### **Vaccines For Children (VFC) Program**

#### **A. General**

This federal vaccine program provides free vaccines to be used for all children under nineteen (19) years old except those who have insurance that covers immunizations. The Omnibus Budget Reconciliation Act of 1993 (OBRA '93) created the funding for this program called Vaccines for Children (VFC). This program will simply expand upon the current Georgia Free Vaccine program.

The Georgia VFC program will supply vaccines for the following:

- i. Children enrolled in Medicaid or qualified through a Medicaid waiver;
- ii. Children who do not have health insurance;
- iii. Children who are American Indian or Alaskan Native;
- iv. Children who have health insurance, but vaccines are not a covered benefit; and
- v. Children enrolled in PeachCare for Kids.

The State Department of Public Health will be responsible for enrolling physicians, physician's assistants, nurse practitioners, and nurse midwives into the program and processing the vaccine orders.

All physicians, physician's assistants, nurse midwives, and nurse practitioners who provide immunization services must enroll in the Vaccines for Children program and provide immunizations to Medicaid eligible children whose ages are from birth through eighteen (18) years of age.

#### **B. Enrollment**

- i. Providers who render immunizations to Medicaid children must be enrolled in the VFC program. The following are requirements for enrollment in the VFC program:

(404) 657-5013 or 1-800-848-3868

- iii. Providers in Group Practices need only complete one Enrollment Form. However, a copy of the license of each provider must be attached to the Enrollment Form. A Provider Profile must be completed for each location (separate office, clinic, etc.) where immunizations are given.
- iv. Individual providers must attach a copy of their license to the enrollment form.

Questions regarding enrollment, vaccine orders and record keeping should be directed to the Georgia Immunization program.

**Copayments for Certain Services**

**A. General Copayment Information**

The Division is implementing a tiered member co-payment scale as described in 42 CFR447.54 on all evaluation and management procedure codes (99202 - 99499) including the ophthalmological services procedure codes (92002 - 92014) used by physicians or physicians' assistants

The tiered copayment amounts are as follows:

State's payment for the service	Maximum copayment chargeable to recipient
\$10.00 or less	\$0.50
\$10.01 to \$25.00	\$1.00
\$25.01 to \$50.00	\$2.00
\$50.01 or more	\$3.00

The co-payment will be deducted from each evaluation and management procedure code billed unless the member is included in one of the exempted groups below.

- i. The co-payment does not apply to the following members:
  1. Pregnant women
  2. Nursing facility residents
  3. Hospice care members
  4. Members under 21 years of age
  5. Women who have been screened for breast and cervical cancer under the Centers
  6. Disease Control and Prevention breast and cervical cancer early detection
  7. program established under title XV of the Public Health Service Act (42 U.S.C.
  8. 300k et seq.) in accordance with the requirements of section 1504 of that Act (42
  9. U.S.C. 300n) and need treatment for breast or cervical cancer.) Categories of
  - Service 245 and 800.
- ii. The co-payment does not apply to the following services:
  1. Emergency services
  2. Family Planning services
  3. Waiver Services
  4. Dialysis Services

The provider may not deny services to any eligible Medicaid member because of the member's inability to pay the co-payment. The provider should check the Eligibility Certification (Medicaid card) each month in order to identify those individuals who may be responsible for the co-payment. The Eligibility Certification has been modified to include a co-payment column adjacent to the date-of-birth section. When "yes" appears in this column for a specified member, the member may be subject to the co-payment.

The Division may not be able to identify all members who are exempt from the co-payment. Therefore, providers should identify the members by entering the following indicators in field 24(I) of CMS-1500 claim form:

P	=	Pregnant
S	=	Nursing facility members
H	=	Hospice
E	=	Emergency services
FP	=	Family Planning

GAINWELL TECHNOLOGIES will automatically deduct the co-payment amount from the provider's payment for claims processed with dates of service July 1, 2005, and after. Do not deduct the copayment from your submitted charges. The application of the co-payment will be identified on the remittance advice. A new explanation of benefit (EOB) code will indicate payment has been reduced due to the application of co-payment.

### **Pharmacy Services**

For copayments related to Pharmacy services, please refer to the Pharmacy manual, which can be found on the GAMMIS web-portal at [www.mmis.georgia.gov](http://www.mmis.georgia.gov) under the Provider Information, Provider Manuals tabs.

## **Appendix H**

### **National Provider Identifier (NPI) Requirements**

#### **A. NPI General Information**

The National Provider Identifier (NPI) has been adopted by the U.S. Department of Health and Human Services to meet the HIPAA health care provider identification mandate. It is a 10-digit number assigned to health care providers. Once a provider has an NPI, it will not change regardless of job or location changes. It replaces all existing health care provider identifiers, including numbers assigned by Medicare, Medicaid, Blue Cross, etc., on standard HIPAA transactions. It will be the number used to identify providers nationally

i. Who needs an NPI?

All Medicaid providers, both individuals and organizations, who are eligible to receive an NPI, are required to have an NPI. This includes the following:

1. All Medicaid healthcare providers and
2. All CMO healthcare providers.

The NPI will be required on electronic claims

Medicaid providers who are not eligible to receive an NPI will maintain their current Medicaid Provider ID. A table showing the types of Medicaid providers and whether they are required to get and use an NPI is included at the end of this Appendix.

ii. When do I need to use my (National Provider Identifier) NPI with Georgia Medicaid?

1. Applying to be a Medicaid Provider
2. On all electronic claim submissions, including claims submitted via WINASAP.
