCSP and SOURCE) care coordinator RN signs the 5588 to certify the LOC. EDWP (CCSP and SOURCE) services may not begin under the LOS indicated on the Form 5588 until the RN signs the form to certify the LOC.

611.1.3. Providers may render EDWP (CCSP and SOURCE) services only to members with a current level of care. Each EDWP (CCSP and SOURCE) member is given an approved Level of Care (LOC) certification for program participation. A LOC certification is approved for no more than a 365 day length of stay.

611.1.4. If a member needs a change in service within 60 days from the beginning date of the LOS, the care coordinator will document and date the added services on the Comprehensive Care Plan and provide a copy to the member's physician and the service provider(s). No face to face visit or physician letter is required in this situation unless the client is returning to the community from a nursing/rehabilitation facility.

611.1.5. If a member with a current LOS under an LOC experiences a change in condition or change in status that requires the addition of new services and/or a change in the level of services, and the change occurs more than 60 days after the beginning date of the LOS, a new LOC assessment (reassessment) is not required. However, approval of the new care/service plan by the member's physician is required. The EDWP (CCSP and SOURCE) nurse must make a home visit to assess the member's condition and service needs. Changes must be documented on the EDWP Modified Reassessment Form (Appendix QQ), and a request for approval of any new services or updated orders must be submitted to the member's physician by way of the Physician Change in Services Letter to request his/her approval of the new or revised service plan. Copies of the Appendix EE with the physician's signature and the EDWP Modified Reassessment form must be sent to the provider for the member's file. The following are examples of changes or new services for which physician approval is required:

611.1.5.1. The new service to be added is skilled nursing.

611.1.5.2. The member needs a change in their level of Adult Day Health (ADH) services.

611.1.5.3. The change is service is from one category to another, such as from personal support services (PSS) to alternative living services (ALS).

611.1.5.6. The member has a significant illness or injury that requires a change in services.

NOTE: Completion of the EDWP Modified Reassessment form will serve as a care plan update, which means another updated care plan will not be due until the third month after the month the EDWP Modified Reassessment is completed. The EDWP Reassessment form and the Physician Change in Services Letter also serve as updates/addendums to the current approved Level of Care Form.

611.1.6. ADH therapies, HDS and SNS (skilled services) additions require physicians orders before specific medical procedures can be provided. Orders for therapy services must include specific procedure and modalities used and frequency and duration of services

611.1.7. The care coordinator may add Home Delivered Meals, Out of Home Respite Care, and Medical Social Services to the Comprehensive Care Plan at any time without completing a reassessment.

611.1.8. A member must meet all EDWP (CCSP and SOURCE) eligibility criteria to participate in the program.

EXCEPTION: If a member continues to receive services while an appeal of a Level of Care termination is in process, and the LOC expires before the hearing decision is known, the RN does not complete a LOC re-determination. Services may continue to such a member even though there is no current LOC.

611.2. Provider's Initial Evaluation of the Member

Individuals participating in the EDWP (CCSP and SOURCE) are at risk for nursing facility placement and thus require timely evaluation and service delivery.

611.2.1. Contacting the Provider Agency - Prior to sending a referral packet, care coordinators will telephone provider agencies. Upon receipt of the telephone call, the provider agency must contact the care coordinator within 24 hours if the provider can conduct a face-to-face evaluation in the member's primary place of residence within three business days. If the member is unavailable for evaluation within three business days, the provider will notify the care coordinator. If the member's needs warrant, care coordinators may request the provider to evaluate the member within a shorter time frame.

611.2.2. Face-to-Face Evaluation - A provider agency must conduct a face-to-face evaluation of the member in the member's primary place of residence

within three business days of receiving the referral from the care coordinator. Within 3 business days of the face-to-face evaluation, the provider will use the EDWP Notification Form to notify the care coordinator of the decision to accept or refuse the referral. If the provider accepts the referral, the provider indicates on the EDWP Notification Form the date that services will begin. If the member is hospitalized, institutionalized, or the home environment is not conducive for evaluation purposes, the provider must evaluate the member in a mutually-agreed-upon setting. Services are to begin within 48 hours, if possible, after the provider evaluates the member. If services are to be provided in the member's residence, the provider also must assess the home to determine if it is an appropriate and safe environment for service delivery. 0TThe Adult Day Health Provider may elect to evaluate the client in the Adult Day Health setting or the member's primary place of residence, depending on the mutually agreed needs of the member.

611.2.3. Evaluating a Member who is Transitioning to the Community under the Money Follow the Person (MFP) Program - When a provider receives a referral to provide services for a member who is preparing to be discharged from a nursing home to the community under the MFP program, the provider should conduct the face-to-face evaluation in the nursing home prior to discharge, as soon as possible after the referral is received. This is done so that services can begin on the first day the member returns home, as authorized by the EDWP (CCSP and SOURCE) care coordinator. A re-evaluation of the member's needs can be conducted when services have started after the member is settled in the community.

611.2.4. Additional Provider Information - If the provider accepts the member for service, the provider will gather any information, other than that already contained in the referral packet, necessary to complete the member's data file in accordance with the provider's requirements. Care coordination will forward a referral packet to the provider agency within 24 hours of brokering services.

611.2.5. Care Plan Changes - If applicable, the provider must contact the care coordinator to obtain prior approval of any desired changes in amount, duration, and scope of services in the comprehensive care plan. The provider must render services to individuals according to the comprehensive care plan. If the provider determines that the services outlined in the comprehensive care plan are not appropriate for the member, the provider notifies the care coordinator immediately. The care coordinator makes a decision after discussions with the provider.

611.2.6. Notifying Care Coordinator - Within three business days from the date the provider evaluates the member, the provider must send to the care EDWP (CCSP and SOURCE) General Services VI-46 coordinator an EDWP Notification Form -See Appendix I of the EDWP (CCSP and SOURCE) General Manual) to advise the beginning date of service. The provider agency's failure to initiate service as agreed on the EDWP Notification Form may result in the care coordinator's rebrokering the service with another provider and recommending adverse action against the provider

agency. When rebrokering from one agency to another, collaborative communication is needed by all parties involved to ensure that there is a smooth transition, no loss of care for the member and no issues with double billing by both parties.

611.2.7. Member Inappropriate for Services or Declines - If, after the face-to-face evaluation, a provider determines that the member is inappropriate for service, or if for any reason a member declines services from the provider, the provider must immediately telephone the care coordinator during regularly scheduled office hours and/or within 24 hours. The provider must return the referral packet with the EDWP Notification Form to the care coordinator within three business days from the date the provider determines that the member is inappropriate or the member declines services.

611.2.8. Accepting the Referral and Initiating Services - Services are required to begin within 48 hours of the provider's face-to-face evaluation of the member or at the next appropriate day as dictated by the frequency order unless extenuating circumstances delay the start of services. Within three business days of the initial evaluation visit, the provider must send to the care coordinator a EDWP Notification Form indicating the start date of services and documenting the reason(s) for any delay in starting services. 0TCare coordinators are required to follow up with providers who do not begin services within 48 hours of the face-to-face evaluation unless the stated reason for not starting services is justified as indicated above.

NOTE: The EDWP Notification Form and the provider referral packet may be submitted electronically using encryption or by means of a secure Web site.

611.3. Provider's Reevaluation of the Member - After Service Initiation

The provider agency engages a Registered Nurse to conduct initial evaluations and periodic re-evaluations of the member’s medical needs during each supervisory visit or more frequently if the member's condition warrants. medications, supplements, and herbs are reported to the member's pharmacist and/or physician by the supervising RN for determination of any possible interaction with the member's prescription/ medications. The label of a prescription medication constitutes the pharmacist's transcription of documentation of the order. Such medications should be noted in the clinical record and listed on the re-certification plan of care (HCFA-4850)

612.9.3. Assistance With Self-Administered Medications

The provider agency, member and/or supervising registered nurse must immediately communicate any concerns regarding the member's medications, including the number or frequency in use, to the member's physician. The supervising registered nurse must report these concerns to the care coordinator within 24 hours. Within three business days of verbally notifying the care coordinator, the provider must send a completed EDWP Notification Form to the care coordinator.

612.10.3.1. If the DME item is directly related to the service being provided under the EDWP (CCSP and SOURCE), and is reimbursable under the Medicaid program, the EDWP (CCSP and SOURCE) provider assists the member in obtaining the item through a vendor enrolled with the Division of Medical Assistance. If requested by the DME vendor, the provider assists the member in obtaining a prescription or certificate of Medical Necessity from the physician.

612.10.3.2. If the needed equipment is not directly related to the service being provided, the provider agency will alert the care coordinator, who will assist the member in obtaining the item(s) through a Medicare or Medicaid approved vendor.

612.10.4. Within three business days of identifying the member's need for DME, the EDWP (CCSP and SOURCE) provider must send to the care coordinator a completed EDWP Notification Form.

612.11. Non-Emergency Transportation Services (NET)

For more detailed information, contact the NET broker serving the member's location. Refer to Appendix T of the EDWP (CCSP and SOURCE) General Manual for NET Brokers.

NOTE: The Elderly and Disabled Waiver 1915 (c) does not include transportation in the rate for personal support or extended personal support services. NET is available to all Medicaid participants under the State Plan to provide transportation to medical appointments and for waiver services such as adult day health. A provider who allows an aide to make use of a member’s or aide’s car for transport needs to be sure the member’s or aide’s auto insurance assumes liability in case of an accident. Consider having the member or their family sign an agreement that discusses the assumption of liability in case of an accident. The provider should also carry adequate liability and worker’s comp insurance to cover any accidents. Any such transportation activities are at the risk of those who engage in them. Providers should consult their legal team to determine the extent of liability to which the agency may be exposed through such transportation activities, particularly if an aide assumes that this is part of their normal duties.

612.12. Emergency Information

612.12.1. The provider must maintain written emergency information on each member. The emergency information must be easily accessible in the member’s record and, at a minimum, include the following:

Certification must be obtained through an approved, certified instructor.

EXCEPTION: ERS and HDM providers.

612.12.3. The clinical record must contain the member's written authorization for staff to seek emergency treatment, including transportation for treatment. The provider must keep emergency information current by reviewing and updating it at least yearly and as needed.

NOTE: Members receiving Supplemental Security Income (SSI) are not required to pay toward the cost of their EDWP (CCSP and SOURCE) services.

612.13.3. The EDWP (CCSP and SOURCE) Unit determines the approved room and board rate for EDWP (CCSP and SOURCE) Alternative Living Services' members.

612.13.4. Providers may not charge EDWP (CCSP and SOURCE) members interest rates or late fees for EDWP (CCSP and SOURCE) services.

612.14. Food and Nutrition

Providers must deliver meals that meet the nutritional standards according to the specific program requirements for each service type.

612.15. Service Delivery Hours

Providers rendering EDWP (CCSP and SOURCE) services in the member's home must use flexible scheduling to meet the individual member's needs and preferences for service. The provider's RN must be available to provider staff during hours that they deliver services.

The care coordinator orders services for members.

A licensed physician, nurse practitioner or physician assistant must approve the member services listed on the Form 5588 (EDWP (CCSP and SOURCE) Level of Care and Placement Instrument) except in the following situations:

The member experiences a change in condition that requires a new service, additional services (such as additional personal support service hours) or a change in the level of Adult Day Health services and the change occurs more than 60 days after the beginning date of the member's current length of stay (LOS) under a nursing home level of care (LOC). The physician's approval for new services or a change in the level of ADH

services must be communicated through the physician's signature on the Physician Change in Services Letter.

The care coordinator adds other EDWP (CCSP and SOURCE) services within 60 days of the beginning date of the current LOS under a nursing home LOC.

Skilled and therapy service providers (ADH, SNS and HDS) require medical orders for specific medical procedures provided by agency staff. Physician orders for therapy services must include the specific procedures and modalities used and the amount, frequency, and duration.

EXCEPTION: Home Delivered Service providers must follow appropriate regulations regarding the Medical Plan of Treatment. Refer to the Department of Community Health's Policies and Procedures for Home Health Services.

NOTE: The care coordinator may add HDM, RC and Medical Social Services at any time

612.17. Supervision of Services by a Registered Nurse (RN)

Registered Nurse (RN) supervision is the provision of medical oversight to ensure that the provider serves the member effectively and safely in the community. Medical oversight includes assessing and monitoring the member's condition and implementing/arranging interventions to prevent or delay unnecessary and more costly institutional placement. A RN must supervise all EDWP (CCSP and SOURCE) services.

The registered nurse may assign certain tasks to unlicensed assistive personnel. The registered nurse will utilize the "RN Assignment Decision Tree," generated by the Georgia Board of Nursing, to assist the registered nurse in making appropriate decisions regarding whether to assign a task to an unlicensed person. The RN Assignment Decision Tree assists the registered nurse in evaluating the client care tasks on an individual client basis; it guides the nurse in assigning only those tasks that can be safely performed by trained unlicensed assistive personnel.

EXCEPTION: HDM and ERS providers

NOTE: Refer to the specific service manual for additional staffing and supervision requirements, exceptions, or substitutions. Providers not following the required supervision policies will face adverse action, up to and including possible termination from the EDWP (CCSP and SOURCE).

612.17.1. The major tasks of the Registered Nurse include, but are not limited to:

612.17.1.1. Assessing and evaluating the member's needs, current status, environment, and changes during each supervisory visit or more often if indicated by member's condition

612.17.1.2. Reviewing the Level of Care and Placement Instrument

612.17.1.3. Conducting supervisory visits and re-evaluations of member care at the required frequency (refer to service-specific manual) or more often if medically necessary.

NOTE: Nursing staff are prohibited from administering medications to members or providing any other member care while conducting supervisory visits for all services except skilled nursing. For skilled nursing, the private home care provider's RN can perform a nursing visit and update the care plan as part of the same visit.

612.17.1.4. Developing, coordinating, and revising member care plan. Communicating all revisions to appropriate staff.

612.17.1.5. Preparing progress/clinical notes, reviewing progress note entries of all staff, reviewing and co-signing documentation of all LPN supervisory visits and instructing staff on charting protocol. The RN must indicate his/her review of notes and LPN supervisory visits, as well as the follow-up and resolution of problems, by signing and dating the documentation of all of the above.

612.17.1.6. Conducting and maintaining ongoing communication with other service providers, the physician, care coordinator, and other relevant parties of changes in the member's medical condition or any change in member status that requires follow-up and/or additional services. The RN/provider must obtain the care coordinator's prior approval for changes in the member's service except in emergency cases.

612.17.1.7. Counseling and educating the member/representative, caregiver(s), and staff in meeting the member's medical and related needs.

612.17.1.8. Other duties assigned by the provider agency such as quality assurance activities and/or planning, scheduling and conducting in-service training sessions, etc.

612.17.1.9. In addition to the tasks listed above, the Home Delivered Service RN reviews the Medical Plan of Treatment (MPOT) and obtains the physician's dated signature a minimum of every sixty-two calendar days.

612.17.2. Nursing supervision of EDWP (CCSP and SOURCE) services must comply with the following guidelines:

612.17.2.1. The RN supervisor must document, sign and date supervisory visits/notes/contacts (Appendix B, Member Service Record/EVV daily/monthly aide record) and label them as such. Names and titles must be legible. Staff may use initials if their signatures are on file at the provider agency. The supervisory RN signature must be an original, not a rubber stamp.

EXCEPTION: An electronic signature and computer-

generated signature, requiring the supervisory RNs' access codes to generate, are permitted.

The provider RN supervisor must conduct a face-to-face supervisory visit with the member to cover every period of service provided. If the member is not present, the visit is not considered a supervisory visit.

612.17.3. Documentation of each RN or LPN supervisory visit must include the following:

612.17.3.1. An evaluation of the member's health status and needs, noting changes in medical condition, medications, etc.

612.17.3.2. An evaluation of the quality of care being rendered, including member's statement of the level of satisfaction with services received

612.17.3.3. Results of the care being rendered

612.17.3.5. Any needed revisions to the member's care plan

612.17.3.6. The nurse’s signature and date of the visit (see note below).

612.17.3.7. The date of the previous supervisory visit.

NOTE: A checklist does not replace narrative documentation but can be used in addition to support narrative.

The RN or LPN who makes the supervisory visit must sign and date the documentation of the visit. If the supervisory visit was made by an LPN, the supervising RN must review and co-sign the documentation of the LPN’s visit within 10 days unless otherwise stated in the provider manual for the particular service.

612.18. Member Care Plan

The Member's Care Plan reflects the provider agency's plan to deliver the services agreed upon by the provider agency, the member/member’s representative and the care coordinator based on the comprehensive care plan.

Individuals who participate in the EDWP (CCSP/SOURCE) Services Program have been determined to be at risk for nursing facility placement. Therefore, after the initial evaluation, the provider RN must review the care plan and revise, sign and date it as part of each supervisory visit, or as often as the member's condition requires. The provider RN communicates all revisions to the care plan to appropriate staff. The member care plan must be re-written at least once per year

NOTE: Home Delivered Meals and Emergency Response Services do not require a member care plan.

612.18.1. The written member care plan must identify the following:

612.18.1.1. specific physical, mental, and social health problems of the member

612.18.1.2. specific approaches that will be taken to address the member's health needs/problems

612.18.1.3. persons or agencies responsible for providing services to the member

612.18.1.4. instructions for timely discharge or referral, if appropriate

612.18.1.5. any other appropriate items

612.18.2. Guidelines for Preparation of Care Plan

612.18.2.1. The provider RN initiates member care plans within 72 hours of the provider's initial evaluation of the member. The provider RN maintains current member care plans, including any changes in effective dates of coverage. The provider RN reviews the member care plans during each supervisory visit or more often if required by the member's condition

612.18.2.2. The provider RN will develop the member care plan and coordinate care with input from the provider staff involved in the member's care. Provider staff must immediately bring to the attention of the provider RN any concerns about significant changes in the member's status.

612.18.2.3. Before a provider implements changes in frequency and type of service, the provider must discuss these care plan revisions with the care coordinator. The care coordinator must review and approve changes in services.

612.18.2.4. The member care plan must indicate approaches necessary to achieve identified goals (e.g., nutrition education, methods of care coordination, etc.).

612.19. Progress/Clinical Notes

A member's clinical record must contain written progress notes, or clinical notes, which reflect the member's progress toward the goals and objectives identified in the member care plan. The RN supervising the member's care will prepare progress notes; however, any staff rendering care to the member may make notations in the clinical record. The notations may be recorded on EDWP (CCSP and SOURCE) General Services VI-66 the service form that reflects the date of service and must describe significant events/reactions/situations and follow-up which affect the member's care. All entries

must be signed and dated at the time of occurrence. The provider RN must review, sign and date all entries made by non-licensed staff. Progress notes must be kept readily available for review by supervising personnel. The provider RN must train non-licensed staff on how, when, and where to keep progress notes. At a minimum, the provider RN must include progress note entries in the supervisory visit documentation, in accordance with the minimum frequency requirements of the specific EDWP (CCSP and SOURCE) service being delivered. (Refer to service-specific manuals).

612.20. EDWP Notification Form

612.20.1. Service providers and care coordinators are expected to be proactive on behalf of the EDWP (CCSP and SOURCE) member and maintain active dialogue within the care team.

The provider and care coordinator use the EDWP Notification Form) to maintain an ongoing, documented dialog concerning:

612.20.1.1. Beginning date of services (When rebrokering from one agency to another, collaborative communication is needed by all parties involved to ensure that there is a smooth transition, no loss of care for the member and no issues with double billing by both parties.)

612.20.1.2. Reason(s) for delay in starting services

612.20.1.3. Acceptance or rejection of member referral following the initial evaluation

612.20.1.4. Provider's evaluation that the member is inappropriate for EDWP (CCSP and SOURCE) services

612.20.1.5. Member address change

612.20.1.6. Changes in member's situation or environment (including social supports)

612.20.1.7. Changes in the member's physical or mental condition/status

612.20.1.8. Recommendations for changes to the care plan, including changes in services that increase or decrease the total cost of services.

NOTE: If visit(s) is (are) shortened or omitted due to a member’s absence, the provider may submit a completed EDWP Notification Form on the last working day of that month. Use the EDWP Notification Form to notify Case Management of emergency frequency changes that occur and need adjustments made to the PA. Examples- PSSX care cut short and PSS units need added to the PA on GAMMIS ADH full day cut short and ADH partial day needs added.

612.20.1.9. Concerns regarding the number and frequency of

member's self-administered medications

612.20.1.10. Provider identification of member's need for durable medical equipment

612.20.1.11. Member discharge

612.20.1.12. Problems with cost share collection

If any of the above occurs, the provider must telephone the care coordinator within 24 hours and will submit the completed EDWP Notification Form to the care coordinator within three business days of the change or action.

The procedure for notification is as follows:

612.20.1.13. Notification Regarding New Members:

Refer to the EDWP (CCSP and SOURCE) General Manual

612.20.1.14. Notification Regarding Changes in Services:

Service providers must contact the care coordinator either before providing the service or the next business day. The provider must request all changes in service by completing the EDWP Notification Form and forwarding it to the care coordinator.

The provider must obtain approval from the care coordinator prior to rendering a new service.

Within three business days after receiving the EDWP Notification Form, the care coordinator will initial, date, and return the EDWP Notification Form to the provider, approving or denying the change in service.

If changes in the comprehensive care plan are approved, the care coordinator will revise the comprehensive care plan to reflect the changes and forward a copy to the provider(s). The provider RN will revise the member care plan to reflect the changes in the member's care.

Non-Emergency Service - If the provider and/or provider RN determines that the member needs a change in service, the provider must obtain approval from the care coordinator before initiating a change in service. The provider must telephone the care coordinator on the first business day following the determination that a member needs a change in service and must follow up with a completed EDWP Notification Form within three (3)

business days.

Emergency Visit - If the provider and/or provider RN determines an emergency visit is required, the provider must immediately call the care coordinator and follow up with a EDWP Notification Form within three (3) business days. Examples of emergency situations include, but are not limited to:

612.20.1.14.1. loss of caregiver support

612.20.1.14.2. need for urgent care

612.20.1.14.3. need for immediate attention due to compromised safety or health

Exceeding the Authorized Cost - If a needed change in service (emergency or non-emergency) would cause the cost of care to exceed the amount authorized on the Service Authorization Form (SAF), the provider RN must obtain payment authorization in accordance with EDWP (CCSP and SOURCE) General Manual.

612.20.1.14.4. Change in Address

612.20.1.14.4.1. If a member moves to another address within the same Planning and Service Area, OR moves to another Planning and Service Area in which the current provider is approved to render services

The provider must:

Telephone the care coordinator, within 24 hours of learning about the member's move

612.20.1.14.4.2. send a completed EDWP Notification Form to the care coordinator within 3 business days advising of the address change

612.20.1.14.4.3. Transfer member records to the office serving the member’s new address, if

applicable

612.20.1.14.5. Member moves to another Planning and Service Area in which the current provider is not approved for service

The provider must:

612.20.1.14.5.1. telephone the care coordinator, within 24 hours of learning of the address change

612.20.1.14.5.2. send a completed EDWP Notification Form to the care coordinator, within 3 business days

612.20.1.14.5.3. send a discharge EDWP Notification Form and a statement summarizing the services provided to the member, the reason for the member's move, and any special concerns to the care coordinator

612.20.2. Other Changes that Affect the Plan/Delivery of Care

612.20.2.1. The provider will send a completed EDWP Notification Form to the care coordinator, within 3 business days

612.20.2.2. The provider will telephone the care coordinator within 24 hours of learning of the change in the member's status (e.g., physical or social health status, informal support system, environmental/community status, etc.).

612.20.2.3. The provider sends a completed EDWP Notification Form to the care coordinator within three business days. (Performance of the online incident report is required for ER, Hospitalization or Death).

612.20.3. Nursing Facility Placement

612.20.3.1. The provider will telephone the care coordinator and follow up with a completed EDWP Notification Form to the care coordinator within three business days of learning that the member has been admitted to a nursing facility.

612.20.3.2. If a nursing facility discharges a member who needs EDWP (CCSP and SOURCE) services reinstated, the nurse care coordinator must complete a face to face

review of the member within 48 hours of having received notice of the discharge, to assess the need for services not currently included on Form 5588 (EDWP (CCSP and SOURCE) Level of Care and Placement Instrument). If new services are indicated, the nurse care coordinator must document the new services on the EDWP Modified Assessment Form and submit a request for approval to the member's physician on the Physician Change in Services Letter.

612.20.3.3. Providers who render services to members without a current EDWP (CCSP and SOURCE) Level of Care and Placement Instrument will not receive Medicaid reimbursement.

612.21. Potential Medical Assistance Only (PMAO) Members

PMAO members have incomes which exceed the current Supplemental Security Income (SSI) level. PMAO Members, screened by care coordinators and providers to determine their potential eligibility for EDWP (CCSP and SOURCE) Medicaid benefits, may be required to pay toward the cost of their EDWP (CCSP and SOURCE) services (cost share).

612.21.1. Brokering PMAO Members - PMAO members, **who do not yet possess current Medicaid member numbers**, are determined eligible for Medicaid services by the Division of Family and Children Services (DFCS). Care coordinators will broker services for Potentially Medical Assistance Only (PMAO) members with providers. If the member is PMAO:

612.21.1.1. During assessment, the care coordinator must inform the member of the possible requirement to pay a portion of the cost of services (cost share) and must discuss the Medicaid eligibility process with the member/representative.

612.21.1.2. Both the care coordinator and the service provider must reinforce the member's cost share responsibility by clearly informing the member that if cost share is not paid, the member is at risk of losing EDWP (CCSP and SOURCE) services.

612.21.1.3. The care coordinator must include in the referral packet sent to the provider a copy of the PMAO Financial worksheet indicating estimated cost share.

612.21.1.4. Once the care coordinator receives a EDWP Notification Form verifying that the PMAO member has begun receiving service, the care coordinator must advise the member to apply for Medicaid benefits through the local County DFCS and will assist the member in arranging

transportation to DFCS if necessary.

612.21.1.5. Within two weeks of referring the member to DFCS, the care coordinator must contact the County DFCS to determine the Medicaid application date and/or if the member has been interviewed.

612.21.1.6. The care coordinator must make a good faith effort to ensure that the member is proceeding with the Medicaid eligibility process. If the care coordinator determines that the member is having difficulty with the process, a case conference is scheduled with the member and DFCS to define areas where assistance is needed

612.21.1.7. Within 45 days of the Medicaid application date, the care coordinator must contact DFCS to ascertain the member's eligibility status. If DFCS has not yet determined the member's Medicaid eligibility, the care coordinator will contact DFCS at least every two weeks until eligibility is established.

612.21.2. Accepting a PMAO member - When the provider accepts a referral for a PMAO member, the care coordinator must give the member a written estimate of the cost share amount prior to the delivery of services. The provider must inform the member in writing that the member is responsible for the total cost of all services rendered if DFCS later determines that the member is ineligible for Medicaid, or if the member fails to proceed with the Medicaid application.

612.21.3. Cost Share Collection -The provider must have written policies clearly describing cost share billing/collection and refund policies and procedures. For PMAO members, the provider may either:

612.21.3.1. collect only the estimated cost share from the member. If this method is chosen, services to the member must be delivered before collecting cost share. The provider must bill the member for cost share at least monthly. The provider is not required to wait until the end of the month before collecting cost share but may collect cost share as service is provided until the provider has collected the entire cost share.

EXCEPTION: ALS providers may collect cost share at the beginning of the service month.

612.21.3.2. collect the entire cost of service from the member until DFCS establishes Medicaid eligibility prior to delivering service, the provider must furnish the member written notice as to which of the above collection methods will be used.

612.21.4. Reconciliation of the Member's Account - Within 30 calendar days of receipt of the SAF(s) showing the actual cost share, the provider must return any excess cost share collected or bill the member for any remaining cost share due the provider. A member determined ineligible for Medicaid is responsible for the entire cost of services delivered.

612.21.5. Reimbursement from Medicaid - The provider may not submit claims for Medicaid reimbursement until DFCS assigns the member a Medicaid member number. Within three business days of the receipt of the EDWP (CCSP/SOURCE) Communicator (CCC), Form 5590, from DFCS, the care coordinator must generate Service Authorization Forms showing the member's Medicaid member number and actual cost share.

612.21.6. Member MAO Eligibility - Once eligibility is established and the actual cost share is determined, the PMAO member becomes MAO eligible.

NOTE: In situations where a member's cost share is reduced after the member has paid, the care coordinator will adjust the SAF to enable the provider to bill Medicaid for the difference. The provider's cost share policy will state if the overpayment shall be credited or refunded.

612.22. Medical Assistance Only (MAO) Members

A Medical Assistance Only (MAO) member is one who receives Medicaid benefits but who receives no cash assistance such as Supplemental Security Income (SSI). MAO members may be required to pay toward the cost of EDWP (CCSP and SOURCE) services (cost share).

612.22.1. Cost Share Collection

612.22.1.1. The EDWP (CCSP and SOURCE) provider must furnish the member a written statement of the amount of cost share, if any, each month cost share is due. The monthly statement will include:

612.22.1.1.1. The date of the statement

612.22.1.1.2. The amount due,

612.22.1.1.3. The date payment is due

612.22.1.1.4. The statement that, “If the bill is not paid within 30 calendar days, discharge from the agency will be effective the 46th calendar day from the date of this statement”.

612.22.1.2. Providers will bill for cost share at least monthly.

612.22.2. Members Failing to Pay Cost Shares

The provider may discharge a member from service for failure to pay cost

share after the provider has given appropriate written notice on the monthly statement

The care coordinator and provider will advise members and/or member's representatives that providers may discharge members who fail to pay cost share. If the member does not pay cost share by the 31st day, as indicated on the monthly statement, the provider will notify the care coordinator that services will be discontinued on the 46th day from the date of the statement. Within three business days, the provider will submit a EDWP Notification Form and a copy of the cost share bill to the care coordinator.

If the Care Coordinator attempts to broker the service with another provider, the Care Coordinator will inform the potential/subsequent provider of the member's failure to pay the required cost share to the current provider(s). Care coordinators will frequently discuss cost share with members but will not engage in collection activities. Providers who have difficulty collecting cost share will discuss the problem with the care coordinator as soon as it occurs.

Procedures for disasters occurring at a EDWP (CCSP and SOURCE) facility must also be included.

614.1.1. Triage Levels

The provider establishes and maintains policies and procedures for assuring that a system of contingency plans for emergencies or disasters is in place. These plans will assure back-up care when usual care is unavailable, and the lack of immediate care would pose a serious threat to the health, safety, and welfare of the member.

These policies and procedures should provide uninterrupted service according to the priority levels identified by the care coordinator for each member enrolled in the CCSP AND SOURCE. These policies and procedures include:

614.1.1.24. Have willing caregivers whose capabilities are limited

614.1.1.25. Require assistance with ADLs

614.1.1.26. Ambulate with the assistance of two people

614.1.1.27. Exhibit disorientation or confusion

Level Four members:

614.1.1.28. Require a maximum amount of care and have no caregivers in the home

614.1.1.29. Exhibit acute symptoms

614.1.1.30. Are confined to bed

614.1.1.31. Require complete care

614.1.1.32. Require treatment and/or procedures necessary to sustain life

614.1.2. Staff Training and Drills

The provider must assure that all staff members are provided ongoing training in disaster preparedness. The training program must include drills so that employees are able to promptly and correctly carry out their assigned roles in case of a disaster.

Disaster drills must be conducted at least annually and must be documented as to date, time, staff/member participation, problems, and action taken to prevent problems from recurring

614.1.3. Posting of Instructions

The provider posts emergency instructions and evacuation routes in a prominent place in each room of the facility and orients all members to these routes.

614.2. Evacuation Procedures

Evacuation drills must be conducted at least every other month in all EDWP (CCSP and SOURCE) facilities and must be documented. A designated place for members and staff to meet outside the facility following evacuation must be described in the written disaster procedures. One or more staff members must be assigned to make sure everyone is out of the building.

614.3. Smoking Control

If RC, ADH, and ALS providers permit smoking in a facility providing EDWP (CCSP and SOURCE) services, the provider must designate a separate and distinct smoking area. All smoking is confined to the designated area.

615. Program Evaluation

615.1. General

The Georgia Departments of Human Services and Community Health monitor program administration and perform utilization reviews of member services and care. Providers will develop a written continuous quality improvement plan that addresses how the

agency determines the effectiveness of services, identifies areas that need improvement, and implements programs to improve services and quality of care

615.2. Program Evaluation and Customer Satisfaction

615.2.1. Providers must establish and adhere to policies for program evaluation and conduct comprehensive reviews of their programs at least once a year. Provider agency administrative and program staff, members, and members' representatives participate in the review.

The provider agency will determine who will conduct self-evaluation reviews and will establish written policies and procedures for conducting them. At a minimum, the comprehensive program evaluation consists of a review of the agency's administrative policies and procedures, members' clinical records (available to authorized staff only), and members' satisfaction with services.

615.2.1.1. Policy and Administrative Review: The provider reviews policies and procedures at least annually and revises them as needed. The provider indicates in policy how changes in agency policies and procedures are communicated to all staff.

615.2.1.2. Clinical Record Review: The provider will monitor and review a 25% random sample or a minimum of 50 records (both active and closed clinical records), whichever is less, to:

615.2.1.2.1. assure that staff follow established policies and procedures in providing services

615.2.1.2.2. determine the adequacy of member care plans

615.2.1.2.3. determine the appropriateness of staff decisions regarding the particular care ordered for members.

The review must include a summary of the program's effectiveness and a plan and time frame to correct deficiencies. The provider must maintain review results in the administrative files and keep them available for review when requested.

615.2.1.3. Member Satisfaction: The agency must conduct quality improvement activities which include collection, measurement and evaluation of member satisfaction with the services provided by the agency. The member satisfaction review must include direct communication with members. The provider agency's quality

improvement activities must include:

615.2.1.3.1. publication of a local or toll-free telephone number for a designated staff person responsible for addressing quality improvement issues, member complaints, and conducting ongoing member satisfaction activities. The contact telephone number must be distributed to all EDWP (CCSP and SOURCE) members and/or member representatives

615.2.1.3.2. routine assessments of member satisfaction during supervisory visits. For frequency, refer to the requirement for supervision indicated in each service-specific manual.

615.2.1.3.3. collection and analysis of feedback regarding service staff reliability, responsiveness, competency, empathy, and courtesy

615.2.1.3.4. specific time frames for reporting, investigating and resolving service complaints

615.2.1.3.5. specific activities for addressing results of quality improvement activities.

615.2.2. The provider maintains a written report describing the findings of the evaluation and any corrective action taken. The provider must document follow-up to assure the issues have been resolved.

615.3. Program and Administrative Monitoring

The EDWP (CCSP and SOURCE) Unit uses results of monitoring by various entities to determine provider compliance with EDWP (CCSP and SOURCE) requirements.

615.3.1. Following policy set forth in Georgia's Elderly and Disabled 1915(c) Home and Community-Based Services Waiver, program specialists from the EDWP (CCSP and SOURCE) Unit/Waiver Quality Unit at DCH perform unannounced program integrity site visits on 25% of all active EDWP (CCSP and SOURCE) providers during each state fiscal year. Site visits are made on Alternative Living Services (ALS) Family and Group model homes, Personal Support Services (PSS) agencies and Adult Day Health (ADH) facilities. The compliance site visit involves completion of a monitoring tool that surveys the provider's compliance with EDWP (CCSP and SOURCE) program policy, supervision of the member and adherence to the member's care plan. A customer satisfaction survey is administered to at least one EDWP (CCSP and SOURCE) member during

each site visit. Results of these visits can identify deficiencies that require corrective action from the provider.

615.3.2. The DCH Program Integrity Section in the Office of Inspector General conducts utilization reviews and audits.

615.3.3. The Healthcare Facility Regulations Division of DCH issues permits and licenses for adult day care facilities, personal care homes, private home care providers and home health agencies. In addition, the HFRD investigates complaints and conducts inspections to determine ongoing compliance with licensure requirements.

615.4. Utilization Review

615.4.1. The DCH performs periodic Utilization Reviews of EDWP (CCSP and SOURCE) member services to assure the medical necessity for continued care and the effectiveness of the care being rendered. Each provider is reviewed as frequently as deemed appropriate or necessary, with on-site reviews or audits sometimes conducted with no prior notice

615.4.2. During each review visit, the DCH examines member records and conducts in-home or on-site individual member assessments.

615.4.2.1. The DCH examines member records to assure that they contain the following:

615.4.2.1.1. a current Level of Care and Placement Instrument that is signed, dated, certified, and initialed

615.4.2.1.2. physicians' orders if applicable

615.4.2.1.3. provider care plans

615.4.2.1.4. documentation of services provided, their frequency, and appropriateness of service revisions

615.4.2.1.5. documentation of supervisory visits.

615.4.2.2. The DCH conducts on-site assessments of members to determine if the member's condition warrants continuation of the current level of services rendered by all providers. The assessments determine whether:

615.4.2.2.1. additional needs exist

615.4.2.2.2. care provided is adequate

615.4.2.2.3. services have been effective

615.4.2.2.4. alternative methods of care should be

considered

615.4.3. Alliant Health Solutions routinely provides the EDWP (CCSP and SOURCE) Unit with copies of Utilization Review reports. EDWP (CCSP and SOURCE) Unit staff members review each report and the provider's written response to all deficiencies cited in the report.

615.4.4. Upon completion of the on-site visit, the DCH forwards to the provider a written report of the Utilization Review findings. The provider must submit a corrective plan of action to the DCH within fifteen (15) calendar days of the date of the utilization review report. The provider's failure to comply with the request for a corrective plan of action may result in adverse action, including suspension of referrals or termination from the program.

615.4.5. When Utilization Review reports include recommendations for changes in member services, the DCH will mail the report to the provider five business days prior to mailing the member letter(s). The member has the right to appeal any adverse action recommendations made by the DMA. Adverse actions imposed by DMA include:

615.4.5.1. reducing service(s)

615.4.5.2. terminating service(s)

615.4.5.3. determining service is inappropriate

If the member appeals by filing for a hearing within ten calendar days of the date of the member letter, the member may continue to receive services until the Administrative Law Judge (ALJ) makes a decision. Providers must consult with the care coordinator to confirm that the member has requested a hearing within ten calendar days and wishes to remain in service. The DCH will reimburse the provider for services rendered during the hearing process if the member's request for hearing was filed within the ten-calendar day limit.

If the member does not file for a hearing within ten calendar days of the adverse action letter, the DCH's recommendation becomes effective at the end of the ten calendar days as stated in the utilization review report and the DMA notice to the member. However, the member has the right to request a hearing within 30 calendar days from the date of the member's letter.

Chapter 700: Eligibility Conditions

701. General

The DMA reimburses enrolled providers for EDWP (CCSP and SOURCE) services provided to eligible persons only. Eligible persons are those who:

701.1. have been determined Medicaid eligible or potentially Medicaid eligible

701.2. have been assessed appropriate for the EDWP (Community Care/SOURCE Services Programs) by the care coordinator

701.3. are certified for a level of care appropriate for placement in an intermediate care facility

701.4. are in need of service(s) which can be provided by the EDWP (CCSP AND SOURCE) at less cost than the Medicaid cost of nursing facility care

A member may NOT participate in more than one Medicaid waiver program/duplicative service programs at the same time. However, a provider may participate in more than one Medicaid waiver program. Medicaid Waiver Programs include:

701.5. EDWP (CCSP/SOURCE)

701.6. Independent Care Waiver Program (ICWP)

701.7. Comprehensive Supports Waiver (COMP formerly CHSS)

701.8. New Options Waiver (NOW formerly MRWP)

Other Service Programs include:

701.9. Georgia Pediatric Program (GAPP) / Medicaid State Plan

702. Verification of Medicaid Eligibility

702.1. Medicaid Eligible Members

The care coordinator must verify a member's Medicaid eligibility prior to brokering services with a provider. The provider verifies eligibility monthly thereafter by checking the member's Medicaid card at www.mmis.georgia.gov. A copy of the Medicaid Card is included in this manual. If the member is ineligible for Medicaid benefits, the DMA does not reimburse a provider for services rendered. Refer to Section II of the DCH Part I Policies and Procedures Manual's Billing Appendix for additional methods to check Medicaid eligibility.

702.1.1. PMAO Members

Care coordinators broker potentially medical assistance only (PMAO) members with providers. Providers may not bill Medicaid for services rendered to PMAO members until the care coordinator has issued SAFs

reflecting the member’s Medicaid member number.

In cases of lost or stolen Medicaid cards or other emergency situations, a provider may verify Medicaid eligibility for the current month by calling the Verification Unit at the Division at 1 (800) 766-4456.

To verify Medicaid eligibility for past months, a provider may request information in writing from:

Division of Medical Assistance
Medicaid Card Control Unit
P.O. Box 38435
Atlanta, Georgia 30334

The request must include the following information:

702.1.1.1. Member's name exactly as it appears on the Medicaid card

702.1.1.2. Member's Medicaid or Social Security number

702.1.1.3. Member's birth date

702.1.1.4. Dates for which the provider is requesting verification

702.1.1.5. Return address of provider agency

Chapter 800: Payment Authorization

If the provider anticipates that the member's service costs will exceed the level of service(s) authorized, the provider must notify the care coordinator.

Close communication with the care coordinator is important in the prior approval / prepayment request process. The care coordinator consults with the provider to determine if a reassessment is needed when the member's need for services increases.

801. Prior Approval

If, prior to the beginning of the service month, the provider anticipates that the member's service costs will exceed the authorized cost:

801.1. The provider must call the care coordinator and request approval to increase the level of services. If the care coordinator agrees, the increased level will be approved.

801.2. Within three business days of the care coordinator's verbal approval, the provider will complete the EDWP Notification Form, attaching the physician's order or other relevant medical/social information, if applicable, and send it to the care coordinator

801.3. The care coordinator will then complete the DMA-80, if necessary, and submit it to the EDWP (CCSP and SOURCE) Unit.

801.4. The EDWP (CCSP and SOURCE) Unit will send the approval to the care coordinator who will forward it to the provider.

801.5. If the care coordinator does not approve the additional service level, additional services will not be authorized.

802. Prepayment Review

If an unforeseen emergency not anticipated at the beginning of the service month causes the level of a member’s services to exceed the level of services authorized, the provider may request a prepayment review. A prepayment review is appropriate only in an emergency situation.

802.1. The provider must contact the care coordinator to advise that services have been provided at a higher level and that a EDWP Notification Form is forthcoming.

802.2. If the care coordinator agrees that the higher service level is appropriate, the provider must send to the care coordinator the completed EDWP Notification Form and any attachments such as physician’s orders and additional medical/social information, by the 15th day of the month following the month in which service(s) were rendered.

802.3. The care coordinator will complete the DMA-80, (if necessary, and submit it to the EDWP (CCSP and SOURCE) Unit for approval.

802.4. The EDWP (CCSP and SOURCE) Unit will send the approval to the care coordinator who will forward it to the provider.

802.5. If the care coordinator does not approve the higher service level, additional services will

not be authorized, and the provider will not be reimbursed for the higher level of services.

803. DMA-80s for PMAO Members

Care coordinators may not submit DMA-80 requests for PMAO members who are in the eligibility determination process and do not yet have a Medicaid number. Once DFCS verifies the member's Medicaid eligibility, the care coordinator must complete the DMA-80s for retroactive reimbursement, attach a copy of the EDWP (CCSP/SOURCE) Communicator (CCC), and forward with a completed Care Coordination Transmittal to the EDWP (CCSP and SOURCE) Unit as a prepayment review.

NOTE: If ERS installation is the sole reason for the cost of the member's service(s) exceeding the cost limit, the care coordinator is not required to submit a DMA-80 to the EDWP (CCSP and SOURCE) Unit. The care coordinator may approve the installation at the local level and the provider may proceed with installation immediately.

804. Cost Share and the EDWP (CCSP and SOURCE) Cost Limit

Cost share is the amount that a member pays towards the cost of waiver services. To determine the amount billed to Medicaid, the care coordinator determines the total cost of services and deducts the cost share. The care coordinator and the provider determine if the cost of the member's services are within the cost limit.

Chapter 900: Scope of Services

901. Covered Services

The DCH reimburses providers only for EDWP (CCSP and SOURCE) services:

901.1. rendered by approved enrolled providers who comply with the policies and procedures contained in the General Services manual and EDWP (CCSP and SOURCE) policies and procedures contained in service specific manuals.

901.2. supervised by staff as required in the appropriate service Policy and Procedure Manuals

901.3. ordered on the Comprehensive Care Plan by the EDWP (CCSP and SOURCE) EDWP (CCSP and SOURCE) care coordinator and reflected on the SAF

901.4. provided to persons who are Medicaid eligible at the time the services were rendered

901.5. provided to persons who are certified for a level of care appropriate for placement in an intermediate care facility

901.6. If an individual is enrolled in the EDWP (CCSP and SOURCE) waiver and is diagnosed with a terminal illness, he/she may elect to enroll in a hospice program. He/she may continue to receive waiver services that are not duplicative of hospice services.

An individual who is not enrolled in the EDWP (CCSP and SOURCE) and is receiving hospice services may be referred to the CCSP AND SOURCE. If the individual meets eligibility criteria for CCSP AND SOURCE, the individual may receive EDWP (CCSP and SOURCE) services that are not duplicative of hospice services. The hospice agency continues to assume full responsibility for the professional management of the individual's hospice care in accordance with the hospice Conditions of Participation

Waiver services that are not duplicative of hospice services are:

901.6.1. Adult Day Health

901.6.2. Home Delivered Meals

901.6.3. Extended Personal Support (Respite)

901.6.4. Alternative Living Services

901.6.5. Emergency Response Services

901.6.6. Structured Family Caregiver

EXCEPTION ALS: An EDWP (CCSP and SOURCE) member receiving hospice services in a private home can choose/coordinate his/her own placement into a personal care home or accept hospice services after already residing in the ALS. The hospice agency does not coordinate the placement/services for the benefit of the agency. The hospice agency will continue to assume full responsibility for the professional management of the individual's hospice care in accordance with the hospice Conditions

of Participation.

Requests or claims for other waiver services while enrolled in a hospice program will be denied.

901.7. Waiver Residential Services

An individual's home is where he or she resides. An individual may continue to receive residential services in a waiver program. When this occurs, the hospice agency assumes full responsibility for the professional management of the individual's hospice care in accordance with the hospice Conditions of Participation. When an individual elects hospice, the hospice agency and the waiver resident must communicate, establish, and agree upon a coordinated plan of care for both providers which reflects the hospice philosophy and is based on an assessment of the individual's need and unique living situation.

901.7.1. Evidence of the coordinated plan of care must be in the clinical records of both providers. The facility and the hospice must communicate with each other when any changes are indicated to the plan of care and each provider must be aware of the other's responsibilities in implementing the plan of care.

901.7.2. All hospice services must be provided directly by hospice employees and cannot be delegated. The hospice may involve the facility staff in assisting with the administration of prescribed therapies included in the plan of care only to the extent that the hospice would routinely utilize the services of the patient's family/caregiver.

901.7.3. The facility must offer the same service to its residents who have elected the hospice benefit as it furnishes to its residents who have not elected the hospice benefit. The hospice patient should not experience any lack of facility services or personal care because of his/her status as a hospice patient.

The provider RN will not provide supervision of care and services to the EDWP (CCSP and SOURCE) member who elects Hospice services in the ALS.

902. Non-Covered Services

902.1. Supportive Living Services oriented to the mental health needs of the member.

902.2. Adult Day Care Services oriented to the social service needs of the member

902.3. Medical rehabilitation services provided on an outpatient basis but not provided as part While the member is in a treatment facility, institution or nursing facility,

902.4. PSS, ADH, RC, HDS, SNS, and HDM services are not covered of the EDWP (CCSP and SOURCE) Comprehensive Care Plan.

902.5. Services not authorized by the EDWP (CCSP and SOURCE) care coordinator

902.6. Services not rendered in accordance with the provisions of all applicable Policy and Procedure manuals.

Chapter 1000: Basis For Reimbursement

903. Processing the Service Authorization Form (SAF), or Prior Authorization

Reimbursement is made to EDWP (CCSP and SOURCE) providers who have:

903.1. completed the EDWP (CCSP and SOURCE) enrollment process

903.2. been assigned a EDWP (CCSP and SOURCE) Medicaid provider number

903.3. provided the services ordered on the Comprehensive Care Plan and authorized on the SAF/PA.

903.4. EDWP (CCSP and SOURCE) services must be rendered before providers submit claims for reimbursement.

Before filing claims, providers must reconcile service units actually provided with service units authorized on the SAF/PA; providers can only bill the Department for services provided. If the provider or their billing agent over bills the Department, the provider must refund the overpayment to the Department. Failure to refund overpayment will result in recoupment and possible adverse action against the provider. See Section VIII-Adjustments in the DCH Billing Manual for instructions on refunding overpayments to the Department.

904. Beginning Date of Reimbursement

904.1. The provider can bill and be reimbursed for services only after the member's Medicaid eligibility has been approved and the member's nursing home level of care has been approved for a length of stay to cover the provider's dates of service, as documented by the receipt of a signed Level of Care and Placement Instrument (LOC form) from the member's case management agency. The earliest date the provider can be reimbursed under the length of stay on the LOC form is the beginning date of the length of stay indicated at the bottom of the form. The beginning date of the length of stay is the date of the in-home assessment for a new admission or the day following the expiration of the previous length of stay for an annual reassessment. All services must be authorized on the member's prior authorization for services (PA) on GAMMIS.

904.2. Case management providers can bill and be reimbursed from the date of the in-home assessment after all conditions have been met.

904.3. Alternative Living Services (ALS) providers can bill and be reimbursed from the date of the in-home assessment or the date of admission, whichever is later, after all conditions have been met.

904.4. Billing and reimbursement for all other services begins with the first date of the service, which can't be authorized by the case manager until on or after the date of the RN's signature at the bottom of the level of care and placement instrument. All conditions must also be met before billing and reimbursement can begin.

905. Relative Caregivers

905.1. Georgia Medicaid will not reimburse for personal care services or any waiver services when provided to recipients by legally responsible relatives, i.e., spouses, legal guardians or parents of minor children, when the services are those the persons are already legally obligated to provide.

Services provided by relatives, except as noted above, may be covered when the following criteria are met:

905.1.1. The relative meets the qualifications for providers of care as outlined in the Policies and Procedures for EDWP (CCSP and SOURCE) Personal Support Services/Consumer Direction/Structured Family Caregiver

905.1.2. The relative must meet all required training and qualifications before he/she assumes the role of paid caregiver for the member; as outlined in the Policies and Procedures for EDWP (CCSP and SOURCE) Personal Support Services/Consumer Direction/Structured Family Caregiver

"Relative" is defined as a person who is related by blood or legal adoption within the third degree of consanguinity or by marriage. Third degree of consanguinity means mother, father, grandmother, grandfather, sister, brother, daughter, son, granddaughter, grandson, aunt, uncle, great aunt, great uncle, niece, nephew, grand-niece, grand-nephew, 1st cousins, 1st cousins, once removed, and 2nd cousins.

905.2. In the case of self-directed care provided by a relative, all of the following criteria must be met:

905.2.1. An agreement must be in place between the member, employee and or the provider before services are rendered;

905.2.2. The member must pay the caregiver at a rate that does not exceed that which would otherwise be paid to a provider of a similar service;

905.2.3. The service must not be an activity that the family would ordinarily perform or is responsible to perform

906. Reimbursement for Consumer Directed Personal Support Services

Reimbursement for wages in excess of 40 hours per week to a consumer directed PSS aide will automatically be paid at one and one/half times the normal hourly rate from the member's budget, in accordance with current federal law on overtime pay for personal support services, unless the employee has been exempted from overtime as a live-in caregiver.

907. Member Exclusions

907.1. Members who are at the time of application for enrollment or at the time of enrollment, domiciled or residing in an institution, including skilled nursing facilities, hospital swing bed units, hospice, intermediate care facilities for the mentally ill, or correctional institutions

907.2. Members who are enrolled in the Georgia Families program

907.3. Children enrolled in the Medical Services Program administered by the Georgia Division of Public Health (Children's Medical Services)

907.4. Members enrolled in the Service Options Using Resources In Community Environments (SOURCE) program

907.5. Children in foster care or otherwise in the custody of the State

907.6. Participants in some other waiver programs (BCC Waiver, Independent Care Waiver, Mental Retardation Waiver, Laurens County Waiver)

907.7. Participants in the Recipient Lock –In program (GEXP, , SOURCE, PASSR, HMO, GAPP)

907.8. Children enrolled in the Georgia Pediatric Program (GAPP)

907.9. Members with retroactive eligibility only and members with presumptive eligibility

907.10. Children with severe emotional disturbances whose care is coordinated under the TRIS or PRTF programs

907.11. Children who are receiving services under Title V (CMS) funding

908. Billing Tips

908.1. Use a current DCH Billing Manual. Manuals may be obtained from www.mmis.georgia.gov. Manuals may also be obtained by calling GAINWELL TECHNOLOGIES Provider Enrollment at 1-800-766-4456.

908.2. Check the EDWP (CCSP and SOURCE) member's Medicaid eligibility each month. The SAF authorizes service units, but it is NOT proof of Medicaid eligibility.

908.3. Do Not provide services without authorization from the care coordinator

908.4. Prepare claims carefully and **submit claims timely after the service has been provided**. To assure maximum use of EDWP (CCSP and SOURCE) service dollars, it is necessary to periodically "de-authorize" unused units of service from the system. This "de-authorization" removes unpaid units of service from the GAINWELL TECHNOLOGIES Prior Authorization file and updates the record to reflect the number of paid units only. Claims that are denied due to de-authorization must be re-authorized by the Care Coordinator.

908.5. Timeliness - Providers are allowed 180 days from the last day of the month of service to submit claims. If you are having difficulty getting a claim paid you must keep the claim timely by billing a minimum of every 3 months.

908.6. Providers are encouraged not to bill more frequently than every two weeks. Monthly billing is advised

908.7. Bill only for actual dates and units of service provided

908.8. Keep copies of all documentation such as Remittance Advices and document all

telephone contacts (name(s), agency, date and time of contact) made regarding billing.

908.9. Carefully review each Remittance Advice for accuracy and address problems timely

908.10. Denied claims must be resubmitted when the problem has been corrected. GAINWELL TECHNOLOGIES does not maintain the denied claim on file

908.11. Attend all training offered on EDWP (CCSP and SOURCE) Billing.

908.12. The paper version of the CMS-1500 claim form has been revised. Please use the new version if submitting paper claims

909. General Claims Submission Policy for Ordering, Prescribing, or Referring (OPR) Providers

The Affordable Care Act (ACA) requires physicians and other eligible practitioners who order, prescribe and refer items or services for Medicaid beneficiaries to be enrolled in the Georgia Medicaid Program. As a result, CMS expanded the claim editing requirements in Section 1833(q) of the Social Security Act and the providers' definitions in sections 1861-r and 1842(b)(18) C. Therefore, claims for services that are ordered, prescribed, or referred must indicate who the ordering, prescribing, or referring (OPR) practitioner is. The department will utilize an enrolled OPR provider identification number for this purpose. Any OPR physicians or other eligible practitioners who are NOT already enrolled in Medicaid as participating (i.e., billing) providers must enroll separately as OPR Providers. The National Provider Identifier (NPI) of the OPR Provider must be included on the claim submitted by the participating, i.e., rendering, provider. If the NPI of the OPR Provider noted on the Georgia Medicaid claim is associated with a provider who is not enrolled in the Georgia Medicaid program, the claim cannot be paid.

Effective 4/1/2014, DCH will begin editing claims submitted through the web, EDI and on CMS-1500 forms for the presence of an ordering, referring or prescribing provider as required by program policy. The edit will be informational until 6/1/2014. Effective 6/1/2014, the ordering, prescribing and referring information will become a mandatory field and claims that do not contain the information as required by policy will begin to deny.

For the NEW CMS-1500 claim form: Enter qualifiers to indicate if the claim has an ordering, referring, or prescribing provider to the left of the dotted line in box 17 (Ordering = DK; Referring = DN or Supervising = DQ).

For claims entered via the web: Claims headers were updated to accept ordering or referring Provider ID and name for Dental and Institutional claims and the referring provider's name for Professional claims. The claim detail was updated to accept an ordering or referring provider ID and name. Utilize the "ordering" provider field for claims that require a prescribing physician.

For claims transmitted via EDI: The 837 D, I, and P companion guides were updated to specifically point out the provider loops that capture the rendering, ordering, prescribing, referring and service facility provider information that is now used to transmit OPR information.

910. Resolving Billing Problems

910.1. Carefully review the error code message (EOB) and recheck the information on the Remittance Advice (RA) against the information on the Service Authorization Form (SAF), correct any error and re-bill the claim.

910.2. Contact the GAINWELL TECHNOLOGIES Telephone Inquiry Unit for information updates on the claim you are billing. The GAINWELL TECHNOLOGIES system updates weekly.

910.3. If the SAF is not posted as a "PA Record" in the GAINWELL TECHNOLOGIES Enterprise Services (HPES) system, contact the applicable Case Management CCSP or Source agency assigned to that member. For all other billing issues, contact GAINWELL TECHNOLOGIES telephone inquiry

910.4. For assistance with billing problems unrelated to 700 error codes, providers must complete the Provider Inquiry Form and mail, with a copy of the RA, to the address on the form. The problem will be researched.

910.5. Request an on-site visit by a GAINWELL TECHNOLOGIES Field Representative by calling GAINWELL TECHNOLOGIES Telephone Inquiry. See Appendix X.'

911. Rounding Rules

To provide the most accurate and fair methodology for billing for services rendered. The state utilizes the following Rounding Rules as it relates to those services provided in 15-minute increments. Providers should review this table when determining how many units will be billed following rendering of services. Documentation with actual time spent rendering services will be reflected in the member's service notes.

Units Number of Minutes 15 Minute Units

1 unit: ≥ 8 minutes through 22 minutes

2 units: ≥ 23 minutes through 37 minutes

3 units: ≥ 38 minutes through 52 minutes

4 units: ≥ 53 minutes through 67 minutes

5 units: ≥ 68 minutes through 82 minutes

6 units: ≥ 83 minutes through 97 minutes

Appendix B
Referral System for Use with Multiple EDWP (CCSP and SOURCE) Providers of the Same Service

A. Client is able to choose

Where more than one EDWP (CCSP and SOURCE) provider offers the same major service within a given geographic area, a choice of these providers is presented to the client. The client or client representative indicates the preferred provider.

Factors affecting the client's choice are:

i. Physician's recommendation for service

If the client's physician specifies a preference for a particular EDWP (CCSP and SOURCE) provider to render services to the client, the client will be informed of the physician's recommendation, and whether or not the particular services needed are provided by the recommended provider. The client makes the final choice regarding the service provider.

ii. Availability of services

If the client is in need of immediate (emergency) services and the EDWP (CCSP and SOURCE) provider chosen by the client is unable to render the immediate service, an alternate provider may be utilized.

If the EDWP (CCSP and SOURCE) provider chosen does not provide the comprehensive services needed (i.e., O.T.) the client may be referred to an alternate provider.

Note: Care coordinator/Lead Agency notifies the EDWP (CCSP and SOURCE) Unit when a EDWP (CCSP and SOURCE) provider does not offer a required service.

B. Client is unable to choose

If, for any reason (unfamiliarity with service providers, confused mental state, etc.), a client is unable to choose from among multiple providers of the same service, the EDWP (CCSP and SOURCE) care coordinator will help the client make an informed choice.

Appendix C
Information About Advance Directives

A. Advance Directives

i. What are Advance Directives?

Advance Directives are documents that state an individual's choices about medical treatment or name someone to make choices about medical treatments for the individual if the individual is unable to make those decisions. Advance Directives are written before the onset of serious illness. The Patient Self-Determination Act requires all programs that provide home health care or personal care services and that participate in Medicaid and Medicare programs to have written policies and procedures on Advance Directives. The State of Georgia has two forms of Advance Directives: The Living Will and the Durable Power of Attorney for Health Care.

ii. What is a Living Will?

A Living Will is one type of an Advance Directive. A Living Will is a document that is used only when a person has a terminal condition. It instructs the physician regarding decisions to withhold or withdraw certain medical procedures which could be used to prolong life. A Living Will deals with how an individual wishes to be treated when that individual is dying. The Living Will allows an individual to die naturally, without death being artificially prolonged by various medical procedures.

iii. What is a Durable Power of Attorney for Health Care?

A Durable Power of Attorney for Health Care is another form of Advance Directives. This document allows one to designate a person or persons to make decisions regarding health care when the individual is unable to do so.

iv. Am I Required to Have Advance Directives?

No. No one is required to have Advance Directives. Each individual has the right to choose whether or not to have Advance Directives.

v. What Are My Rights?

Each individual has the right to refuse any medical or surgical treatment or services that the individual does not wish to receive. Georgia law allows individuals to sign Advance Directives so that the individual's wishes will be followed even if the individual becomes unable to communicate those wishes to the health care provider.

vi. Can I Be Refused Admission to the EDWP (CCSP/SOURCE) Service Program If I Do Not Have an Advance Directive?

No. Federal law prohibits programs from refusing to admit a client because the client does not have an Advance Directive. However, individuals will be asked if they do have an advance directive and those answers will be
documented.

vii. Where Can I Get More Information About Advance Directives?

This information sheet is one way of providing clients with information about Advance Directives. If you would like more information about Advance Directives, you may contact the Division of Aging Services at
(404) 657-5319 or an attorney.

Upon return from physician, maintain original in client file and send copies to each provider providing services to the client and Level of Care page to DFCS if client is MAO or PMAO.

Note on instruction 23 (above): The signature of the collaborating team member is only required when the assessment is performed by an LPN, or the service addition is made by a staff member other than an RN. (Rev. 01/2015)

Enter the estimated cost per month for the service to be provided. In the Cost column record the Medicaid rate. Calculate cost per month by multiplying rate per unit of service by number of units provided (for example: ALS $50.00 x 30 units per month = $1500.00. Use current provider rates to determine cost per month. If total cost of client services is expected to exceed cost cap consistently, client is not appropriate for CCSP AND SOURCE. For non- EDWP (CCSP and SOURCE) services leave estimated cost blank.

Georgia Department of Human Services – Alzheimer's Disclosure Form

A. General Information/Background

During the 1994 session of the Georgia General Assembly, Title 31 of the Official Code of Georgia Annotated was amended to include a new article (number 7), requiring facilities, programs, or entities advertising specialized care for persons with a probable diagnosis of Alzheimer's disease or related dementia to provide written disclosure of information related to staffing, training, activities, involvement with the family, and program costs, among others. The Act requires that this information be provided to any person seeking information concerning placement in or care, treatment, or therapeutic activities from the program.

B. Which Organizations Must Complete This Form

Any program, facility, entity or any instrumentality of the state or political subdivision of the state other than those excluded by Code Section 31-8-181 (Disclosure of Treatment of Alzheimer's Disease or Alzheimer's Related Dementia) which advertises, markets, or offers to provide specialized care, treatment, or therapeutic activities for one or more persons with a probable diagnosis of Alzheimer's Disease or Alzheimer's-related dementia is required to complete this form. The Act does not apply to physicians or their employees. However, if a physician operates, manages, owns or controls a nursing home, personal care home, hospice, respite care service, adult day program or home health agency, the entity is still required to make the disclosure. Hospitals are exempt from the disclosure requirement. However, a hospital's nursing home, respite care service, adult day program, or home health agency is required to make the disclosure if it holds itself out as providing specialized care for persons with Alzheimer's Disease or Alzheimer's-related dementia.

C. Instructions

Glossary of Terms

A. Accreditation

Assurance by public or private agency that a facility, program, or entity meets standards which are separate from and in addition to any applicable state licensure requirements. Accreditation may include both 1) assurance that a facility, program, or entity meets standards of quality set forth by the accrediting agency (e.g., Joint Commission on Accreditation of Health Organizations {JCAHO} and 2) assurance that a facility, program, or entity meets standards necessary to qualify for the receipt of funds from the accrediting agency (e.g., the Division of Medical Assistance for Medicaid, Health Care Financing Administration (HCFA) for Medicare).

B. Alzheimer's Disease

A progressive neurodegenerative disease characterized by loss of function and death of nerve cells in several areas of the brain, leading to loss of cognitive function such as memory and language. The cause of this nerve cell death is unknown. Alzheimer's disease in the most common type of dementia.

C. Care plan

A determination by a social worker or nurse of the problems and needs of the client based on information obtained during assessment and observations of individual functional capabilities. In addition, care plans include what service(s) are needed to meet client needs, set goals toward which to work, and indicate specific, expected changes in client capabilities at a specific future time as a result of services implemented.

D. Client

In this document, the person with dementia who is receiving specialized Alzheimer's services.

E. Dementia

The loss of intellectual functions (such as thinking, remembering, and reasoning) of sufficient severity to interfere with an individual's daily functioning. Dementia is not a disease itself, but rather a group of symptoms which may accompany certain diseases and conditions. Symptoms also include changes in personality, mood, and behavior. Dementia is irreversible when caused by disease and injury, but may be reversible when caused by drugs, alcohol, hormone or vitamin imbalances, or depression.

F. Resident

In this document, a person with dementia who makes his/her home in a nursing home or personal care home.

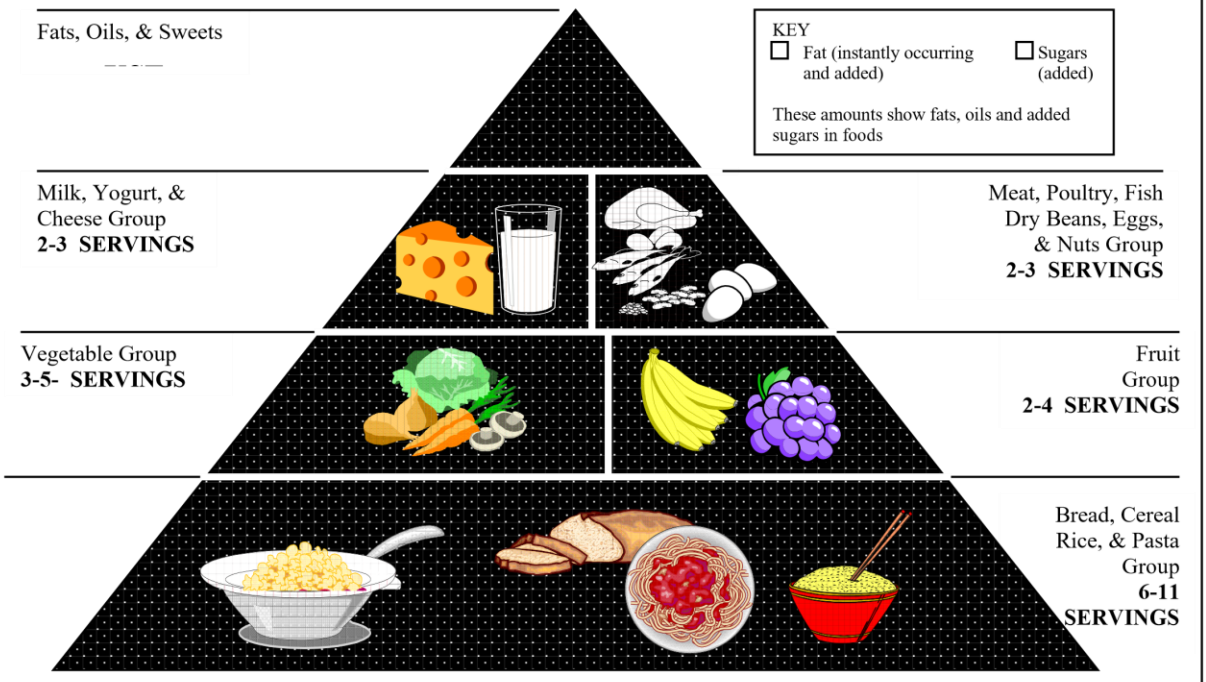
The Food Guide Pyramid



SOURCE: U.S. Department of Agriculture/U.S. Department of Health and Human Services

What Counts as a Serving?

With the Food Guide Pyramid, what counts as a "serving" may not always be a typical "helping" of what you eat. Here are some examples of servings:

Bread, Cereal, Rice & Pasta - 6-11 servings recommended
Examples of one serving:
- 1 slice of bread
- 1 oz. Of ready-to-eat cereal
- 1/2 cup of cooked cereal, rice, or pasta
- 3 or 4 small plain crackers

Vegetables - 3-5 servings recommended
Examples of one serving:
- 1 cup of raw leafy vegetables
- 1/2 cup of other vegetables, cooked or chopped raw
- 3/4 cup of vegetable juice

Fruits - 2-4 servings recommended
Examples of one serving:

- 1 medium apple, banana, or orange
- 1/2 cup of chopped, cooked, or canned fruit
- 3/4 cup of fruit juice

Milk, Yogurt, and Cheese - 2-3 servings recommended
Examples of one serving:
- 1 cup of milk or yogurt
- 1 1/2 oz. Of natural cheese
- 2 oz. of process cheese

Meat, Poultry, Fish, Dry beans, Eggs and Nuts - 2-3 servings recommended
Examples of one serving:
- 2-3 oz. of cooked lean met, poultry, or fish
- 1/2 cup of cooked dry beans, 1 egg, or 2 table-spoons of peanut butter = 1 oz. of lean meat

How Much Is an Ounce of Meat?

Here's a handy guide to determining how much meat, chicken, fish, or cheese weigh:
1 ounce is the size of a match box.
3 ounces are the size of a deck of cards.
8 ounces are the size of a paperback book.

The Food Guide Pyramid-Putting the Dietary Guidelines into Action

Learning to eat right is now made simpler with the new Food Guide Pyramid by the U.S. Department of Agriculture (USDA). The Pyramid is a graphic description of what registered dietitians and other nutrition experts have been advising for year: Build your diet on a base of grains, vegetables, and fruits. Add moderate quantities of lean meat (poultry, fish, eggs, legumes) and dairy products, and limit the intake of fats and sweets.

The Food Guide Pyramid illustrates how to turn the Dietary Guidelines for Americans (issued by USDHHS/USDA in 1990) into real food choices.

The Dietary Guidelines-and their relationship to the Food Guide Pyramid--are as follows:

■ Eat a variety of foods. The body needs more than 40 different nutrients for good health, and since no single food can supply all these nutrients, variety is crucial. Variety can be assured by choosing foods each day form the five major groups shown in the Pyramid: (1) Breads, Cereals, Rice & Pasta (6-11 servings); (2) Vegetables (3-5 servings); (3) Fruits (2-4 servings); (4) Milk, Yogurt & cheese (2-3 servings); (5) Meat, Poultry, Fish, Dry Beans, Eggs & Nuts (2-3 servings) and (6) Fats, Oils and Sweets (use sparingly).

■ Maintain healthy weight. Being overweight or underweight increases the risk of developing heart problems, so it is important to consume the right amount of calories each day. The number of calories needed for ideal weight (which varies according to height, frame, age, and activity) will generally determine how many servings in the Pyramid are needed.

■ Choose a diet low in fat, saturated fat, and cholesterol. As shown in the Pyramid, fats and oils should be used sparingly, since diets high in fat are associated with obesity, certain types of cancer, and heart disease. A diet low in fat also makes it easier to

■ Choose a diet with plenty of vegetables, fruits, and grain products. Vegetables, fruits, and grains provide the complex carbohydrates, vitamins, minerals, and dietary fiber needed for good health. Also, they are generally low in fat. To obtain the different kinds of fiber contained in these foods, it is best to eat a variety.

■ Use sugars only in moderation. Sugars, and many foods containing large amounts of sugars, supply calories but are limited in nutrients. Thus, they should be used in moderation by most healthy people and sparingly by those with low calorie needs. Sugars, as well as foods that contain starch (which breaks down into sugars), can also contribute to tooth decay. The longer foods containing sugars or starches remain in the mouth before teeth are brushed, the greater the risk for tooth decay. Some examples of foods that contain starches are milk, fruits, some vegetables, breads, and cereals.

■ Use salt and sodium only in moderation. Table salt contains sodium and chloride, which are essential to good health. However, most Americans eat more than they need. Much of the sodium in people's diets comes from salt they add while cooking and at the table. Sodium is also added during food processing and manufacturing.

■ If you drink alcoholic beverages, do so in moderation. Alcoholic beverages contain calories but little or no nutrients. Consumption of alcohol is linked with many health problems, causes many accidents, and can lead to addiction. Therefore, alcohol consumption is not recommended.

include a variety of foods, because fat contains more than twice the calories of an equal amount of carbohydrates or protein.	Adapted from At the Center, National Center for Nutrition and Dietetics, Chicago, IL, Summer 1992.

Section III. Statement of Intent: Cost Responsibility

I have applied for services through the EDWP (CCSP/SOURCE) Services Program. I am aware that I am responsible for the cost of services under the EDWP (CCSP/SOURCE) Services Program until the Department of Family and Children services determines my eligibility for Medicaid and cost share amount. I understand that I must apply for EDWP (CCSP and SOURCE) Medicaid benefits through the county Department of Family and Children Services (DFCS). If DFCS determines that I have to pay a cost share, I will pay the monthly cost share to the appropriate provider(s). While waiting for DFCS to determine my cost share amount, I agree to pay the

appropriate provider(s) the full cost of services or the ESTIMATED cost share indicated on the line below, whichever the provider chooses.

$ _____

ESTIMATED COST SHARE: Based on the information provided by the client/representative, this is an estimate of the client cost share. This estimated cost share was discussed with the client/representative. They agree to apply for EDWP (CCSP and SOURCE) Medicaid at DFCS and understand the DFCS will determine Medicaid eligibility and exact cost share amount.

ALL THE INFORMATION I HAVE PROVIDED IS TRUE AND COMPLETE TO THE BEST OF MY KNOWLEDGE.

Appendix P
Infection Control Procedures

The EDWP (CCSP and SOURCE) provider staff must observe the following procedures in the provision of services to prevent exposure to infectious disease. These procedures are universal precautions to prevent the spread of infectious diseases.

All blood and body fluids visible with blood are to be treated as potentially infectious. Wash hands and other skin surfaces immediately and thoroughly if soiled with blood or body fluids and change gloves after contact with each client. Wash hands before and after giving care to clients.

A. Wear latex gloves when:

i. Touching blood/body fluids, mucous membranes, or non-intact skin.

ii. Handling items or surfaces soiled with blood/body fluids visible with blood.

iii. Performing venipuncture and other vascular access procedures.

iv. Cleaning and decontaminating spills of blood/body fluids.

v. Although no diseases are known to be spread by direct skin contact with feces or other body fluids, gloves should be worn when having contact with feces and any body fluids as a basic hygiene measure.

B. Standard housekeeping cleaning procedures to be used.

i. For spills of blood and body fluids, wipe up spill with soap and water and then disinfect area with a commonly used germicide or freshly prepared 1:10 bleach solution (1 part bleach to 10 parts water).

ii. All soiled linen should be bagged at the location where it was used; it should not be sorted or rinsed in client-care areas. Linen soiled with blood or body fluids should be placed and transported in bags that prevent leakage.

iii. Linens and personal clothing items laundered should be washed using routine laundering procedures.

iv. Dish washing using routine cleaning procedures effectively destroys pathogenic (disease causing) organisms. Dishes of clients with hepatitis B or AIDS do not need to be separated from the rest of the facility clients. Do not share unwashed utensils or use common drinking glasses with any client.

C. Environmental procedures to be used:

i. Use a gown or apron during procedures that are likely to generate splashes of blood or other body fluids. Universal precautions also recommend the use of masks/eye wear during procedures that are likely to generate droplets of blood or other body fluids to prevent exposure of the mucous membrane of the mouth and nose/eyes.

ii. Dispose of secretions directly into the toilet. An individual toilet for a client is not required but is recommended if the person has diarrhea.

iii. Care should be taken to prevent injuries caused by needles and other sharp instruments or devices.

iv. To prevent needle stick injuries, needles should not be recapped, purposely bent or broken by hand, removed from disposable syringes, or otherwise manipulated by hand. After they are used, disposable syringes and needles, and other sharp items should be placed in puncture-resistant containers for disposal. The puncture-resistant containers should be located as close as practical to the use area.

v. Direct mouth-to-mouth contact is not recommended. It is recommended that mouthpieces, ventilation bags or other ventilation devices be kept in areas where the need is predictable. However, if such devices are not available an employee should not hesitate to provide CPR (Cardiopulmonary Resuscitation) procedures.

*Send a copy of completed form to the client's case manager and retain the original in the client's clinical record.

A. Purpose:

i. To determine ongoing level appropriateness for the member in Enhanced Case Management

ii. To assist the SNS at care plan update for payment of service rendered.

iii. To assist in the case management order of a telehealth visit, facilitated by the service provider RN, between the member and the PCP.

B. Who completes/When completed:

i. ADH/ALS/PSS/X

The Nursing Visit Form is completed upon request by Case Management for ECM eligibility in CCSP, performed at each supervisory visit that is conducted by the service provider RN/LPN, with a copy of the completed form sent to the member's waiver case manager and the original maintained in the member's clinical record.

ii. SNS-

The Nursing Visit Form is completed during-

1. each service/care plan update that is conducted by the RN, at least every 62 days, with a copy of the completed form sent to the member's waiver case manager and the original maintained in the member's clinical record

2. each home visit where a Case Management ordered, scheduled telehealth visit with the member's PCP and Provider's RN is performed, with a copy of the completed form sent to the member's waiver case manager and the original maintained in the member's clinical record

SNS must have MD orders for skilled nursing with duties performed. Example- medication monitoring. Providers can't be paid for supervisory work only. Can be RN visit request by Case Management for Provider RN facilitator of telehealth visit between member and PCP.

The reimbursement to SNS agencies (private home care providers) for a "supervisory visit" is ONLY for clients who are receiving skilled nursing visits as part of their CCSP or SOURCE services, regardless of whether they're receiving traditional or enhanced case management. The "supervisory visit" referred to is actually the RN visit for the care/service plan update that's required at least every 62 days for any member who receives nursing visits from their private home care provider. If the RN performs the nursing visit tasks specified in the care plan in the same visit the care plan update is performed, the private home care provider can bill for the visit as an RN visit.

The private home care provider can get paid at the RN rate for these visits if all the above is met. The reimbursement will also be made when the request by case management is for the Provider RN to facilitate a telehealth visit between the member and his/her PCP.

A service provider can use the form as part of their supervisory visit form or use it instead of the supervisory visit form they are currently using. They can use it at every supervisory visit, even those conducted by the LPN, and have the RN sign off behind the LPN. If their current supervisory visit form contains ALL the information on the Nursing Supervisory Visit Form, they can use this Form instead.
