01/01/2026		No Policy Changes for January 2026 posting	N/A	

[1] The revisions outlined in this Table are from 2024 to current. For revisions prior to 2024, please see prior versions of the policy.

Chapter 600: Special Conditions of Participation and Initial Enrollment
Special Conditions of Participation

601. Initial Enrollment

In addition to the completion of a Statement of Participation and a Request for Taxpayer Identification Number and Certification (IRS Form W-9), a hospital also must submit the following information:

601.1. A letter from the state licensing unit showing the bed capacity, permit number and effective date of the permit.

601.2. A document from the state licensing unit showing that the hospital has been recommended for certification or that it meets the requirements for the Medicare program.

601.3. Written evidence that the hospital is in compliance with Title VI, Civil Rights Act of 1964, as amended.

601.4. A copy of the written notification to the hospital from the Medicare fiscal intermediary showing the fiscal year end and Medicare provider number.

601.5. The hospital's most common semi-private room rate.

601.6. A copy of the hospital's current Utilization Review Plan.

601.7. Advance Directives Letter of Agreement.

601.8. When the hospital provides mammography services, a copy of the letter of certification that identifies the mammography certification number.

601.9. A copy of the CMS-1513 form, Disclosure of Ownership and Control Interest statement

602. Change of Ownership or Legal Status

The successor provider must submit a new enrollment application and supporting documentation to become effective at the time of the change of ownership. A change of ownership includes, but is not limited to, a dissolution, incorporation, re-incorporation, and reorganization, change of ownership of assets, merger, or joint venture whereby the provider either becomes a different legal entity or is replaced in the program by another provider. (Rev 01/2015)

602.1. Any person or entity that is a Medicaid/Peach Care for Kids provider, and any person or entity that replaces a provider, shall be deemed to have accepted joint and several liability, along with its predecessor, for any overpayment and/or provider fee sought to be recovered by the Division after the effective date of the successor provider's enrollment, regardless of the successor's enrollment status or lack of affiliation with its predecessor at the time the overpayment was made. An entity shall be deemed to have replaced a provider if it;

602.1.1. Effectively became a different legal entity through incorporation, re-incorporation, merger, joint venture, dissolution, creation of a partnership, or reorganization,

602.1.2. Took over more than fifty percent (50%) of the predecessor's assets, Medicaid/PeachCare for Kids clients, or Medicaid/PeachCare for Kids billings

602.1.3. Or has substituted for the predecessor in the program, as evidenced by all attendant circumstances.

Reimbursement for services rendered prior to the effective date of enrollment of a successor provider (including any adjustments for underpayments made by the Division) shall be made to the provider of record at the time the payment is made or to that provider's payee as properly designated on the appropriate form(s) required by the Division. Any dispute or conflict legal or otherwise, arising between the currently enrolled provider and the predecessor provider concerning either apportionment of liability for any overpayment previously made by the Division or the right to additional reimbursement for any underpayments previously made by the Division shall be the sole responsibility of such parties and shall not include the Division

602.1.4. Upon completion of the change of ownership or legal status enrollment application, the predecessor's provider number will be the same base nine-digit provider number as the successors with a unique suffix identifying the service location, e.g. 123456789B. The Department shall authorize this only in situations in which the predecessor and successor's category of service are the same

602.1.5. Should the predecessor and successor's category of service not be the same, the new owner applying for enrollment may not request a change of the predecessor's provider number without the express consent of the Chief of the Division of Medical Assistance

602.1.6. To allow for continuity of care and timely filing of claims, the successor shall submit claims using the predecessor's provider number while the Change of Ownership enrollment application is being processed. Failure to submit claims in a timely manner pursuant to Chapter 200 of this Part may result in denial of claims. Until the Change of Ownership is completed, claims will be processed, and payment will be made to the predecessor's payee number

603. Enrollment

In addition to the general conditions of participation which apply to all providers in the Medicaid Program as outlined in Part I, the following conditions apply to hospitals:

603.1. The Hospital must be currently licensed under the provisions of state law and must not be operated primarily for the care and treatment of patients with mental disease or special disorders such as, but not limited to, alcoholism or drug abuse

603.2. The Hospital must meet Title XVIII Standards for Medicare participation as currently determined or be certified as eligible for participation.

The Hospital must operate a utilization review program in compliance with a

603.3. Utilization Review Plan approved by the state.

603.4. When a Hospital provides medical treatment to a member for injury, disability, disease or sickness resulting from accidents or other possible tortuous conduct, the Division must be notified. Please refer to Section 303.5 of Part I Policies and Procedures for Medicaid/PeachCare for Kids.

Third Party Administration
Division of Medical Assistance Plans
P. O. Box 38439
Atlanta, Georgia 30334

603.5. "Hill-Burton" Hospitals are required to comply with Hill-Burton regulations

603.6. The Hospital must develop written policies and procedures on advance directives in compliance with Section 1902 (a) (57) of the Social Security Act. (See Section 901)

603.7. In accordance with the Mammography Quality Standards Act (MQSA) of 1992, P.L. 102-539, when a hospital provides mammography services, the facility is required to submit a copy of the Food and Drug Administration (FDA) letter of certification that identifies the mammography certification number. The hospital must notify the Division of any change in certification status. Notification should be mailed to:

Gainwell Technology
Provider Enrollment
Post Office Box 105200
Tucker, Georgia 30085-5201

The Hospital must timely and accurately report to the Georgia Comprehensive Cancer Registry certain information on cancer patients who receive hospital services at the hospital in accordance with the Georgia Comprehensive Registry Policy and Procedure Manual (Cancer Registry Manual).

603.8. For any provider billing outpatient laboratory procedures, agree to the rules regarding enrollment, Clinical Lab Improvement Act certification, reimbursement, and adhere to the policies in the Part II, Policies and Procedures for Independent Laboratory Services and the Schedule of Maximum Allowable Payments for Clinical Laboratory and Anatomical Pathology Services.

604. Rural Emergency Hospitals

604.1. Initial Enrollment

In addition to the completion of a Statement of Participation and a Request for Taxpayer Identification Number and Certification (IRS Form W-9), a hospital also must submit the following information:

604.1.1. A letter from the state licensing unit showing the bed capacity, permit number and effective date of the permit.

604.1.2. A document from the state licensing unit showing that the hospital has been recommended for certification or that it meets the requirements for the Medicare program. As a Rural Health Hospital

604.1.3. Written evidence that the hospital is in compliance with Title VI, Civil Rights Act of 1964, as amended.

604.1.4. A copy of the hospital's current Utilization Review Plan.

604.1.5. When the hospital provides mammography services, a copy of the letter of certification identifies the mammography certification number.

604.2. Conditions of Enrollment

The general conditions of participation which apply to all providers in the Medicaid Program are outlined in the Part I. Additionally, the following enrollment conditions apply to Rural Emergency Hospital providers:

604.2.1. Enrollment as an outpatient hospital services provider only.

604.2.2. Termination of enrollment as an inpatient hospital provider (if currently enrolled as an inpatient and outpatient hospital provider).

604.2.3. Assigned specialty code 507 – Rural Emergency Hospital.

604.2.4. Provision of care that does not exceed a 24-hour stay (maximum 23 hours and 59 minutes)

604.3. Billing Requirements

When submitting claims, providers must bill revenue code 762 and the applicable number of hours the member received services, not to exceed a 24-hour stay. Claims will deny if revenue code 762 is billed in excess of 23 hours and 59 minutes.
(Rev. 10/01/2025)

Chapter 700: Special Eligibility Conditions

701. General

No special member eligibility conditions, other than those listed in Part I, Section 106, are required for utilization of services in the Hospital Program.

Chapter 800: Precertification Procedures

801. Services That Require Precertification

As a condition of Reimbursement, the Division requires that Inpatient Hospital admissions and certain outpatient procedures be prior approved or pre-certified. Precertification pertains to medical necessity and appropriateness of setting only; the patient must be eligible at the time the service is rendered. The purpose of the program is to ensure that medically necessary quality health-care services be provided to eligible Medicaid members in the most cost-effective setting. Precertification does not guarantee reimbursement. The medical record must substantiate the medical necessity including the appropriateness of the setting for the services provided and billed to the Division.

All services regardless of certification are subject to review for medical necessity. (See Part I, Sections 106.12 and 204.)

Deliveries, Newborns (birth), and members who have Medicare Part A are not subject to precertification. Once a newborn has been discharged from the initial birth hospital stay, Precertification is required for all subsequent admissions.

Newborns remaining hospitalized more than 30 days continuously from the date of birth require precertification beginning the 31st day of that hospital stay.

For dates of service October 1, 1993, through June 30, 1995, cesarean section deliveries at certain hospitals will be exempt from precertification requirements. To qualify for this exemption, the hospital must perform at least one hundred Medicaid paid deliveries in the calendar year. Additionally, the number of Medicaid paid cesarean section deliveries must have been no more than twenty percent of the hospital's total Medicaid paid deliveries for the previous calendar year.

As a condition of reimbursement, emergency admissions must be certified within thirty calendar days after admission (see Section 903.6). Inpatient hospital admissions for post delivery services must be pre-certified when a delivery procedure cannot be coded on the hospital claim form; e.g., delivery at home, delivery enroute to the hospital, etc.

Appendix D provides detailed information regarding specific outpatient procedures that must be certified prior to the time they are performed. Emergency outpatient services and Urgent outpatient procedures performed as a result of a condition which, if not treated within 48 hours, would result in significant alteration in the member's health status, must be certified within thirty (30) calendar days of the date of the procedure.

NOTE: FAILURE TO OBTAIN THE REQUIRED CERTIFICATION WILL RESULT IN DENIAL OF REIMBURSEMENT.

802. Procedures for Obtaining Precertification for All Medical Services except Dental Services and Transplants

The attending physician is responsible for obtaining precertification for the services identified in Section 801 and for providing the precertification number to each Medicaid provider associated with the case, i.e., assistant physician, hospital, etc. The physician's failure to obtain the correct precertification number will be imputed to the hospital and result in denial of payment. If the attending physician is not currently enrolled as a Medicaid provider or the patient has Medicare Part B only, the hospital then is responsible for obtaining the precertification number and making it available to each provider associated with the case.

Requests should be initiated at least one (1) week prior to the planned admission or procedure. Approval is valid for ninety (90) days from the date of approval. Hospital admissions exceeding ninety (90) days require recertification within three (3) calendar days prior to the ninetieth (90th) day of the continued stay. Failure to obtain recertification within the three calendar days of the ninetieth day will result in denial of the continued stay. No recertification will be granted for any part of the continuous stay if the request for recertification is received after the ninetieth (90th) day. Precertification and recertification may be requested by contacting the Gainwell Technology PA/UM online via the web portal at www.mmis.georgia.gov or by calling Telephone: 1-800-766-4456 (Provider Call Center)

Sections 202.2 of Part 1 addresses timely submission of claims when conditions exist that are beyond the control of the provider. In accordance with Section 202.2, when an individual is made retroactively eligible, requests for certification must be received within six (6) months from the month of determination of retroactive eligibility. Additionally, when members are eligible for both Medicare and Medicaid, and Medicare benefits are exhausted, requests for certification must be received within three (3) months of the month of notification of exhaustion of benefits.

In a case in which it is unknown if Medicaid will be the primary payer, you should call the Gainwell Technology PA/UM Call Center. Medicaid patients with Medicare Part A and B coverage do not require precertification from Medicaid.

Medicaid patients with Part B only coverage should be precertified. Members with private insurance and Medicaid should be precertified.

When precertification is not required or has been obtained for an outpatient procedure and during the procedure, it is determined that additional or a different procedure is necessary (for determining timeliness or precertification update requests), the additional or different procedure will be considered an urgent procedure. The hospital's request for an update of the precertification file will be considered timely if received within thirty days of the date of the procedure.

When precertification is not required or has been obtained for an outpatient procedure and after the procedure has been performed, it is determined that inpatient services are necessary (for determining timeliness of precertification update requests), the admission should be considered an emergency. The hospital's request for an update of the precertification file should be considered timely if received within thirty days of the beginning date of the episode of care.

Requests for updates to the precertification file and retroactive certification of inpatient admissions following a procedure or service clearly requiring an inpatient level of care that should have been anticipated will not be considered timely and will be denied.

An outpatient observation status becomes inpatient when the determination is made that inpatient services are medically necessary (if the length of stay is less than 48 hours) or the length of stay is no more than 48 hours. In these cases, the request for certification of the inpatient admission must be received within thirty (30) days of the beginning date of the episode of care (see Section 903.6).

803. Procedures for Obtaining Precertification for Dental Services Requiring Hospitalization

Dental services requiring inpatient or outpatient hospitalization must be Prior Approved and/or Pre-certified for Medicaid members regardless of age and service being performed. It is the responsibility of the attending dentist to obtain prior approval and/or precertification. The attending dentist must provide the precertification number to the hospital. The dentist failure to obtain the correct precertification number will be imputed to the hospital and result in denial of payment.

The hospital must submit Dental charges using the appropriate Current Dental Terminology (CDT) procedure code for the services provided.

All dentists' requests must be submitted on the American Dental Association (ADA) 1999, Version 2000 Dental claim form. The dentist's requests for surgical and medical services identified in Part II of the Dental Services manual must be submitted on all precertifications and submitted via the Web Portal.

804. Procedures for Obtaining Precertification for Covered Transplants

Refer to Section 903.3 for additional information regarding transplant services. Requests for approval of coverage of all transplant services, on all precertifications should be submitted via the Web Portal.

The request sent to GMCF for review prior to performance of the transplant should include current medical records. These records should include medical history, pertinent laboratory findings, x-ray and scan reports, social history, and test results that exclude viremia.

Transplant procedures and related services must be approved prior to the time that services are rendered, regardless of age. These services cannot be approved retroactively. The members must be eligible at the time services are provided.

If approval is given for the transplant procedure a twelve-digit precertification number will be assigned.

Chapter 900: Scope of Services

901. General

The Hospital Program provides reimbursement for medical services rendered in an inpatient or outpatient hospital setting. Covered services for eligible program members are those primarily for treatment indicated in the management of acute illness, injury, or impairment, or for maternity care.

Federal regulations require that the Division establish reimbursement limitations to ensure medical necessity of services and utilization control.

In accordance with Federal regulations, non-covered medically necessary services provided to children less than twenty-one (21) years of age may be reimbursable if prior approved by the Division. All services provided to members twenty-one years (21) of age and older are subject to the reimbursement limitations described in this manual regardless of the diagnosis, type of illness or condition.

Coverage is provided for preventive, diagnostic, therapeutic, rehabilitative or palliative items or services furnished under the direction of a doctor or by an institution which is licensed or formally approved as a hospital by an officially designated state standard- setting authority and is qualified to participate under Title XVIII (Medicare) of the Social Security Act, or is determined currently to meet the requirements for such participation, and which is enrolled in the Medicaid program.

In compliance with Section 1902 (a) (57) of the Social Security Act hospitals must:

901.1. Provide written information to patients regarding their rights under state law to make decisions concerning their medical care, including the right to accept or refuse medical or surgical treatment and the right to formulate advance directives.

901.2. Provide written information to individuals regarding the institutions or program's written policies respecting the implementation of the right to formulate advance directives

901.3. Document in the patient's medical record whether or not an advance directive has been executed.

901.4. Comply with all requirements of State law respecting advance directives

901.5. Provide (individually or with others) education for staff and the community on issues concerning advance directives.

901.6. Not condition the provision of care or otherwise discriminate against an individual who has executed an advance directive.

901.7. An "inpatient" is defined as a patient who has been admitted to a participating hospital on recommendation of a licensed doctor and is receiving room, board, and professional services in the hospital on a continuous twenty-four hour a day basis. A length of stay less than twenty-four hours may be considered inpatient if the service can only be provided on an inpatient basis. (See Section 904.7) Transfers between units within the hospital are not considered new admissions

901.8. An "outpatient" is a patient who is receiving professional services at a participating hospital. (See Section 903.6 regarding observation services.) Free standing (satellite) clinics, which are not operated as part of a hospital, are considered doctors' offices. Services provided in these clinics and other away- from-hospital settings are not covered in the Hospital Program.

902. Documentation and Coding Requirements

Written records must be maintained which fully disclose the extent, medical necessity and appropriateness of setting for those services provided. The information must identify the patient, support the diagnosis, justify the treatment, and document the course and results accurately. See section 903.14.

903. All Medical Records must contain the information listed below:

903.1. Identification of the patient.

903.2. Medical history of the patient.

903.3. Report of relevant physical examination

903.4. Diagnostic and therapeutic orders.

903.5. Evidence of appropriate informed consent.

903.6. Clinical observations, including the results of therapy.

903.7. Reports and results of procedures and tests.

903.8. Conclusions at termination of hospitalization, evaluation or treatment.

903.9. Condition of the patient upon discharge and instructions given to the patient and family.

903.10. Signature and date for each entry.

904. Inpatient Medical Records must contain at least the following:

904.1. Identification data including the patient's name, address, date of birth, next of kin, and a number that identifies the patient and the patient's medical record.

904.2. Medical history completed within twenty-four of admission, including the chief complaint, details of the present illness, relevant past, social and family histories, and an inventory by body systems

904.3. Relevant obstetrical records and prenatal information.

904.4. Report of the physical examination, completed within twenty-four of admission;

904.5. A statement of conclusions or impressions drawn from the admission history and physical examination.

904.6. A statement of the course of action planned for the patient while in the hospital including a periodic review of the planned course of action, as appropriate

904.7. Diagnostic and therapeutic orders written by medical staff members. Verbal orders must be authenticated in the manner established by the Rules and Regulations for Hospitals, Chapter 290-9-7-.18(2) (6) (1).

904.8. Appropriate informed consent;

904.9. Clinical observations.

904.10. Progress notes by the medical staff which give a chronological report of the patient's course in the hospital and reflect changes in condition and the results of treatment.

904.11. Consultation reports that contain the consultant's written opinion and reflect, when appropriate, an actual examination of the patient and the patient's medical record

904.12. Nursing notes and entries by non-physicians that contain medically relevant observations and information

904.13. Reports of procedures, tests and their results.

904.14. A preoperative diagnosis recorded prior to surgery by the individual responsible for the patient.

904.15. Operative report dictated or written on the medical record immediately after surgery containing a description of the findings, the technical procedures used, the specimens removed, the postoperative diagnosis, and the name of the primary surgeon and any assistants.

904.16. Reports of pathology and clinical laboratory examinations, radiology and nuclear medicine examinations or treatment, anesthesia records, and any other diagnostic or therapeutic procedures.

904.17. Clinical summary at termination of hospitalization which recapitulates the reason for hospitalization, the significant findings, and the procedures performed, and treatment rendered the condition of the patient upon discharge, and any significant instructions given to the patient and family.

904.18. In teaching hospitals, the medical record must make it clear that the attending physician is providing professional services independently of the student or resident and that the notes of the student or resident only reflect his role as student or resident. At a minimum, the medical record must contain signed or countersigned notes which clearly specify that the physician personally reviewed the history, gave a physical examination, and confirmed or revised the diagnosis and prescribed treatment. The attending physician must be recognized by the member as the member's personal physician.

904.19. In addition, Physicians' Current Procedural Terminology, Fourth Edition (CPT-4) coding and/or HCPCS is required for all outpatient surgical, obstetrical, injectable drugs, diagnostic laboratory and radiology procedures. Certain codes from these schemes are not accepted by the Division.

904.20. Hospitals are required to code all relevant diagnoses and all surgical and obstetrical procedures on all inpatient and outpatient claims submitted to the Division.

904.21. The hospital must select the code(s) that most nearly describe(s) the diagnosis (es) and procedure(s) performed. When a single code is available for reporting multiple tests of procedures, that code must be utilized rather than reporting the tests or procedures individually.

ICD-10-CM and CPT Coding Books may be ordered from:

Superintendent of Documents U.S.
Government Printing Office Washington,
D.C. 20402

Order Department OP054192
American Medical Association
P. O. Box 10950
Chicago, Illinois 60610

904.22. The claim form required by the Division for billing (inpatient and outpatient hospital services is the National Uniform Billing Form (UB-04). See the Billing Instructions Appendix O) for the required information to file a claim for hospital services.

905. Hospital Services

The Division will reimburse enrolled hospital providers for the services and procedures

906. Hospital Based Physicians, Certified Registered Nurse Anesthetists, and Nurse Practitioners

Prior to July 1, 1991, hospital providers were given the option of billing for hospital-based physicians' professional services on the hospital claim form. Effective with dates of service July 1, 1991, and after, all hospital-based physicians must be enrolled in the Physician Services. Program and all inpatient and outpatient professional services must be billed on the physician's claim form.

Prior to July 1, 1993, services provided by certified registered nurse anesthetists (CRNAs), nurse practitioners and physician's assistant anesthesiologist's assistants (PAAAs) could be billed on the hospital claim form. Effective dates of service July 1, 1993, and after, all CRNAs, pediatric nurse practitioners, obstetrical nurse practitioners, family nurse practitioners and PAAAs must enroll in the appropriate practitioner program within the Division of Professional Services.

Effective dates of service January 1, 1994, and after, adult and gerontological nurse practitioners must enroll in the appropriate practitioner program within the Division of Professional Services. All inpatient and outpatient services must be billed in accordance with the policies and procedures for the specific program.

Hospital-based physicians, CRNAs, specified nurse practitioners and PAAAs may designate the hospital as payee by agreement. The hospital must maintain each agreement authorizing such payments on file and submit a copy to the Provider Enrollment Unit at the address included in Part I, Section 105.

Services rendered to eligible members by hospital-based physicians, CRNAs, designated nurse practitioners and PAAAs will be covered both on an inpatient and outpatient basis as long as the services are medically necessary and within the contractual or financial agreement with the hospital. These services are subject to retrospective review by the Division or its authorized agents.

907. Services Available Through Contractual Shared Agreement

When covered services are not available or provided in the hospital where the member is an inpatient or outpatient, the services must be furnished by another enrolled hospital through a contractual agreement. The original hospital where the member is an inpatient or outpatient must bill the Medicaid program for the shared services or procedures along with the other charges incurred during that course of treatment or inpatient confinement. The Medicaid program should only be billed by the original hospital for all of the charges incurred. Services furnished "under arrangement" with outside suppliers, including other providers, are subject to CMS-15, Provider Reimbursement Manual, principles of reimbursement.

907.1. Hospital Back Transfers

The department may approve transfers from a higher level of care facility to the originating lower level of care facility for continuation of a lower level of care, provided the:

907.1.1. Higher level of care is no longer warranted,

907.1.2. Level of care continues to meet the criteria for inpatient confinement, and

907.1.3. Transfer back does not compromise patient care.

907.1.4. This is intended to provide a mechanism for Georgia Medicaid members to receive medically necessary level of care in the most appropriate setting and does not serve to replace or otherwise circumvent the terms and conditions outlined in Section 903.2: *Shared Available Through Contractual Shared Agreement.* This policy is not meant to allow transfers to lower level of care facilities to alleviate bed overcrowding or for patient convenience. All transfers are subject to precertification in accordance with Section 800.

907.1.5. See Section 1013 for transfer cases for reimbursement of Hospital Back Transfers.

907.2. Transplant Services

Services and supplies related to covered transplant services may be billed to the Division as long as the individual receiving the transplant is eligible for Medicaid. For Medicaid members under age twenty-one (21) years of age, all recognized, non-experimental organ transplants are covered if medical necessity is properly documented, and precertification/prior approval is obtained. For Medicaid members twenty-one (21) years of age and over, the only transplants covered are kidney, liver, bone marrow and cornea. Non-covered transplant services are not covered if Medicaid did not pre-certify the transplant, then any subsequent charges or follow-up care is non-covered per Medicaid Policy. **See Chapter 800 for precertification requirements.**

Hospital services in connection with the acquisition of tissue or an organ from a living donor for transplant in an eligible member are considered as services for the treatment of the member and are covered as such, although the donor may or may not be Medicaid eligible.

908. Dialysis

Hospital-based dialysis facilities must be separately enrolled in the Dialysis Services Program to receive reimbursement for maintenance dialysis services provided to members with End Stage Renal Disease (ESRD). Routine maintenance dialysis services are not covered in the Hospital Program

ESRD services that are required when the member's regular dialysis facility is closed must be billed directly to the facility normally providing these services.
To receive reimbursement, the hospital must have an agreement with the dialysis facility to provide these services if the facility is closed.

Inpatient dialysis services are covered for acute renal failure. If a certified dialysis facility performs ESRD services for the patient while admitted to the hospital, the dialysis facility must bill Medicaid for services rendered. If an ESRD patient is provided emergency services as an outpatient because the
dialysis facility is closed, the hospital must bill the patient's usual dialysis facility for services provided

Only revenue codes 801, 802, 803, 804, 880 and 881 will be covered in the Hospital Program.
Reimbursement for maintenance dialysis to hospitals that do not have a hospital-based dialysis facility and for dialysis services provided in cases of acute renal failure will be included in the Diagnosis Related Grouping (DRG) reimbursement rate.

Inpatient maintenance dialysis services provided by hospitals with a hospital- based dialysis facility must be billed to the Dialysis Services Program. Reimbursement will be pro-rated at 1/30th of the allowed composite rate for each day of service.

909. Rehabilitation Services

Rehabilitation as defined by federal regulation is not covered in the Hospital program. However, short-term rehabilitation services, i.e., Physical therapy, Occupational therapy and Speech therapy are covered immediately following and in treatment of **acute** illness, injury or impairment when the conditions listed below are met.

909.1. Services must be furnished under a written treatment plan established and signed and dated by the Physician, NP or PA. This plan must identify the rehabilitation potential, set realistic goals and measure progress. The plan must contain the type of modalities and procedures that will be used, frequency of visits, estimated duration, diagnosis, functional goals and recovery potential.

909.2. The physician must initially certify the plan of care (POC). The initial plan of care can cover up to 3 calendar months or 12 weeks. Treatment units for 1 discipline per PA to cover up to 3 calendar months can be submitted with each request. Prior authorizations will only accept 3 calendar months and 1 discipline modifier. Any requests beyond the 3 calendar months will require an updated plan of care with recertification by the physician, NP or PA and must be submitted in a new prior authorization request. Recertification must include an estimate of how much longer the service will be needed and the diagnosis and date of onset of the acute illness, injury or impairment that is being treated. All requests will be reviewed for medical necessity and acuity.

909.3. The services must be of such a level of complexity and sophistication, or the member's condition must be such that the services required can be safely and effectively

performed only by or under the supervision of a qualified therapist in a hospital based setting versus a community-based setting

909.4. There must be an expectation that the patient's condition will improve significantly in a reasonable and generally predictable period of time, or the services must be necessary to the establishment of a safe and effective maintenance program required in connection with a specific disease state.

909.5. The amount, frequency and duration of the services must be reasonable under accepted standards of practice.

909.6. Physical therapy, occupational therapy, and speech therapy billed to the Division by the ind*ividual* practitioner are not covered in the Hospital program.

910. Submitting Prior Authorization through the Hospital Outpatient therapy (HOT) Program

910.1. Services through the HOT program require prior authorization. This includes both evaluations and treatments. Providers must submit separate prior authorizations for Evaluation codes vs. Treatment codes.

910.2. Prior Authorization for EVALUATIONS:

910.2.1. Request for evaluations through the Hospital Outpatient Therapy program should be for ACUTE conditions only. Clinical and ICD 10 codes should reflect that the member has an "ACUTE" condition. Exceptions include: DME evaluations for wheelchairs and equipment, some swallowing studies and some hearing evaluations

910.2.2. Evaluation codes will populate for approval for a 90-day date span. This will allow flexibility of scheduling and prevent the need for date changes.

910.2.3. Modifiers are not required for evaluation codes

910.2.4. Backdating is defined as an "effective" date prior to the "request" date on the PA. Back dating is ONLY allowed in the case of RETRO eligibility, OR under Emergent/Urgent circumstances i.e. ED evaluation, Observation stay**,** or under circumstances of an urgent evaluation done after surgery when there was no time to request prior authorization. Backdating is NOT allowed for failure to plan or provider error. Provider should enter a statement in the Comment/messages section if request is for OBSERVATION stay, RETRO, or evaluations performed in Emergency Department.

910.2.5. Urgent/ Emergent relates to those cases where member has retro eligibility for the date of service and/or patient suffered an urgent medical condition requiring immediate therapy care. Requests submitted on or after request date should be submitted as elective.

910.2.6. Providers should answer ALL questions on the Prior authorization. Questions relate to policy and answers indicate adherence to policy

910.2.7. **Family of Codes: PT and OT** Evaluation codes are part of a "family of codes". This indicates that you will only need to enter one of the codes in the family of codes. At the time claims are billed, the most appropriate code in the family should be selected. There is no family of codes for Speech evaluation codes as these evaluations are based on specific diagnostic issues and not based on time to complete. Please only select the appropriate speech evaluation codes for patient's needs. Other, unnecessary evaluation codes will be denied.

910.3. PT evaluation family of codes include:

910.3.1. **97161** Physical therapy evaluation: low complexity (20 minutes)

910.3.2. **97162** Physical therapy evaluation: moderate complexity (30 minutes)

910.3.3. **97163** Physical therapy evaluation: high complexity (45+ minutes)

910.4. OT evaluation family of codes include:

910.4.1. **97165** Occupational therapy: low complexity (30 minutes)

910.4.2. **97166** Occupational therapy: moderate complexity (45 minutes)

910.4.3. Occupational therapy: high complexity (60 minutes)

910.4.4. Evaluation Prior Approvals do not require an attachment. However, if there is no attachment, providers must provide specific documentation in the body of the PA of the ACUTE condition requiring treatment. Please be specific as to the DATE of onset of the illness, injury or surgery. A clear sentence of patient's age, illness, injury or surgery and the EXACT date it occurred in the comments/messages section will expedite processing of your request. This statement must support that condition is ACUTE

910.4.5. In the case of DME evaluations, provider should be specific in answering the questions as to the type of equipment being requested by choosing the appropriate equipment in the drop-down menu. 97542 – Wheelchair management code can be requested with an equipment evaluation. This code can be used for "delivery" of equipment requested. At this time, it is the only code that can be submitted as both an "evaluation code" and a "treatment code".

910.4.6. Providers will answer an attestation question regarding "orders". By answering YES to this question, the provider is attesting that they have written and signed orders from the Physician, NP, or PA.

910.4.7. Chronic conditions with acute exacerbations are NOT covered. If there is a chronic condition with a superimposed new and acute injury such as chronic back pain with a new strain as a result of a recent motor vehicle accident or fall, it will be reviewed for acuity and medical necessity. It is imperative that you are specific with details and date of onset.

910.5. For example:

910.5.1. Chronic condition: Low back pain. Acute exacerbation: Member was in a car accident (date of accident) and sustained a new injury.

910.5.2. Chronic condition: Lymphedema. Acute exacerbation: Lymphedema with new open wounds (provide details and date of onset of new wounds).

910.6. Prior Authorization for TREATMENT:

910.6.1. All requests for treatment units should be for an "ACUTE" condition, injury, illness or surgery. This information and DATE of onset should be readily available in the documentation submitted

910.6.2. Treatment PA's require an attachment. You must attach a copy of your PLAN OF CARE to all requests for treatment units. If there is no attachment, your PA will be automatically system denied. The plan of care must be signed and dated by the physician, PA or NP within 30 days of starting treatment. By answering YES to the question regarding the plan of care, provider attests they will have the plan of care signed and dated within 30 days of starting treatment. By allowing the plan of care to be signed within 30 days of starting treatment, this will prevent delays in initiating patient care.

910.6.3. Provider must answer all questions on the PA. Failure to adhere to policy will result in system denials.

910.6.4. Treatment units can be requested for a maximum of 3 calendar months.

910.6.5. Each line must have an effective and expiration date within the same calendar month. The effective to expiration date should not span over more than one calendar month. Example: effective: 5/1/2021- expiration: 5/31/2021. Incorrect would be: effective: 5/1/2021- expiration: 7/30/2021. Dates spanning over more than one calendar month will cause edit errors to your PA and issues with payment in claims.

910.6.6. EFFECTIVE date for elective care must be on or AFTER the REQUEST date on the prior authorization. Urgent/Emergent OR documented Retro-eligibility for the dates being requested can have effective date prior to REQUEST date. Documentation should clearly reflect RETRO eligibility or the EXACT date of illness, injury or surgery and valid reason for urgent/emergent request. Failure to plan is not urgent/ emergency and will be denied for untimely.

910.6.7. All requests for treatment codes require use of a modifier in the Mod 1 column only. GP for Physical therapy. GO for Occupational therapy. GN for Speech therapy. Only 1 discipline can be submitted per prior authorization request. Please note, all PAs for therapy codes that do not use modifiers or use two different modifiers on the same PA will be

denied and provider will be asked to enter a new PA with the correct modifier. Reviewers are unable to make this correction. Claims submitted without a modifier will be denied.

910.6.8. There are 3 "family of codes" for treatment units; Speech therapy: 92507 and 92526 Physical and Occupational therapy: 97110, 97112, 97116, 97530, 97535. These codes are part of a FAMILY OF CODES. When you are approved for 1, you may bill any of the other codes within the same family to claims. When requesting these codes, you should request the total number of units needed. Use of the appropriate modifier will identify your code to the correct discipline. Without a modifier, it will appear to the system as a duplication. A treatment prior approval submitted without a modifier, will result in the case being denied as the modifier cannot be added by reviewer. Audiology codes 92651, 92652, and 92653 do not require prior authorization.

910.6.9. Units should be calculated appropriately by the provider. Therapy sessions should not exceed one hour and should be calculated based on 4 units per session when using 15 min timed codes or 1 unit per session when using an untimed codes (ex: 92507 or 92526). Units are submitted based on the TOTAL number of units needed for the calendar month. 2x weekly would be 8 units per week or 32-40 TOTAL units per month. 3x weekly would be 12 units per week or 48-60 TOTAL units per month. Max number of units should be divided over the CPT codes submitted.

910.6.10. The Plan of care approved by the Physician, PA, or NP must contain at minimum the components listed below. The POC at a minimum must be submitted for the Medicaid member as documentation of medical necessity

910.6.10.1. Member's name and member ID number

910.6.10.2. Date of Birth

910.6.10.3. Acute Diagnosis and/or condition requiring treatment with clearly documented date of onset

910.6.10.4. Modalities

910.6.10.5. Procedures (i.e., description of the services requested)

910.6.10.6. Evaluation and date the evaluation was conducted

910.6.10.7. POC completion date (this must be on or after the evaluation date)

910.6.10.8. Effective POC start and end dates along with the frequency and duration of services.

910.6.10.9. Location of services

910.6.10.10. Team members that are treating the patient (i.e., OT, SLP, PT, etc.)

910.6.10.11. Current level of function

910.6.10.12. Patient's progress to date

910.6.10.13. Functional outcomes (potential for rehabilitation, long term goals of therapy)

910.6.10.14. Goals to be achieved as well as timelines to reach projected goals

910.6.10.15. Any other relevant medical information.

910.6.10.16. The therapist that develops the POC must sign and date the document on the date completed.

At the time the claims are billed, the most appropriate code in the family of codes should be billed. The modifiers approved on the PA should be in agreement with the modifiers submitted on the claim or the claim may deny.

910.7. Observation

The purpose of observation is to treat patients expected to be stabilized and released within twenty-four (24) hours, determine the need for further treatment or for inpatient admission. Thus, a patient in observation may improve and be released or admitted as an inpatient. Outpatient observation services Begin and End with a physician's order.
Observation services are those services furnished by a hospital, including use of a bed and periodic monitoring by a hospital's nursing or other staff, which are reasonable and necessary to evaluate an outpatient's condition or determine the need for a possible admission to the hospital as an inpatient. Appropriateness of observation services is determined using qualifying criteria such as those published by a "nationally recognized criteria", severity of illness/intensity of services (SI/IS), and medical necessity reviewed by peer reviewers

Observation services usually do not exceed twenty-four (24) hours and the physician's decision to admit, or discharge is typically determined within this time. Orders for "observation" and "inpatient admission" can only be written by those physicians authorized by the hospital's medical staff bylaws to admit patients or order outpatient observation. Some patients, however, may require more than twenty-four (24) hours of outpatient observation services. In only rare and exceptional cases, outpatient observation services span more than 24 hours. If a patient is retained on observation status for more than 24 hours without being admitted as an inpatient, further observation services will be denied as not reasonable and necessary for the diagnosis or treatment of a physical or mental health condition. (See Part I Policies and Procedures Manual, Definitions, definition 48 Medical necessity.). Count as the first hour the time of admission to an observation status. Claims submitted with more than 24-hour observation will be denied. If the 24-hour observation limit is exceeded and the patient does not meet the acute criteria for inpatient admission, the claim and medical justification should be submitted to Medical Review.

If the patient's medical condition meets medical necessity and using acute inpatient-qualifying criteria published by a "nationally recognized criteria", inpatient admission is appropriate, and the patient must remain hospitalized until concurrent review performed by the hospital indicates discharge is necessary. Such services are covered only when provided by the order of a physician or another individual authorized by State licensure law and hospital staff bylaws to admit patients to the hospital or to order outpatient tests and when provided in compliance with all policies and procedures described in this manual.
A person is considered a hospital inpatient if formally admitted and acute inpatient qualifying criteria designated by the Division, from a "nationally recognized criteria" are met. When a hospital places a patient under observation, but has not formally admitted them as an inpatient, the patient is considered an outpatient.

Observation is generally covered as an outpatient service. Observing the patient for up to 24 hours should be adequate in most cases. A hospital, which believes that exceptional circumstances in a particular case justify approval of more than 24 hours in an outpatient observation setting, may submit a claim by hard copy with documentation of the exceptional circumstances. The claim may include the total number of observation units. The claims will pend for medical review. If, after medical review, the determination is made that continued observation beyond 24 hours was medically necessary, an observation status ***may*** be approved. However, any services provided beyond the medically necessary time are non-covered.

If medical review determines that observation beyond 24 hours was not medically necessary, payment will be made for the hours determined to be medically appropriate, up to 24 hours. When the patient's condition does not meet inpatient criteria and the hospital does not wish to file an appeal for the observation beyond 24 hours, all charges past the 24-hour period are non- covered. The provider should then bill the department for only those hours considered medically appropriate.
When medical necessity dictates an inpatient admission of a patient in observation, this should be billed under revenue code 762, as referred to in the billing instructions, (form locator 42) which reflects this transaction. Observation is a covered revenue code on an inpatient claim.

Outpatient observation is not covered in the following situations: complex cases requiring inpatient care, post-operative monitoring during the standard recovery period; routine preparation services furnished prior to diagnostic testing in the hospital outpatient department and the recovery afterwards; and the observation billed concurrently with therapeutic services such as chemotherapy, physical therapy, etc.
The outpatient status becomes inpatient when the determination is made that inpatient services are medically necessary. Inpatient services must be certified as explained in Chapter 800. Certification must be obtained within thirty calendar days of the beginning date of this episode of care. In order to receive certification for the admission, documentation must be provided evidencing that the criteria admission is medically necessary and appropriate.

The date of the inpatient admission will be the actual date the patient is formally admitted as an inpatient and will count as the first inpatient day. When a patient is admitted to the hospital from outpatient observation, all observation charges must be combined and billed with the inpatient charges. Elective procedures where the anticipated stay is 24 hours or less are typically considered an observation stay, primarily if the primary reason for the stay is to monitor for potential complications. Services, such as complex surgery, clearly requiring inpatient care may not be billed as outpatient.

Request for updates to the precertification file and retroactive certification of inpatient admissions following a procedure or service clearly indicating an inpatient level of care that should have been anticipated will not be considered timely and will be denied.
Failure to obtain the required certification will result in denial of reimbursement of ALL services provided.
The Division only covers services that are medically appropriate and necessary. The services provided in the setting must be appropriate to the specific medical needs of the member. (See Part I Policies and Procedures Manual, Definitions, 19 Medical Necessity.) The medical record must substantiate the medical necessity and appropriateness including appropriateness of the setting. When the outpatient observation setting is non-covered, all services provided in the outpatient observation setting are also non-covered. Services that are not reasonable or necessary for the diagnosis or treatment of the patient but are provided for the convenience of the patient or a physician are not covered. (See Part I Policies and Procedures Manual, Definitions, 19 Medical Necessity.)

Level of care and setting determination are based on patient assessment, medical condition and anticipated or actual treatment as documented in the request for approval. Peer review, in conjunction with inpatient/outpatient qualifying criteria from a "nationally recognized criteria" may be used by PA/UM contractors to assess the patient's medical condition and to substantiate medical necessity for inpatient or outpatient status. The process is the standard for providers, DCH, Gainwell, PA/UM and any other Division Contractors. Hospitals will be required to conduct concurrent review and will be required to keep the hospitalized patient until the same criteria indicate hospitalization is no longer necessary. DMA will notify providers in writing at least 30 days prior to the date of any changes in the criteria or version of criteria being used to certify inpatient admissions. Written notice would be provided on banner messages, on remittances, and on the Gainwell Technology web site (www.mmis.georgia.gov). The same version of criteria will be used for any retrospective medical reviews as were used prospectively or concurrently.

NOTE: Hospitals should not substitute outpatient observation services for medically appropriate inpatient admissions. An inpatient is not considered to have been discharged if placed in observation status after an inpatient admission. The availability of outpatient observation does not mean that services, for which an inpatient stay is anticipated, may be performed and billed to the Division on an outpatient basis. Services such as complex surgery clearly requiring inpatient care and pre-certification may not be billed as Outpatient.

910.8. Delivery and Care of Newborn Infants

Effective dates of admission, July 1, 1998, and greater, charges for the mother and baby must be billed separately. Please refer to the Newborn Medicaid Eligibility Certification (DMA-550) in the Billing Manual for Hospital Services and Appendix H of Part II - Policies and Procedures for Hospital Services.
Effective data with admission July 1, 2000, and greater newborn screening tests are covered in the hospital. Revenue code 479 should be used when billing for the newborn hearing-screening test. Please refer to the Billing Instructions for Hospital Services, Form Locator 42.

Effective January 1, 2007, Georgia law (OCGA 31-12-6 & 31-12-7) and Rules and Regulations (Chapter 290-5-24) require that every live born infant have an adequate blood testing for 28 disorders. Effective January 1, 2007, the Department of Community Health will increase Georgia Medicaid payments to hospitals by $40 per newborn, when a newborn screening is performed. This payment is once per newborn member per lifetime. Effective

July 1, 2010, the newborn screening add-on to hospitals increased from $50 to $63 for screening performed on or after October 1, 2016. (Rev 01/2018)
In order for the hospital to receive the additional $40 payment, the provider must include condition code "A1" on the newborn claim in field 18-28 on the UB-04. The $40 payment is an add-on to the DRG payments and does not impact the adjudication of a claim, nor the payment methodology currently used by the department. This is an add-on payment meant to increase the DRG payment by $40 for newborn claims when a newborn screening has been performed. (Rev 01/2019)
Effective for dates of service including and after July 1, 2018, a $1000 add-on payment for newborn delivery in rural counties with populations of less than 35,000.

910.9. Magnetic Resonance Imaging (MRI)

Medically necessary MRIs are covered by the Division when CT scans or SPECT procedures are not definitive or appropriate. Only one MRI per day will be paid without submission of documentation for medical necessity. Please note that only enrolled Medicaid providers may be reimbursed for MRI procedures.

910.10. Non-coverage of medically necessary services for members under twenty- one (21) years of age may be appealed to:

Medical Policy Unit-Hospital Service
Division of Medicaid, 19th Floor
2 Martin Luther King Jr. Drive SE
East Tower
Atlanta, Georgia 30334-3159

910.11. Hospital-Based Rural Health Clinics

Hospitals providing primary care services through the Rural Health Clinic Program must be certified by the Department of Health and Human Services (HHS) and appropriately enrolled by the Division as a Hospital-Based Rural Health Clinic. Please refer to the conditions of participation in Chapter 600 of the Policies and Procedures for Rural Health Services manual.

910.12. Mammography Services

Screening and diagnostic mammography services are covered. Reimbursement for mammography services is limited to one procedure per member, per year (July 1 - June 30) unless medical documentation is provided, which justifies additional services.

In accordance with the MQSA of 1992, mammography services are reimbursed only when provided by a facility that has been certified by the FDA for mammography services. Effective with dates of service, October 1, 1994, and after, a facility that has not been certified has been denied certification or whose accreditation has been revoked will not be reimbursed for these services. Effective November 1, 2011, a facility's Mammography Certificate is to be sent to Gainwell Provider Enrollment Unit for placement in their provider enrollment file.

910.13. HIV Education and Counseling

The Division, in support of the American Academy of Pediatrics (AAP) and the American College of Obstetricians and Gynecologists (ACOG), strongly suggests that HIV education and counseling be made part of the routine standard of care for Medicaid eligible pregnant women.

910.14. Partial Hospitalization Program – Psychiatric

A Partial Hospitalization Program (PHP) for Medicaid purposes is defined as a comprehensive structured program that uses a multidisciplinary team to provide comprehensive coordinated services within an individual treatment plan for individuals diagnosed with one or more psychiatric disorders.

It is a service in a continuum of care designed to prevent hospitalization or to facilitate the movement of the acute psychiatric client to a status in which the client is capable of functioning within the community with less frequent contact with the psychiatric health care provider.

Partial Hospitalization is a time limited, ambulatory, active psychiatric and/or substance abuse treatment program that offers therapeutically intensive, coordinated, and structured clinical services within a stable therapeutic milieu. Partial Hospitalization Programs (PHP) may be provided on a day and/or evening schedule. Such programs employ an integrated, comprehensive and complementary schedule of recognized treatment approaches Programs are designed to serve individuals with significant mental health impairments resulting from a psychiatric emotional behavioral, and/or substance abuse disorder, and further serve to avert hospitalization and/or increase a member's level of independent functioning.

910.15. In order for partial hospitalization to be covered, the services must be:

910.15.1. Certified on admission by the physician that the individual would require short-term acute inpatient psychiatric treatment in the absence of partial hospitalization

910.15.2. Incident to physician's services. The services must be furnished while the individual is under the care of a physician. The services must be prescribed by a physician under an individualized plan of treatment. The plan of treatment must be established and periodically reviewed by a physician in consultation with the appropriate staff.

910.15.3. A plan of treatment must be established within the first 7 days of a patient's participation in the program; reviews and updates to the plan should be performed at least every 31 calendar days and must include documentation supporting the need for continued acute care services.

910.15.4. The services must be reasonable and necessary for the diagnosis or active treatment of the individual's condition.

910.15.5. There is a reasonable expectation that the treatment will improve or maintain the patient's condition and functional level and prevent relapse and/or acute care hospitalization.

910.15.6. Reimbursement for partial hospitalization services is dependent on two critical points: 1) the initial decision as to the medical appropriateness of entrance into the program for treatment; and 2) the decision concerning discharge. Both determinations should take into account both the diagnosis and the individual's treatment needs.

910.15.7. The partial hospitalization program is designed to treat patients who exhibit severe or disabling conditions related to an acute psychiatric/psychological condition or an acute exacerbation of a severe and persistent mental disorder. The partial hospitalization may occur in lieu of an admission to an inpatient hospital or a continued inpatient hospitalization. The following clinical information must be submitted that supports the emergent nature of the services provided. Only the following documents should be submitted to Georgia Medical Care Foundation (GMCF) for review:

910.15.7.1. History and Physical

910.15.7.2. Discharge Summary

910.15.7.3. Physician Progress Notes

910.15.8. Medicaid eligible members may attend PHPs for a minimum of one (1) to a maximum of five (5) days per week. A treatment day requires a minimum of four (4) hours of scheduled programming inclusive of at least one therapy session (individual, group, or family therapy) per day. The daily programming usually includes a combination of treatment and therapeutic activities. Examples of treatment include but are not limited to: individual psychotherapy; group psychotherapy; family therapy / medication reviews; on-going assessments; expressive therapy, such as, dance, art, or psychodrama; theme specific (psycho- educational) groups, such as, communication skills, assertiveness training, stress management, symptom recognition, problem solving, relaxation training, and groups which focus on substance abuse issues. Appropriate adjunctive therapeutic activities include cooking, budgeting, personal hygiene skills, recreation, and social activities designed to incorporate family involvement. Adjunctive therapeutic activities are not counted toward fulfilling the four-hour minimum treatment day requirement.

910.15.9. Members may not attend PHP and a Methadone clinic. Only one of these services will be reimbursed.

910.16. Mandatory Services:

Psychiatric partial hospitalization programs must provide the following mandatory services and at least two of the following optional services. Payment for both mandatory services and optional services is included in the rate for day treatment. Providers shall not make any additional charges to the Georgia Division of Medical Assistance or to the member.

910.17. Medically Necessary Psychotherapy Services:

910.17.1. These services must demonstrate active treatment of a patient with a psychiatric condition. These services are subject to program limitations and must be provided by professionals operating within the appropriate scope of practice.

910.17.1.1. Individual Psychotherapy

910.17.1.2. Group Psychotherapy.

910.17.1.3. Family Psychotherapy; and

910.17.1.4. Family Assessment if appropriate.

910.18. Medically Necessary Nursing Services:

910.18.1. Medical services directed by a Registered Nurse who evaluates the particular medical nursing needs of each client and provides for the medical care and treatment approved by the supervising practitioner.

910.19. Medically Necessary Psychological Diagnostic Services:

910.19.1. Testing and evaluation services must be expected to contribute to the diagnosis and plan of care established for the individual client. A Licensed Psychologist may perform testing and evaluation services. If testing and evaluation services are provided by a specially licensed psychologist or approved Master's level person, the services must be ordered by a supervising practitioner. The supervising practitioner must document medical necessity.

910.20. Medically Necessary Pharmaceutical Services:

910.20.1. If medications are dispensed by the program, pharmacy services must be provided under the supervision of a registered pharmacy consultant; or the program may contract for these services through an outside licensed/certified facility. All medications must be stored in a special locked storage space and administered only by a physician, registered nurse, or licensed practical nurse.

910.21. Medically Necessary Dietary Services:

910.21.1. If a day treatment program provides meals, services must be supervised by a registered dietitian, based on the client's individualized needs. The program may contract for these services through an outside licensed certified facility.

910.22. Optional Services:

910.22.1. The member must have a need for the services, a supervising practitioner must order the services, and the services must be a part of the member's treatment plan. The therapies must be restorative in nature, not prescribed for conditions that have plateaued or cannot be significantly improved by

the therapy, or which would be considered maintenance therapy. In appropriate circumstances, occupational therapy may be covered if prescribed as an activities therapy in a psychiatric program:

910.22.2. Services provided or supervised by a licensed or certified therapist may be provided under the supervision of a qualified consultant or the program may contract for these services from a licensed/certified professional as listed below:

910.22.2.1. Recreational Therapy

910.22.2.2. Speech Therapy

910.22.2.3. Occupational Therapy

910.22.2.4. Vocational Skills Therapy

910.22.2.5. Self-Care Services: Services supervised by a registered nurse or occupational therapist that is oriented toward activities of daily living and personal hygiene. This includes toileting, bathing, grooming, etc.

910.22.2.6. Social Work provided by a bachelor's level social worker: Social services to assist with personal, family and adjustment problems which may interfere with effective use of treatment, i.e., case management type services.

910.22.2.7. Social Skills Building

910.22.2.8. Life Survival Skills

910.23. Documentation Requirements:

910.23.1. The physician certification must include

910.23.2. The individual would require hospitalization in the absence of partial hospitalization.

910.23.3. The individual is under his/her care.

910.23.4. The services were furnished under a written individualized plan of care. The treatment plan must include, but is not limited to:

910.23.4.1. Physician's diagnosis

910.23.4.2. Treatment goals

910.23.5. Type of service used to achieve the goals

910.23.6. Amount, frequency and duration of the modalities used to treat the problems identified.

910.24. Treatment Goals:

910.24.1. Treatment goals are used to measure:

910.24.1.1. The patient's response to therapy

910.24.1.2. Impact of treatment

910.24.1.3. Coverage of services

The physician determines the frequency and duration of the services taking into account accepted norms of medical practice and a reasonable expectation of improvement in the patient's condition or maintenance of an appropriate functional level.

If a therapy (group or otherwise) is not indicated in the plan of care, it cannot be covered as medically necessary.

910.25. Progress Notes:

910.25.1. Progress notes for each service must be present and relate to the patient's condition and the treatment plan.

910.25.2. Progress notes should reflect the patient's response to the therapy.

910.25.3. Notes may be made on a weekly basis but should be comprehensive and indicate the specific dates and group sessions or other services rendered for the time period. (Example: Attended individual sessions on April 5, 7, and 9.)

910.26. Non-Covered Services:

910.26.1. Services which are considered non-covered and should not be included in the day care charge:

910.26.1.1. Meals and transportation.

910.26.1.2. Activity therapies, group therapies, or other services and programs, which are primarily recreational or divisional in nature.

910.26.1.3. Day treatment or geriatric day care programs that consist of:

910.26.1.3.1. Activity therapies provide social and recreational activities to individuals who need some supervision during the day while family members are away from home.

910.26.1.3.2. Psychosocial programs or community support groups in non-medical settings

for chronically mentally ill persons for the purpose of social interaction

910.26.1.3.3. Vocational and pre-vocational assessment and training. Services related to employment opportunities, work skills or work settings are not covered.

910.26.1.3.4. Drugs and biological items that can be self-administered.

910.26.1.3.5. General education programs or education of the general public.

910.26.1.3.6. Any service that does not have a specific treatment goal and is not outlined in the individualized treatment plan.

910.26.1.3.7. Any services not documented in the medical records and identified in the itemized statement.

910.26.1.3.8. Services to members who:

910.26.1.3.8.1. Refuse or cannot participate with the treatment.

910.26.1.3.8.2. Are suicidal, homicidal or severely demented individuals.

910.26.1.3.8.3. Demonstrated inadequate impulse control.

910.26.1.3.8.4. Require social, custodial, and recreational or respite care.

910.26.1.3.8.5. Have multiple unexcused absences or is non-compliant with the program

910.27. Genetic Counseling

Perinatal genetic counseling will be covered when provided by an employee/contracted agent of a hospital. These services must be performed by a master's prepared certified genetic counselor in conjunction with a physician who is board certified in Genetic medicine.

Genetic counseling services provided are to be non-directive, outcome planning related and used to factually inform both the physician and parents of possible genetic impacts and anomalies.

Services will be limited to three (3) counseling sessions within an eleven-month period for an eligible Medicaid member. This is to include one (1) initial screening interview and up to two (2) follow-up sessions for discussion and clarification of issues.

Billing for Perinatal genetic counseling should occur using the revenue code 561 and the UB-04 claim form, bill type 131.

910.28. Limited Inpatient Services

With the exception of the limitation described in 904.6, there is no limit on the number of medically necessary inpatient hospital days a Medicaid member is allowed. Readmission for the same or related problem within three (3) days of discharge is considered the same admission. Medical justification is the only criterion for hospitalization for eligible members. Documentation to substantiate medical necessity and appropriateness of setting may be requested in a prepayment or post payment review by the Division. Lack of appropriate medical justification may be cause for denial, reduction, or recoupment of reimbursement.

Inpatient emergency medical services are defined as those services that are medically necessary as a result of a sudden onset of a medical condition manifesting itself by acute symptoms of such severity that the absence of immediate medical attention could reasonably be expected to result in serious dysfunction of any bodily part or death of the individual.

910.29. Admission for diagnostic purposes is covered only when the diagnostic services cannot be performed on an outpatient basis.

910.30. Chest X-rays and other diagnostic procedures performed as part of the admitting procedure will be covered only when:

910.30.1. The test is specifically ordered by a physician responsible for the patient's care.

910.30.2. The test is medically necessary for the diagnosis or treatment of the individual patient's condition

910.30.3. The test does not unnecessarily duplicate the same test done on an outpatient basis before admission, or done in connection with a recent admission; and

910.30.4. The test is billed with the admission.

910.31. Certain services may only be reimbursed when performed on an outpatient basis unless medical necessity for an inpatient admission is documented and pre- certified (see Sections 802 and 903.6).

In some cases, the hospital determines that an outpatient hospital setting was appropriate

to the specific medical needs of the member after the services were provided on an inpatient basis. A physician's order must document the patient's status at the time of admission, and any changes in the patient's status during the hospital stay should be documented with a physician's order. Changes made to the patient's status must be made on the basis of medical review and not due to any specific insurance criteria for billing and reimbursement.

Outpatient services billed as inpatients that are identified for recoupment after review for medical necessity by the Division or its authorized representatives cannot be re-billed as outpatient.

910.32. See Section 911 for limits to abortion, sterilization and hysterectomy coverage.

910.33. Certain services are not reimbursable without precertification. Refer to Chapter 800 for precertification requirements.

910.34. Reimbursement for psychiatric services is limited to short term acute care. The maximum length of stay considered for reimbursement by the Division is 30 days. Psychiatric admissions, which have a length of stay in excess of 30 days, will post an edit for medical review. Prior Authorization is required for additional days in excess of the 30 allowed days with clinical justification and review of the member's medical records for medical necessity.

910.35. Inpatient admissions of less than twenty-four hour's duration are subject to review for medical necessity of admission. A length of stay less than twenty-four hours may be considered inpatient if the services can be provided only on an inpatient basis. Outpatient services billed as inpatient are subject to recoupment after review for medical necessity and cannot be re-billed as outpatient.

910.36. Co-payments

Effective with dates of service July 1, 1993, and after, the Division is implementing a $3.00 member co-payment on all non-emergency outpatient hospital visits. Outpatient hospital visits include those to clinics o w n e d and operated by a hospital (including satellite clinics), hospital outpatient departments or hospital emergency rooms.

The Division is implementing a $12.50 member co-payment on all non-emergency inpatient hospital admissions.

910.37. Pregnant women, members under 21 years of age, nursing facility residents, community care members, dialysis members, hospice care participants and persons who have both Medicare and Medicaid coverage are not subject to the co-payment. Family planning services are also not subject to the co-payment. Beginning with dates of service January 1, 1995, co-payments apply to the following groups of members who were previously exempt from participation in co-payments. The three groups affected are dialysis members, Medicare/Medicaid dually eligible members, and members in waivered services programs. These groups are required to co-pay beginning with dates of service January 1, 1995, and after, for those services designated as co-pay services.

910.38. Maintenance dialysis services for end stage renal disease are not designated as co-pay services. No co-pay is required for those services.

910.39. Members who may be subject to the co-payment may be identified by checking member eligibility via the web or telephone.

On each outpatient visit, the hospital must verify that the member is subject to the co-payment.

Services may not be denied because of the member's inability to pay the co- payment. The co-payment is limited to non-emergency admissions.

910.40. Non-Covered Inpatient Services

The services and procedures listed below are non-covered by the Medicaid Division in the Hospital Program. Services related to, required in preparation for, or as a result of non-covered services are not covered. Medicaid members enrolled after receiving care that is or would not have been covered by Georgia Medicaid do not have coverage for care related to, or as a result of the non-covered services done prior to member enrollment. Adverse action may be taken against hospitals that willfully continue to bill the Division for non-covered services identified in this manual.

910.40.1. Services and supplies which are inappropriate or medically unnecessary as determined by the Division, the Division's peer review organization, or other authorized agent.

910.40.2. Private rooms. Conditions that require an isolation room or special care unit ICU, CCU) are reimbursable. All other accommodations are reimbursed at the semiprivate room rate on file with the Division for the date of service.

910.40.3. Patients should be notified upon admission that the Division will only cover the semi-private room rate. Members who request a private room after being informed of the Division's policy will be responsible for the difference between the hospital's semi-private and private room rates.

910.40.4. The member cannot be billed for the difference between the amount paid by Medicaid and the private room rate when the hospital has only private rooms, has only private rooms available, or the patient has a condition which requires an isolation room or special care unit.

910.40.5. Intermediate care; i.e., step-down units are reimbursable at the semi-private room rate;

910.40.6. Late charges - defined as a portion of the charges for a given service omitted from the original billing which included some of the charges for that given service. If the total charges for a given service were omitted from the original billing, a positive adjustment may be requested. Providers who repeatedly use the incorrect billing code generating the need for a positive adjustment may be subject to adverse action by the Division. Late Charges to previously paid revenue codes/claims are not allowed to be changed once the previous claim is paid.

910.40.7. Take-home prescription drugs, medical supplies, durable medical equipment, and artificial limbs and appliances.

910.40.8. Nursing service. This includes services traditionally accepted as nursing care even though provided by other ancillary departments, e.g. blood glucose testing, dressing changes, and labs drawn by nursing (i.e. STAT), tracheostomy care, oral care, etc.

910.40.9. Private duty nurses, sitters or companions.

910.40.10. Ambulance or other transportation, including air ambulances.

910.40.11. Services which are not medically necessary to the patient's well-being; e.g., television, telephone, combs, brushes, guest meals, cots, etc.

910.40.12. Non-consumable multiple supply items; e.g., bath basins, admission kits, disposable pillows, etc.

910.40.13. Service charges for individual areas within the hospital; e.g., pharmacy dispensing fee, IV admixture fee (except for hyper alimentation), cover charge for central supply, charges for handling and distribution of supplies, transportation within the hospital, equipment installation, thawing/splitting/pulling, specimen collection, venipuncture, standby equipment, staff time and evaluations, etc.

910.40.14. Resuscitation, code, CPR (cardio-pulmonary resuscitation), etc. Supplies associated with this service will be reimbursed.

910.40.15. Leave of absence.

910.40.16. Clinic services while the member is an inpatient.

910.40.17. Patient or family education or supplies

910.40.18. Utilization review.

910.40.19. Differential service charges, e.g., "STAT" or priority, after-hours or "call-back" fees. Only those hospitals that do not provide twenty-four-hour emergency service may bill for the after hour and call-back differential fee.

910.40.20. services provided free-of-charge to the public by the hospital or county health departments, state laboratory or other state agencies, i.e., immunizations, metabolic screens for members under one year of age, etc.; see Appendix E.

910.40.21. Services mandated to be performed only on an outpatient basis.

910.40.22. Investigational items and experimental services, drugs or procedures or those not recognized by the Federal Drug Administration, Medicare and the Division's contracted peer review organization as universally

accepted treatment; including but not limited to, dual photon absorptiometry, etc.

910.40.23. Any services or items furnished for which the hospital does not normally charge.

910.40.24. Refer to Section 911 for non-covered situations concerning abortions, sterilizations and hysterectomies

910.40.25. Services or procedures performed which are not in compliance with the policies and procedures contained in this manual.

910.40.26. Tubal re-anastomosis procedures pertaining to sterilizations and vasectomies

910.40.27. Services provided by an institution for mental disease or special disorders

910.40.28. Separately billed equipment and supplies which are integral parts of hospital care and the area in which care is being provided; e.g., cardiac monitor in ICU, light source in OR, call system, blood pressure cuffs and monitors, specimen collection devices and containers, ABG kits, IV bottles/bags, IV administration kits, nutritional supplements, dressings, blankets, oxygen sensors, pumps, under pads, depends/diapers, restraints, gait belt, etc

910.40.29. Preventive health care. Members under age twenty-one (21) may receive this care through the EPSDT screening process.

910.40.30. Miscellaneous and non-specific charges.

910.40.31. Non-acute levels of care.

910.40.32. Infertility procedures and related services.

910.40.33. Never Events or HAC Conditions and any HCPCS/CPT Procedure to Procedure (PTP) co- pairs in billing Outpatient Hospital Services per CMS' directive in the NCCI/MUE regulations.

910.40.34. Services with a corresponding charge of zero. No zero-dollar charges should be listed on the itemization checklist submitted to GMCF of review. Additionally, do not white out the item, or strike through the item.

910.40.35. Please use the Procedure Search panel for covered codes

910.41. Limited Emergency Room and Outpatient Services

910.41.1. Emergency medical services are defined as those services that are medically necessary as a result of a sudden onset of a medical condition manifesting itself by acute symptoms of such severity that the absence of

immediate medical attention could reasonably be expected to result in serious dysfunction of any bodily part or death of the individual. Emergency room visits that cannot be documented as true medical emergencies or potential medical emergencies will be reimbursed at an all- inclusive flat rate of $60 for (Urban hospital setting and OOS Counties) and $70 for rural hospital setting. This rate is for all in-state and out of state emergency medical services. This rate will cover all ancillary services rendered as well as the fee for use of the emergency room. It is for the medical screening and stabilization services provided in the emergency room without regard to prior authorization. The rates will not be subject to the hospital's reimbursement rate.

910.41.2. Accurate coding is critical to ensure proper reimbursement. Coding of certain diagnoses that represent diseases and conditions that are recognized as medical emergency situations on a claim will result in the claim being treated as an emergency service. If the medical record supports the existence of an accurate emergency situation, but the diagnosis is not identified as an emergency, the claim must be submitted to GMCF along with documentation. The claim will be suspended for medical review. If, after medical review, the determination is made that an emergency or potential emergency did in fact exist, the services will be reimbursed at the hospital's specific outpatient rate

910.41.3. In non-emergency situations where the provider may be able to identify a chronic abuser of the Emergency Room, the provider may exercise its right to advise the member that they will not be accepted as a Medicaid member. Should the members choose to receive services, they will be responsible for all charges incurred

910.41.4. All hospitals should consider the following alternatives in the event a member is not accepted and treated as a Medicaid member:

910.41.4.1. Refer the member to a specific alternate health care setting where he or she can obtain the same level of care that day or the next day.

910.41.4.2. Advise the member on conditions that necessitate visits to the emergency room and explain the appropriate settings for treatment.

910.41.4.3. There is no limit imposed on the number of visits allowed per day per member in true medical emergencies.

910.41.4.4. More than one non-emergency visit by the same member in one day is subject to review for medical necessity and possible denial depending on the individual situation.

910.41.4.5. See Chapter 800 for precertification requirements. Without precertification certain outpatient services are not reimbursable.

910.41.4.6. Reimbursement for psychiatric services is limited to short-term acute care.

910.41.4.7. One series of birthing and parenting classes provided to pregnant members will be reimbursed per twelve-month period. This service is reimbursed under revenue code 942. Policies and Procedures can be found in Part II of the Policies and Procedures for Childbirth Education Program manual.

910.41.4.8. Services provided within three (3) days of inpatient admission or discharge for the same or related diagnosis is considered part of the admission.

910.41.4.9. The three (3) day payment window policy applies to services furnished by the hospital (or an entity it wholly owns or operates) and includes laboratory and radiology services.

910.41.4.10. An entity wholly owned or operated by the hospital is: if a hospital has direct ownership or control over another's entity's operations, services provided by that entity are subject to the DRG payment window; if a third organization owns or operates both the hospital and the entity the payment window does not apply.

910.42. Non-Covered Emergency Room and Outpatient Services

The services or procedures listed below are non-covered by the Division in the outpatient Hospital Program. Services related to and required in preparation or as a result of non-covered services are also non-covered. Adverse action may be taken against hospitals that willfully continue to bill the Division for non-covered services identified in this manual.

910.42.1. Services and supplies which are inappropriate or medically unnecessary as determined by the Division, by the Division's peer review organization, or other authorized agents.

910.42.2. Late charges - defined as a portion of the charges for a given service omitted from the original billing which included some of the charges for that given service

910.42.3. If the total charges for a given service were omitted from the original billing, a positive adjustment may be requested. Providers who repeatedly use the incorrect billing code generating the need for a positive adjustment may be subject to adverse action by the Division

910.42.4. Take-home medical supplies and appliances, durable medical equipment

910.42.5. Take-home prescription drugs.

910.42.6. Routine physical examinations.

910.42.7. Ambulances or other transportation services including air ambulance.

910.42.8. Any services or items furnished for which the hospital does not normally charge.

910.42.9. Services provided free-of-charge to the public by the hospital, County Health Departments, State Laboratory or other state agencies, i.e., immunizations, metabolic screens for members under one year of age, etc. See Appendix E

910.42.10. Resuscitation, code, CPR (cardiopulmonary resuscitation), etc.; only the supplies associated with this service will be reimbursed.

910.42.11. Differential service charges, e.g., "STAT" or priority, after-hours or "call-back" fees. Only those hospitals that do not provide twenty-four-hour emergency service may bill for the after hour and call-back differential fee.

910.42.12. Cosmetic surgery or mammoplasties for aesthetic purposes.

910.42.13. Service charges for individual areas within the hospital, e.g., pharmacy dispensing fee, IV admixture fee (except for hyper alimentation), cover charge for central supply, charges for handling and distribution of supplies, transportation within the hospital, equipment installation, specimen collection, venipuncture, standby equipment, staff time, and evaluations

910.42.14. Investigational items and experimental services, drugs or procedures or those not recognized by the Federal Drug Administration, Medicare and the Division's contracted peer review organization as universally accepted treatment

910.42.15. Services or procedures performed which are not in compliance with the policies and procedures contained in this manual.

910.42.16. Refer to Section 911 for non-covered situations concerning abortions, sterilizations and hysterectomies.

910.42.17. All applicable procedures, codes, and charges are listed in Section 905.

910.42.18. Preventive Health care. Members under age twenty-one may receive this care through the EPSDT screening program.

910.42.19. Tubal re-anastomosis procedures pertaining to sterilizations and vasectomies.

910.42.20. Nursing service. This includes services traditionally accepted as nursing care even though provided by other ancillary departments

910.42.21. Services non-covered or denied by the Division because they were provided on an inpatient basis (see Section 903.6).

910.42.22. Services provided by an institution for mental disease or special disorders.

910.42.23. Separately billed equipment and supplies which are integral parts of hospital care and the area in which care is being provided, e.g., cardiac monitor in ICU, light source in OR, call system, blood pressure cuffs and monitors, specimen collection devices and containers, etc.

910.42.24. Patient or family education or supplies (except as described in Section

910.42.25. Miscellaneous and non-specific charges

910.42.26. Non-acute levels of care.

910.42.27. Infertility procedures and related services

910.42.28. Unlisted or Non-Specified Procedures

910.42.29. Physical Therapy, Occupational Therapy, and Speech Therapy that are not immediately following and in treatment of acute illness, injury or impairment are not covered in the outpatient hospital setting. Medicaid Programs such as CIS (Children Intervention Services) and CISS (Children Intervention School Services) cover members under 21 years of age who require therapy not related to an acute illness, injury, or impairment. Please refer the Part II Policies and Procedures for CIS and CISS.

910.43. Other Hospital Related Services

In order to receive reimbursement for the services listed below, the hospital must be separately enrolled as a provider of these services. A Policies and Procedures manual is provided for each specific program. These services will not be reimbursed from a hospital claim form.

910.43.1. Emergency Ambulance Ground Transportation-Prior Approval is required for ground transportation over 150 miles (institution to institution

910.43.2. Air Ambulance Transportation-Prior Approval is required for all air ambulance transportation.

910.43.3. Nonemergency Ambulance Transportation (NET);

910.43.4. Durable Medical Equipment (DME);

910.43.5. Orthotics and Prosthetics O & P);

910.43.6. Pharmacy

910.43.7. Early Periodic Screening Diagnosis and Treatment;

910.43.8. Pregnancy Related Services;

910.43.9. Perinatal Case Management;

910.43.10. Children's Intervention Services;

910.43.11. Rural Health Clinic; and

910.43.12. End Stage Renal Disease Routine Maintenance Dialysis

910.44. Out-of-State Providers and Service Limitations

Out-of-state hospital providers not enrolled in the Georgia Medicaid program as participating providers will be reimbursed for covered services provided to eligible. Georgia members while out-of-state if the claim is received within twelve months from the month of service, and if at least one of the following conditions is met:

910.44.1. The service was prior authorized by the Division; or

910.44.2. The service was provided as a result of an emergency or life-endangering situation occurring out of state. (If the out-of-state provider believes the medical record supports the existence of an emergency situation but the diagnosis does not justify an emergency, the claim must be submitted with a copy of the medical record.)

910.44.3. Out-of-state providers located within 50 miles of the boundary of the State of Georgia will be permitted to enroll for Medicaid and/or Medicare on a participating basis, provided all other enrollment criteria are met. These are referred to as Border Providers.

910.44.4. Emergency medical services are defined as those services that are medically necessary as a result of a sudden onset of a medical condition manifesting itself by acute symptoms of such severity that the absence of immediate medical attention could reasonably be expected to result in serious dysfunction of any bodily part or death of the individual. Emergency room visits that cannot be documented as true medical emergencies or potential medical emergencies will be reimbursed at an all- inclusive flat rate of $60. This rate is for all urban and out of state emergency medical services. This rate will cover all ancillary services rendered as well as the fee for use of the emergency room. It is for the medical screening and stabilization services provided in the emergency room without regard to prior authorization. The $60 flat rate will not be subject to the hospital's reimbursement rate.

910.44.5. Georgia Medicaid does not cover services provided in foreign countries. The Department will reimburse providers in the 50 states, the District of Columbia, the Northern Mariana Islands, American Samoa, Guam, Puerto Rico, and the Virgin Islands for services provided in an emergency situation or when prior authorization was obtained from the

Department before the service is provided. Out-of-state providers must be licensed in the United States and/or its territories. Out-of-State providers are required to be licensed in their own state of practice and enrolled in their own state's Medicaid program. No payment can be made unless the patient meets Georgia Medicaid eligibility criteria. Out-of-State providers must complete the enrollment process prior to any commitment of payment. The Department will not reimburse providers in foreign countries.

910.44.6. Routine health care or elective surgery provided by out-of-state providers is not covered unless prior authorization is obtained.

910.44.7. Members should be transferred to another in-state Georgia facility before transferring the member out-of-state for emergent care. The medical record should document why the member was not transferred to another Georgia facility.

910.44.8. The referring in-state provider is required to request prior approval by documenting in writing the medical necessity of obtaining services out-of- state and providing the name and address of the out-of-state medical provider.

910.44.9. The out-of-state provider cannot obtain a prior authorization request.

910.44.10. Reimbursement and coverage of out-of-state services are determined in accordance with current policies and procedures of the Georgia Division of Medical Assistance and are contingent upon the patient's eligibility at the time services are provided.

910.44.11. Contractual agreements will not apply to in-state facility to an out of - state facility due to the different reimbursement types.

910.44.12. Out-of-state providers will be reimbursed in accordance with the policy described in Subsection1001.4. Requests for prior approval or questions regarding out-of-state services must be directed to the following:

Prior Authorization & Pre-Certification
Alliant Health Solutions
PO Box 105200
Atlanta, Georgia 30348
800-766-4456 (Toll free)

910.44.13. Out-of-state claims submitted for reimbursement must have a copy of the authorization letter attached if services were prior authorized or medical justification if the services were due to an emergency or life-endangering situation.

911. Medicaid/Medicare

911.1. Medicare Part B Only Services: Many Medicaid members also are eligible for Medicare. Hospital claims submitted to the Division for members with Medicare "Part B only" will be reimbursed at the Per Case Rate. Inpatient hospital admissions for "Part B Only" members must be pre-certified. See Chapter 800 for precertification requirements

911.2. Providers should bill Medicare for all Part B reimbursable ancillary services (i.e.…lab, radiology, pharmacy, supplies, etc.). Medicare Part B services will cross over to Medicaid and adjudicate as a crossover claim. Providers may then bill Medicaid for the Part A inpatient hospital services. Do not use bill classification 121 for these claims; bill classification 111 should be used. Enter "Medicare Part B" as the Primary payer online A of Field Locator 50 and the total amount paid by Medicare under Part B for the Part B ancillary charges entered as a prior payment in Field Locator 54A with a Claim Filing indicator of MB (Medicare Part B). Enter the Claim Filing indicator of MC (Medicaid) in Field Locator 54B and the total amount paid by Medicaid under Part B for the Part B ancillary charges entered as a prior payment. Attach a copy of the EOMB from Medicare and the Remittance Advice from Medicaid showing the amount paid for the Part B ancillary charges to the claim: All claims are to be submitted electronically through EDI or on the web portal at www.mmis.georgia.gov.

911.3. For more detailed billing instructions, please review the Medicaid Secondary Claims User Guide.

911.4. Exhaustion of Medicare Lifetime Reserve Days

911.4.1. When the total Medicare Lifetime Reserve Days are exhausted, the Division may be billed for charges incurred by Medicaid members.

911.4.2. The claims for these charges must be filed on the UB-04 claim form with the Report of Eligibility or Explanation of Medicare Benefits attached. The attachment must state that the patient's total Lifetime Reserve Days are exhausted and include the last date of Medicare entitlement. When filing the UB-04, Medicaid liability begins with charges incurred after Medicare benefits were exhausted.

911.4.3. Please refer to Part I, Chapter 300 for more details regarding Medicare/Medicaid policies and procedures.

911.5. Partial Medicare Eligibility:

911.5.1. When a Medicaid member's Medicare eligibility begins during the course of an inpatient hospitalization, but after the admission date, the Division may be billed for the dates the patient was Medicaid only and as a secondary payer for the dates the member became Medicare Primary.

911.5.2. Limits to Abortion, Sterilization and Hysterectomy Coverage

911.5.2.1. Medicaid funds are unavailable for sterilization, hysterectomies, or abortions performed without the

documentation required by federal regulations (See 42 CFR 441.206 and 441.256). As such, claims for payment submitted without the required documentation or with incomplete or inaccurate documentation will be denied. The Division does not accept documentation meant to satisfy informed consent requirements which has been completed or altered after the service was performed.

911.6. Abortion

911.6.1. The Department of Labor, Health and Human Services, and Education and Related Agencies Appropriations Act, 1998, Public Law Number 105-78 (1997), Congress passed a revision of the Hyde Amendment pertaining to Federal funding of abortions under the Medicaid program. Enacted as 509 of the Department of Labor Appropriations Act, 1994, 107 Stat. 1082. Section 510 directs that "none of the funds appropriated under this Act shall be expended for any abortion except when it is made known to the Federal entity or official to which funds are appropriated under this Act that such procedure is necessary to save the life of the mother of that the pregnancy is the result of an act of rape or incest.

911.6.2. A "Certificate of Necessity for Abortion" form, DMA-311, certifying the above situation must be properly executed and attached to the claim at the time of submission to the Division. This form may be filled out and signed by the physician before or after the abortion is performed. See Appendix I for a copy of this form.

911.6.3. To ensure that abortions are not being billed through the use of other Rev. 10/11procedure codes, the Division requires the following procedures to require an abortion certification along with submission of the History& Physical, Operative Report, and the Pathology Report with all claims that have the following procedures;

911.6.3.1. Other cesarean section of unspecified type

911.6.3.2. Other genitourinary installations

911.6.3.3. Dilation and curettage for termination of pregnancy

911.6.3.4. Aspiration curettage of uterus for termination of pregnancy

911.6.3.5. Hysterectomy to terminate pregnancy

911.6.3.6. Intra-amniotic injection for abortion

911.7. Sterilizations

911.7.1. NOTE: Medicaid funds are unavailable for sterilization, hysterectomies, or abortions performed without the documentation required by federal regulations (See 42 CFR 441.206 and 441.256). As such, claims for

payment submitted without the required documentation or with incomplete or inaccurate documentation will be denied. The Division does not accept documentation meant to satisfy informed consent requirements which has been completed or altered after the service was performed.

911.7.2. The Division is prohibited from making payment for sterilizations performed on any person who: is under twenty-one (21) years of age at the time he/she signs the consent; or is not mentally competent; or is institutionalized in a correctional facility, mental hospital, or other rehabilitation facility. See Appendix J for a copy of the required consent form.

911.7.3. For sterilization procedures performed on and after March 8, 1979, the mandatory waiting period between signed consent and sterilization is thirty (30) days.

911.7.4. The signed consent form expires one hundred and eighty (180) days from the date of the member's signature.

911.7.5. In the case of premature delivery or emergency abdominal surgery performed within thirty (30) days of signed consent, the physician must certify that the sterilization was performed less than thirty (30) days but not less than seventy- two (72) hours after informed consent was obtained. Although these exceptions are provided, the conditions of the waiver will be subject to review.

911.7.6. In the case of premature delivery or emergency abdominal surgery, the sterilization consent form must have been signed by the member thirty 30 Days prior to the originally planned date of sterilization. A sterilization consent form, DMA- 69, must be properly filled out and signed for all sterilization procedures and attached to the claim at the time of submission to the Division. The member must sign the consent form at least thirty (30) days, but not more than one hundred and eighty (180) days, prior to the sterilization. The physician must sign the consent form after the sterilization has been performed.

911.7.7. For information on ordering forms, please refer to the Hospital Billing Section published by Georgia Healthcare Partnership.

911.7.8. The following is a list of procedures associated with sterilization. All claims with these procedures will be reviewed prior to payment to ensure proper coding and to ensure that the sterilization consent form is attached to those claims requiring a form.

NOTE: Two (2) of the procedures always require a sterilization consent form. The remaining codes require the consent form if the procedure was done for sterilization purposes.

911.7.9. Sterilizations that always requires the Sterilization Consent Form.

911.7.9.1. Male sterilization procedure, not otherwise specified

911.7.9.2. Other bilateral destruction or occlusion of fallopian tubes

911.7.10. If done for sterilization purposes, requires Sterilization Consent Form

911.7.10.1. Vasectomy and ligation of vas deferens

911.7.10.2. Vasectomy

911.7.10.3. Bilateral Salpingo-oophorectomy

911.7.10.4. Removal of both ovaries and tubes at same operative episode

911.7.10.5. Removal of remaining ovary and tube

911.7.10.6. Operations on fallopian tubes

911.7.10.7. Salpingostomy

911.7.10.8. Bilateral endoscopic destruction or occlusion of fallopian tubes

911.7.10.9. Bilateral endoscopic ligation and crushing of fallopian tubes

911.7.10.10. Bilateral endoscopic ligation and division of fallopian tubes

911.7.10.11. Other bilateral endoscopic destruction or occlusion of fallopian tubes

911.7.10.12. Other bilateral destruction or occlusion of fallopian tubes

911.7.10.13. Other bilateral ligation and crushing of fallopian tubes

911.7.10.14. Other bilateral ligation and division of fallopian tubes

911.7.10.15. Total unilateral salpingectomy

911.7.10.16. Removal of both fallopian tubes at same operative episode

911.7.10.17. Removal of remaining fallopian tube

911.7.10.18. Other salpingectomy

911.7.10.19. Bilateral partial salpingectomy, not otherwise specified

911.7.10.20. Other partial salpingectomy

911.8. Hysterectomy

NOTE: Medicaid funds are unavailable for sterilization, hysterectomies, or abortions performed without the documentation required by federal regulations (See 42 CFR 441.206 and 441.256). As such, claims for payment submitted without the required documentation or with incomplete or inaccurate documentation will be denied. The Division does not accept documentation meant to satisfy informed consent requirements which has been completed or altered after the service was performed.

911.8.1. Hysterectomy procedures are reimbursable only when the following requirements are met:

911.8.1.1. The hysterectomy was performed for medical necessity and not for the purpose of family planning, sterilization, hygiene or mental incompetence.

911.8.1.2. The member was informed prior to the hysterectomy that she would be permanently incapable of reproducing (this does not apply if the individual was sterile prior to the hysterectomy or in the case of an emergency hysterectomy);

911.8.1.3. The member and the attending physician sign the "Patient's Acknowledgement of Prior Receipt of Hysterectomy Information," form DMA-276, either before or after the surgery is performed. The individual is not required to sign in the cases of prior sterility or emergency hysterectomy; and the properly executed "Patient's Acknowledgement of Prior Receipt of Hysterectomy Information" form is attached to the claim submitted to the Division. See Appendix H for a copy of this form.

911.8.1.4. The following is a list of procedures associated with hysterectomies. All claims with these procedure codes will be reviewed prior to payment to ensure proper coding and to ensure that the hysterectomy acknowledgement form is attached. All hysterectomy procedures listed require a hysterectomy acknowledgement form

911.8.1.5. Hysterectomies that require Hysterectomy Acknowledgement form:

911.8.1.5.1. Subtotal abdominal hysterectomy

911.8.1.5.2. Total abdominal hysterectomy

911.8.1.5.3. Vaginal hysterectomy

911.8.1.5.4. Radical abdominal hysterectomy

911.8.1.5.5. Radical vaginal hysterectomy

911.8.1.5.6. Pelvic evisceration

911.8.1.5.7. Other unspecified hysterectomy

911.9. General Claims Submission Policy for Ordering, Prescribing, or Referring (OPR)Providers

911.9.1. The Affordable Care Act (ACA) requires physicians and other eligible practitioners who order, prescribe and refer items or services for Medicaid beneficiaries to be enrolled in the Georgia Medicaid Program. As a result, CMS expanded the claim editing requirements in Section 1833(q) of the Social Security Act and the providers' definitions in sections 1861-r and 1842(b) (18) C. Therefore, claims for services that are ordered, prescribed, or referred must indicate who the ordering, prescribing, or referring (OPR) practitioner is. The department will utilize an enrolled OPR provider identification number for this purpose. Any OPR physicians or other eligible practitioners who are NOT already enrolled in Medicaid as participating (i.e., billing) providers must enroll separately as OPR Providers. The National Provider Identifier (NPI) of the OPR Provider must be included on the claim submitted by the participating, i.e., rendering, provider. If the NPI of the OPR Provider noted on the Georgia Medicaid claim is associated with a provider who is not enrolled in the Georgia Medicaid program, **the claim cannot be paid**.

911.9.2. Effective 4/1/2014, DCH will begin editing claims submitted through the web, EDI and on CMS-1500 forms for the presence of an ordering, referring or prescribing provider as required by program policy. The edit will be informational until 6/1/2014. Effective 6/1/2014, the ordering, prescribing and referring information will become a mandatory field and claims that do not contain the information as required by policy will begin to deny.

911.10. For the NEW CMS-1500 claim form:

Enter qualifiers to indicate if the claim has an ordering, referring, or prescribing provider to the left of the dotted line in box 17 (Ordering = DK; Referring = DN or Supervising = DQ).

911.11. For claims entered via the web:

Claims headers were updated to accept ordering or referring Provider ID and name for

Dental and Institutional claims and the referring provider's name for Professional claims. The claim detail was updated to accept an ordering or referring provider ID and name.

Utilize the "ordering" provider field for claims that require a prescribing physician.

911.12. For claims transmitted via EDI:

The 837 D, I, and P companion guides were updated to specifically point out the provider loops that capture the rendering, ordering, prescribing, referring and service facility provider information that is now used to transmit OPR information.

The following resources are available for more information:

Access the department's DCH-I newsletter and FAQs at

http://dch.georgia.gov/publications

Search to see if a provider is enrolled at

https://www.mmis.georgia.gov/portal/default.aspx

Click on Provider Enrollment/Provider Contract Status. Enter Provider ID or NPI and Provider's last name.

Access a provider listing at
https://www.mmis.georgia.gov/portal/PubAccess.Provider%20Information/Provider%20 Notices/tabId/53/Default.aspx

Click on Georgia Medicaid FFS Provider Listing or OPR Only Provider Listing

Chapter 1000: Reimbursement

1001. Basis for Reimbursement

1001.1. Reimbursement Methodology

Distinct methods of reimbursement have been established for inpatient hospitals. services provided by Georgia hospitals, for outpatient services provided by Georgia hospitals, and for all services provided by non-Georgia.

1001.2. Inpatient Services

Inpatient services provided by in-state hospitals enrolled in Georgia Medicaid are reimbursed through the Inpatient Prospective Payment System (IPPS).

Under the IPPS, claims are categorized into a diagnosis-related group (DRG) for payment purposes by the All Patients Refined Diagnosis Related Grouper (APR DRG) software within the Georgia Medicaid Management Information System (GAMMIS). Each DRG has a payment weight assigned to it, calculated from the average cost to treat patients with conditions that fall into that DRG.

1001.2.1. To calculate payment for the outlier payment for claims with a date of admission on or after January 1, 2019, the following formula is used:

1001.2.1.1. ={[(Allowable Charges x Hospital-Specific Cost to Charge Ratio) – DRG Outlier Threshold] x Outlier Payment Percentage + Non-Outlier DRG Per Case Payment

1001.2.2. To calculate payment for the outlier payment for claims with a date of admission on or after January 1, 2024, the following formula is used:

1001.2.2.1. ={[(Allowable Charges x Hospital-Specific Cost to Charge Ratio) – DRG Outlier Threshold] x Outlier Payment Percentage + Non-Outlier DRG Per Case Payment

Additional information on the grouper version, DRG weights, and outlier thresholds may be found on the DCH website at: https://dch.georgia.gov/diagnosis-related-groups. Additional instructions on the submission of outlier cases are found in Appendix L.

1001.3. Inpatient Reimbursement for New Hospitals

1001.3.1. For the purposes of inpatient hospital reimbursement, a new hospital is defined as a hospital:

1001.3.1.1. Established by the initial issuance of a Certificate of Need, Medicare certification, and state license, and

1001.3.1.2. For which historical base year paid claims data did not exist.

1001.3.2. New hospitals will be reimbursed under the same inpatient payment formulas as stated in Section 1001.1. New hospitals enrolling in Georgia Medicaid on or after January 1, 2019 will be reimbursed utilizing the statewide base rate and the Georgia statewide average of the cost-to-charge ratios.

1001.3.3. A hospital formed as a result of a merger, acquisition, other change of ownership, business combination, etc. is not a new hospital. Each hospital of this type will maintain the DRG system reimbursement components it would otherwise be assigned. When rates are adjusted after the transaction, the appropriate base period information will be used in determining the hospital's rebased reimbursement components.

1001.4. Outpatient Services

1001.4.1. Outpatient services by Georgia hospitals are reimbursed on an interim payment basis and are subject to cash settlement as described in Section 1003. The Department captures outpatient charges used in the settlement calculation on the Hospital Statistical and Reimbursement (HS&R) report. The HS&R report shows the detailed allocation of charges according to UB revenue codes billed by the hospital. Effective with settlements completed on or after 7/1/2003, no other allocation or methodology will be used to determine allowable and reimbursable outpatient costs other than the HS&R report.

1001.4.2. The determination of allowable and reimbursable costs is made retrospectively and is based on a cost report submitted by the hospital in accordance with Section 1002 and data included in the Non-allowable Cost Questionnaire. Only costs incurred in providing patient care are eligible for reimbursement. In determining reimbursable cost, the lower of costs or charges (LCC) methodology will be applied to all providers to ensure that reimbursable costs will not include costs that exceed total charges. This determination/methodology will be calculated at the time of outpatient settlements using as-filed or audited cost reports.

1001.4.3. The Division will reimburse for cost-based outpatient services at 90 percent of allowable operating costs plus 90 percent of allowable capital costs. The final determination of reimbursable costs will be made at the time outpatient settlements are made using audited cost reports.

1001.4.4. For those hospitals that are currently reimbursed at 90% of the cost of services provided, the reimbursement rate will be reduced to 85.6% of costs. For those hospitals that will be subject to the reimbursement rate of 85.6% of costs, the percentage of charges that will be used for interim payments will be proportionally to reflect the reduction from 90% of cost to 85.6% of cost. The Department will also use trend adjustments to reflect ongoing changes in hospital charges compared to costs.

1001.4.5. Critical access eligible hospitals (CAH), which meet departmental requirements, will be reimbursed at 100% of reimbursable costs at the time initial and final outpatient settlements are made using the as-filed and audited cost reports. State owned or operated hospitals will be reimbursed at 100% of reimbursable costs at the time final outpatient settlements are made using audited cost reports. Reimbursable costs, however, cannot exceed customary charges (LCC) for any provider. (See 1001.3 (B))

1001.4.6. Historically minority-owned hospitals will be reimbursed at 100% of reimbursable costs at the time final outpatient settlements are made using audited cost reports. Reimbursable costs, however, cannot exceed customary charges (LCC) for any provider. (See 1001.3 (B))

1001.4.7. Payments to hospitals that are designated as a Critical Access Hospital, a historically minority owned hospital or as a state owned hospital will continue to be reimbursed at 100% of costs. Interim payments made will be made at a percentage of covered charges estimated to equal 100% of costs. The LCC methodology will be applied to all providers when determining the outpatient settlements. (See 1001.3(B))

1001.4.8. The amount of interim payment is calculated as a particular percentage of covered charges submitted to the Division. This percentage of charges is specific to each hospital and is based on the actual experience of the hospital during the last period for which the Division has performed a cost report review. The percentage of charges represents an estimate of a payment rate that approximates the amount of subsequently determined allowable cost. An interim reimbursement rate cannot exceed eighty-five-point six percent of covered charges. Interim payments are subject to a cash settlement determination as described in Section 1003 and cannot exceed the Medicaid maximum allowable payment. The Medicaid maximum allowable payment is the hospital-specific DRG base rate including the capital and graduate medical education add-ons. The Medicaid maximum allowable payment is the hospital-specific DRG base rate including the capital and GME add-on multiplied by eighty-five-point six percent.

1001.4.9. All clinical diagnostic laboratory services performed for outpatients and non- patients are reimbursed at lab fees for outpatient hospitals (excluding critical access hospitals and state-owned hospitals) and will be paid based on the established fee schedule. Note: Reimbursement of the clinical laboratory CPT codes is based on Medicaid's pricing methodology for Outpatient Lab services which reimburses the lesser of the following: The Medicaid Allow Amount {Medicaid Rate + Hospital Add-On Rate (Medicaid Rate x .1188) x Number of Units} OR The Medicare Allowed Amount (Medicare Rate x Number of Units).

1001.4.10. All injectable drugs are reimbursed in accordance with the HCPCS Level II dose and descriptions. Effective September 1, 2009, the Department of Community Health amended the maximum allowable reimbursement for approved drugs to the lessor of; The provider's usual and customary

charge,

1001.4.11. Average Sales Price (ASP) plus 6% as defined January 1st of each year or the ASP + 6% upon the drug's initial availability in the marketplace whichever is later; or Wholesale Acquisition Cost (WAC) for injectable drugs that do not have ASP pricing until such time that ASP plus 6% pricing becomes available. Drugs on the PADL that are priced without an ASP rate are denoted by an inverted triangle [▼].

1001.4.12. Only the administration fee is reimbursable for vaccines and immunizations supplied through the Vaccine for Children's (VFC) Program or the Federal Government. Effective October 1, 2023, providers may bill vaccine administration fee for members **21 years and older**. CPT codes for vaccines and their administration are identified via Appendix A which is available on the web portal as the PADL Fee Schedule. Administration fee for chemotherapy drugs is covered (see section 902). (Revised 01/2024)

1001.4.12.1. Any provider enrolled in the outpatient drug program that purchases drugs pursuant to the 340B pricing schedule, (Public Law 102-585, the Veterans Health Care Act of 1992, , (Public Law 102-585, the Veterans Health Care Act of 1992, which is codified as Section 340B of the Public Health Service Act) must bill the claim the acquisition cost of the drug only.

1001.4.12.2. Out-of-state entities who are enrolled with Georgia Medicaid must contact the Department at 340B@dch.ga.gov and provide notification of intent to carve-in or carve-out Georgia Medicaid claims.

1001.4.12.3. Contract pharmacy billing arrangements that are utilized to provide 340B drugs to Medicaid patients are not permitted unless prior arrangements are made with the Department of Community Health

1001.4.13. The maximum allowable payment for any outpatient hospital claim is the total of the DRG base rate plus the hospital specific add-on amount. When the outpatient cost-based settlements are made, claims for outpatient services which were paid at the maximum allowable payment will be excluded from the settlement calculations.

1001.4.14. The Division reimburses enrolled hospitals that offer (either directly or through contract) birthing and parenting classes to Medicaid eligible pregnant women. Services may be billed once per year per member.

1001.4.15. Reimbursement is the lower of billed charges or $70. When the outpatient cost-based settlements are made, claims for outpatient services for birthing and parenting classes will be excluded from the settlement calculations.

1001.4.16. A $3 member co-payment is required on all non-emergency outpatient hospital visits. Pregnant women, members under twenty-one (21) years of age, nursing facility members, community care participants, hospice care participants and persons who have both Medicare and Medicaid coverage are not subject to the co-payment. When the outpatient cost-based settlements are made for hospital services, the co-payment plus Medicaid payment will be compared to the allowable cost to determine the amount of final settlement.

1001.4.17. Co-payments will apply to the groups of members outlined below who were previously exempt from participation in co-payments.

1001.4.17.1. Acute renal dialysis members

1001.4.17.2. Medicare/Medicaid dually eligible members.

1001.4.17.3. Members in waivered services programs.

1001.4.17.4. These groups are required to co-pay beginning with dates of service January 1, 1995, and after, for those services designated as co-pay services.

1001.4.17.5. Maintenance dialysis services for end-stage renal disease are not designated as co-payment services and no co-payment is required for these services.

1001.4.17.6. The professional services of certified registered nurse anesthetists (CRNAs), pediatric nurse practitioners, obstetrical nurse practitioners, family nurse practitioners, and physician's assistant anesthesiologist's assistant (PAAAs) will not be reimbursed through the Medicaid cost report. CRNAs, specified nurse practitioners and PAAAs must enroll in the Medicaid program to receive payment for their services directly.

1001.4.17.7. Governmental facilities and Critical Access eligible hospitals which meet departmental requirements will be eligible for rate payment adjustments. The rate adjustment payments are intended to provide supplemental funding for Medicaid services to these facilities that based on their governmental status, need sufficient funds for their commitments to meet the healthcare needs of all members of their communities.

1001.4.17.8. The rate payment adjustments will be subject to federal upper payment limits. For the appropriate groupings of State governmental facilities, non-State governmental facilities and non-governmental facilities, aggregate rate adjustment payments available without exceeding upper payment limits will be determined by measuring the difference between:

1001.4.17.9. All amounts paid for services provided to Medicaid patients including interim Medicaid claim payments and estimated Medicaid cost report settlement amounts, based on data from cost report worksheet E-3 Part III, and Estimated payment amounts for such services if payments were based on Medicare payment principles. Either cost based or rate payment measures may be used as Medicare payment principles.

1001.4.17.10. Comparisons of amounts paid for services provided to Medicaid patients and estimated payment amounts for such services if payments were based on Medicare payment principles will also be made for each facility to determine facility-specific rate adjustment payments. If an individual facility cannot be paid a portion of its full rate adjustment payment due to a facility-specific charge limit, this rate adjustment amount can be allocated to other facilities that are eligible to receive additional rate adjustment payments without exceeding facility-specific charge limits.

1001.4.17.11. These rate payment adjustments will be made on a monthly, quarterly or annual basis and will be determined in a manner that will not duplicate compensation provided from payments for individual patient claims. UPL payments will be made on an interim basis. These payments will be subject to a retrospective settlement at a future date, when HS&R report data can be prepared based on complete, paid claims data and when audited cost reports are available. This is necessary as a result of the care management organizations participating in the Georgia Families program. The interim payments will reflect reductions in UPL payments to hospitals.

1001.4.17.12. The Medicaid maximum allowable payment is the hospital-specific DRG base rate including capital and graduate medical education add-ons multiplied by 85.6% (eighty-five point six percent)

1001.5. Services Provided by Non-Georgia Hospitals

1001.5.1. Inpatient Services for Enrolled Non-Georgia Hospitals

1001.5.2. Participating (Enrolled) Non-Georgia Hospital will be reimbursed under the same inpatient payment formulas as stated in Section 1001.1.

1001.5.3. Prior to July 1, 2015, enrolled non-Georgia hospitals will receive a hospital specific base rate, capital add-on, cost-to-charge ratio, and a semi-private room rate that is equal to the statewide average rate for the appropriate peer group in which the hospital is classified.

1001.5.4. Effective for dates of admission on or after July 1, 2015, but prior to January 1, 2019, enrolled non-Georgia hospitals will receive the statewide average rate for the appropriate peer group without any adjustments for indirect medical education or Medicaid utilization. In addition, there will be no capital add-on payment as capital is incorporated into the base rate.

1001.5.5. Effective for dates of admission on or after January 1, 2019, enrolled non-Georgia hospitals will be reimbursed utilizing the statewide base rate and the Georgia statewide average of the cost-to-charge ratios.

1001.5.6. Outpatient services provided by enrolled non-Georgia hospitals are reimbursed at a rate of 65% of covered charges not to exceed the Georgia Medicaid maximum allowable payment. The Medicaid maximum allowable payment is the hospital-specific DRG base rate including the capital and graduate medical education add-ons multiplied by eighty five point six percent.

1001.5.7. For out-of-state enrolled hospitals, payments will be made at the statewide average percentage of charges that will be paid to Georgia hospitals being reimbursed at 85.6% of costs. The payment rate for out-of-state enrolled hospitals will not exceed 65% of covered charge

1001.6. Nonparticipating (non-enrolled) Non-Georgia Hospitals

1001.6.1. Effective with dates of admission or service of July 1, 1989, and after, inpatient services provided by non-Georgia hospitals not enrolled in the Georgia Medicaid program are reimbursed according to rates established by the Medicaid program in the state in which the hospital is located for those procedures covered by that state. If the state in which the hospital is located reimburses DRG rates or per diem rates exceeding $999.99, reimbursement by Georgia Medicaid will be at a rate not to exceed 65% of covered charges. For procedures or services not covered by the state Medicaid program in the state in which the hospital is located, reimbursement will be at a rate of 65% of covered charges if the procedures or services are covered by Georgia Medicaid. Georgia Medicaid will reimburse the lesser of the above payment methodologies.

1001.6.2. For certain specialized procedures for which services may not be available at the reimbursement rate as stated above, the Division may approve a percentage of charges rate in excess of 65%.

1001.6.3. Outpatient services provided by non-Georgia hospitals not enrolled in the Georgia Medicaid program will be reimbursed at a rate of 45% of covered charges.

1001.7. Medicare Crossover Claims

1001.7.1. The maximum allowable payment to enrolled Georgia and non-Georgia hospitals for Medicare inpatient and outpatient deductible and coinsurance (crossover claims) will be the applicable per case rate under

the DRG payment system. The maximum allowable payment to non-Georgia hospitals not enrolled in the Georgia Medicaid program for Medicare inpatient and outpatient crossover claims will be the weighted average inpatient per case rate of enrolled non-Georgia hospitals.

1001.7.2. Effective with dates of admission on and after October 9, 1997, the Division will limit payment on outpatient Medicare crossover claims as follows:

1001.7.2.1. Multiply the allowable deductible and coinsurance amount by the hospital- specific percent of charges rate in effect on the date of payment;

1001.7.2.2. Compare the product from (a) to the applicable per case rate under the DRG payment system; and

1001.7.2.3. Reimburse the lower of the two amounts in (b). The Division will reimburse for Medicare coinsurance and deductible obligations as follows:

1001.8. Inpatient hospital services

1001.8.1. The Medicaid maximum allowable payment is the hospital specific DRG base rate including capital and graduate medical education add-ons multiplied by 85.6% (eighty-five-point six percent)

1001.8.2. The Medicare coinsurance and deductible amounts for a claim are compared to the Medicaid allowable payment minus the Medicare payment.

1001.8.3. The actual Medicaid payment will be the lower of the amounts in item (b), less applicable third-party liabilities and patient co-payments.

1001.8.4. The Medicaid maximum allowable payment is the hospital-specific DRG base rate including capital and graduate medical education add-ons multiplied by eighty-five-point six percent

1001.8.5. The Medicare coinsurance and deductible amounts are multiplied by the hospital-specific percent of charges rate for outpatient services.

1001.8.6. The actual Medicaid payment will be the lower of the amounts in items (a) and (b), less applicable third-party liabilities and patient co-payments.

1001.8.7. These changes would apply to services provided to all patients dually eligible for the Medicaid and Medicare programs, including Qualified Medicare Beneficiaries.

1001.9. Third-Party Claims

1001.9.1. Hospital providers must attempt to pursue third party resources prior to filing a Medicaid claim. If a third party does not pay at or in excess of

the applicable Medicaid reimbursement level, a hospital may submit a Medicaid claim and will be paid the applicable reimbursement less any reimbursement received from third party resources. If a third party pays at or in excess of the amount that Medicaid would pay, the hospital should not submit a claim to the Division for payment (see Part I Section 303, Third Party Payments). If a claim is submitted, it will be excluded from paid claims data used to establish per case rates and calculate outpatient settlements. For newborns; once the newborn is showing as an eligible Medicaid member, the provider should submit two separate claims, one for the mother and one for the newborn. The payment from the primary insurance must be reflected on both the mother and baby claim. In the event that the

1001.9.2. primary insurance pays for a partial stay, such as the first 30 days of a continuous hospital stay, the DOS on the claim submitted to Medicaid must be inclusive of the entire hospital stay in which the member is Medicaid eligible, and any prior payment from the primary insurance must be present on the claim. The Coordination of Benefit (COB) payment should be prorated between the mother and newborn claims. The prorated amount is entered in field 54 on the UB-04 form (i.e., the Prior Payments field). A copy of the EOB must be submitted with each claim. The EOB must show the prorated COB Paid Amount and prorated Patient Liability.

1001.10. Hospital Provider Rate (Fee) Add-On

1001.10.1. In order to recognize the Medicaid Hospital Provider Agreement Act of 2010, as amended by the Hospital Medicaid Financing Program Act of 2013:

1001.10.1.1. Effective for inpatient payments with admissions on or after July 1, 2010, through June 30, 2030, the inpatient DRG payment (inclusive of the capital and GME add-ons) will be multiplied by 11.88% to receive an additional add-on payment. This payment will be the Hospital Rate (Fee) Add-on.

1001.10.1.2. Effective for outpatient interim payments made on or after July 1, 2010, through June 30, 2030, the outpatient interim payment will be multiplied by 11.88% to receive an additional add-on payment. This payment will be the Hospital Rate (Fee) Add-on.

1001.10.1.3. Effective for outlier payments with admission dates on or after July 1, 2010, through June 30, 2030, the outlier supplemental payments will be multiplied by 11.88% to receive an additional add-on payment. This payment will be the Hospital Rate (Fee) Add-on; and

1001.10.1.4. The allowable percentage used to determine reimbursable cost in the outpatient settlement calculation

for services on or after July 1, 2010, through June 30, 2030, will be 95.77 percent (calculated as follows: 0.856 x 1.1188) to reflect the increase in payments due to the addition of the hospital provider fee add-on payment.

1001.10.1.5. Critical Access State Owned/State Operated, and Out of State enrolled providers are exempt from the rate adjustment increase.

1001.11. Cost Reporting Requirements

1001.11.1. Each participating (enrolled) hospital must submit a cost report using the appropriate Form HCFA-2552. The Division requires hospitals to list inpatient and outpatient costs and charges separately on Worksheet E-3 Part III or other revised forms as appropriate.

1001.11.2. A hospital with a cost reporting period ending on or after June 27, 1995, must

1001.11.3. furnish its cost report within five months after its fiscal year end. If the report has not been received after this five-month period and a request for extension has not been granted, a written warning will be issued. This warning will indicate if, after an additional month (total six months), the cost report has not been received, a one hundred percent reduction will be imposed on all payments made during the period that the cost report is late.

1001.11.4. These payments will be withheld until an acceptable Medicaid cost report is received. After the cost report is received and is determined to be acceptable, the withheld funds will be released. If the cost report is not received after a total of seven months from a hospital's fiscal year end, the hospital's agreement of participation will be subject to suspension or termination.

1001.11.5. When a hospital undergoes a change of ownership or voluntarily or involuntarily terminates from the Medicare/Medicaid program, the hospital must notify the Division and file a terminating cost report within five (5) months of the date of termination. If a cost report is not received within this period, all Medicaid payments will be withheld until an acceptable cost report is received and accepted by the Division. The Department may sanction a hospital for failure to submit the required cost report as outlined in Section 1002.

1001.11.6. The Division has entered into a "common audit" agreement with Myers and Stauffer, LC. The hospital's Medicaid cost report should be sent to the following address:

John D. Kraft, CPA, CHFP
MYERS AND STAUFFER LLC
10200 Grand Central Avenue, Suite 200
Owings Mills, MD 21117
PH 410. 581. 4643 (Direct)
PH 800. 505. 1698 (Main)
FX 410. 356. 0188
www.mslc.com

1001.11.7. In addition to the cost report, the following listing of items must also be submitted along with the cost report in electronic format if possible.

1001.11.7.1. ECR files of submitted cost report

1001.11.7.2. Working Trial Balance

1001.11.7.3. Expense mapping for Worksheet A

1001.11.7.4. Revenue mapping for Worksheet C

1001.11.7.5. Supporting work papers for A-8 adjustments Supporting work papers for A-6 reclassifications

1001.11.7.6. CMS Form 339

1001.11.7.7. Medicaid charge mapping Worksheets for D-4 and Part V

1001.11.7.8. Audited Financial Statements (if available)

1001.11.7.9. As part of the cost report review process, a hospital must make available to authorized representatives of the Division all medical and fiscal records, including Medicare cost reports and work papers prepared by Medicare fiscal intermediary auditors.

1001.12. Cash Settlements

1001.12.1. As described in Subsection 1001.3 (c), a determination will be made which may show that a hospital's interim payments were less than or more than a retrospectively determined settlement amount.

1001.12.2. Where the determination of reimbursable cost shows that additional payments due to the hospital, the Division will provide payments upon receipt, review and acceptance of an audited Medicaid cost report from the intermediary. Tentative settlement will not be made based on an as filed Medicaid cost report or an audited report which has not been reviewed and accepted by the Division. Tentative settlements will only be made for approved Critical Access Hospitals, based on an as-filed Medicaid cost report or an audited report that has been reviewed and

accepted by the Division.

1001.12.3. Where the determination of reimbursable cost shows that an overpayment has been made to a hospital, the hospital must refund the overpayment as outlined in Section 304. A hospital also must refund the Division the amount by which total Medicaid payments are in excess of total charges for Medicaid patients, as described in Section 1011.

1001.12.4. For those hospitals that do not have a Medicare intermediary, the Department will have the option of using the as-filed cost report as submitted by the provider to compute the outpatient settlement or use the submitted as-filed report audited by the Department's assigned agent.

1001.12.5. If an authoritative unit within the department of Community Health (i.e. Office of the Inspector General, Division of Medical Assistance, etc) makes a determination which impacts a hospital outpatient settlement, the hospital settlement will be amended accordingly. Amendments to the charges and payments that appear in the original hospital outpatient settlement are made based upon the authoritative unit's final determination. Concessions based upon settlement agreements are not considered when making these recalculations.

1001.13. Room Rate Reimbursement

1001.13.1. For those hospitals subject to Subsections 1001.1 and 1001.2, the Division does not reimburse for a private room under any circumstance. The difference in the cost of private and semi-private rooms should be identified and, if appropriate, excluded in the determination of allowable cost for services provided to Medicaid patients.

1001.13.2. For those hospitals subject to Subsections 1001.4, the Division does not reimburse for a private room under any circumstance. This provision will, if applicable, be taken into consideration for determining the appropriate payment for services provided to Medicaid patients.

1001.13.3. Semi-private room rate increases will be collected periodically by the Division through a survey process. The timeframe for collecting the data and incorporating new semi-Private room rate changes into the claims processing system will be specified in the survey instrument. The Division reserves the right to deny any increase that is determined to be inappropriate

1001.14. Hospital-Based Rural Health Clinics

1001.14.1. Reimbursement for Hospital Based Rural Health Clinics will be determined in accordance with the Policies and Procedures for Rural Health Clinic Services manual. Please reference this manual for additional information about this program.

1001.15. Inpatient Co-payments

1001.15.1. A co-payment of $12.50 will be imposed on hospital inpatient services. Refer to Appendix M for the current co-payment policy and requirements.

1001.16. Graduate Medical Education (GME) Supplemental Payment Pool

1001.16.1. Effective January 1, 2019, hospitals with accredited GME programs receive a Graduate Medical Education Supplemental Payment. GME supplemental payments are made in quarterly installments. The annual amount of each GME supplemental payment is determined as follows:

1001.16.2. Determine the number of FTE residents.

1001.16.3. Determine the Medicaid Allocation Ratio (MAR). For facilities with DSH surveys, the Medicaid Allocation Ratio is Total Medicaid Hospital Revenue divided by Net Hospital Revenue. For facilities without DSH surveys, the Medicaid Allocation Ratio is Total Medicaid Inpatient Cost (Medicare Cost Report Worksheet E-3, Part VII, Title XIX, Line 1.00, Column 1.00) divided by Total Inpatient and Outpatient Cost (Medicare Cost Report Worksheet B, Part I, Line 118, Column 24).

1001.16.4. Determine the hospital's base GME funding as follows: $49,000 x (FTE resident count determined in step (a)) x (MAR determined in step (b))

1001.16.5. Hospitals with FTE residents in the residency programs listed below will receive additional funding above the base funding allocation

1001.16.5.1. Family Medicine: $33,000/FTE Resident

1001.16.5.2. OB/GYN: $33,000/FTE Resident

1001.16.5.3. General Pediatrics: $28,500/FTE Resident

1001.16.5.4. Pediatric Specialty Programs: $13,500/FTE Resident

1001.16.5.5. General Surgery: $10,000/FTE Resident

1001.17. Disproportionate Share Hospitals (DSH) Payment

1001.17.1. Eligibility

1001.17.2. Effective for DSH payment adjustments made on or after December 1, 2007, hospitals that are eligible to receive DSH payment adjustments under federal DSH criteria per Social Security Act Section 1923(d) will be eligible to receive an allocation of available DSH funds.

1001.18. Federal Criteria:

1001.18.1. The hospital has a Medicaid inpatient utilization rate of at least 1%; AND

1001.18.2. The hospital has at least two (2) obstetricians who have staff privileges at

the hospital and who have agreed to provide obstetric services to Medicaid recipients. This requirement does not apply to a hospital of which the inpatients are predominately individuals under 18 years of age or to hospitals which did not offer non-emergency obstetric services to the general population as of December 22, 1987. In the case of a hospital located in a rural area, the term "obstetrician" includes any physician with staff privileges at the hospital to perform non-emergency obstetric procedures. For rural hospitals subject to a federal requirement to provide obstetric services, as an alternative to determining whether deliveries are provided at the hospital, the Department will consider the following factors:

1001.19. The hospital must have two or more physicians with staff privileges that are:

1001.19.1. Enrolled in the Medicaid program.

1001.19.2. Credentialed to provide OB services at the hospital in family practice, general practice, or obstetrics; and

1001.19.3. Located within 25 miles of the hospital or in an office in the hospital network or must attest to attendance at the hospital on some routine basis; and

1001.20. The hospital must be able to provide at least one obstetric service that is currently covered by Medicaid and appropriate to be provided in a hospital-based setting.

1001.20.1. For federal DSH criteria, a hospital will be considered a rural hospital if a hospital's county is not in a Metropolitan Statistical Area, as defined by the United States Office of Management and Budget, OR is a county having a population of less than 35,000 according to the United States decennial census; provided, however, that for counties which contain a military base or installation, the military personnel and their dependents living in such county shall be excluded from the total population of that county.

1001.21. Allocation Methodology

1001.21.1. Effective for DSH payment adjustments made on or after December 1, 2007, the following methodology will be used for determining payment amounts:

1001.21.2. For each federal fiscal year, the amount of funds available for DSH payments will be determined based on the state's federal allotment and required state matching contribution.

1001.21.3. Hospitals that meet federal DSH eligibility criteria will be eligible to receive an allocation of available DSH allotment funds.

1001.21.4. The maximum amount of DSH payments (i.e., DSH Limit) for each hospital will be the hospital's loss incurred for services provided to Medicaid and uninsured patients based on federal definitions. Medicaid

costs will be determined by applying per diem costs to Medicaid inpatient days and ratios of cost to charges to Medicaid inpatient and outpatient charges grouped by cost center. The patient day and charge amounts will be determined by Medicaid HS&R reports of paid claims, while per diem costs and ratios of cost to charges will be determined by available 2552 cost reports. Medicaid payments will include interim claim payments, outpatient settlement estimates and non-DSH rate adjustments.

1001.21.5. Uninsured costs will be determined by applying Medicaid inpatient and outpatient cost to charge ratios, from available 2552 cost reports, to charges for uninsured reported on DSH data surveys. The DSH data surveys will also be used to determine amounts received for services provided to uninsured patients. DSH data surveys are conducted annually and subject to desk reviews and onsite reviews of supporting documentation, as warranted.

1001.21.6. The amount of funds available for DSH payments will be allocated among eligible hospitals.

1001.22. Total available DSH funds will be divided into two pools:

1001.22.1. Pool 1 – For FY 2008 DSH payments, Pool 1 will be equivalent to $53,735,261 and used in the calculation of DSH allocations for small, rural hospitals. For DSH payments after FY 2008, Pool 1 would change relative to changes in the state's federal DSH allotment as compared to the FY 2008 state DSH allotment;

1001.22.2. Pool 2 – For FY 2008 DSH payments, Pool 2 will be equivalent to $347,439,065 and used in the calculation of the DSH allocations for all other, eligible hospitals. For DSH payments after FY 2008, Pool 2 would change relative to changes in the state's federal DSH allotment as compared to the FY 2008 state DSH allotment.

1001.22.3. Each hospital's DSH limit is subject to the following DSH limit adjustments for allocation purposes

1001.22.4. For hospitals receiving Upper Payment Limit (UPL) rate adjustments, the allocation basis will be increased by the amount of any intergovernmental transfer or certified public expenditure provided on behalf of the hospital.

1001.22.5. For hospitals receiving rate adjustment payments related to medical education, neonatal services or services provided under contract with the Georgia Department of Human Resources, the allocation basis will be increased by the amount of such rate adjustments.

1001.22.6. The department will utilize the following steps to determine the amount each hospital is eligible to receive in DSH payments.

1001.22.6.1. Step 1: Determine the adjusted DSH limit (as determined in section (III) (B) (5)) as a percentage of total cost for each hospital.

1001.22.6.2. Step 2: For each hospital, multiply the hospital-specific percentage determined in Step 1 by the hospital's adjusted DSH limit. For private hospitals, the outcome of this calculation will be multiplied by the rate of federal matching funds for Medicaid benefit payments.

1001.22.6.3. Step 3: For each hospital, divide the hospital-specific amount identified in Step 2 by the aggregate "step 2" amount derived from all hospitals in the applicable pool, as defined in section (III)(B) (4), which will result in a hospital-specific allocation factor.

1001.22.6.4. Step 4: Apply the hospital's allocation factor calculated in Step 3 to the total amount of DSH funds available in the applicable pool, as defined in section (III)(B)(4). This will result in the hospital's DSH payment. Should the DSH payment amount calculated for a hospital exceed the hospital's DSH limit, as determined in section (III)(B)(3), the excess amount will be redistributed to the remaining hospitals in the applicable allocation pool.

1001.22.6.5. To mitigate significant increases and decreases in hospital specific DSH payments as compared to state fiscal year 2007, the following adjustments will be applied for the allocation of DSH funds:

1001.22.6.6. Maximum DSH allocations for all hospitals are set at 75% of their specific adjusted DSH limits; however, for facilities ineligible for DSH payment adjustments prior to December 1, 2007 but newly eligible under the criteria specified in section A above or facilities who do not receive a DSH payment prior to December 1, 2007, their maximum DSH allocation factor, as calculated in Section (III) (B) (6), step 2, is limited to 10% of the calculated amount.

1001.22.6.6.1. Final DSH payment amounts for small, rural hospitals reflects blending of 75% of state fiscal year 2007 net DSH payments and 25% of the allocation calculation based on the methodology specified in section (III)(B)(6);

1001.22.6.6.2. Final DSH payment amounts for all other hospitals reflects blending of 50% of state fiscal year 2007 net DSH

payments and 50% of the allocation calculation based on the methodology specified in section (III)(B)(6).

1001.22.7. For private hospitals that meet the eligibility requirements of Section (III) (A) and meet Social Security Act Section 1923(b) criteria, allocations payments will be made at 100 % of calculated allocation amounts as determined by steps 1 through 7 of Section (III) (B). For private hospitals that meet the eligibility requirements of Section (III) (A) but do not meet Social Security Act Section 1923(b) criteria, allocation payments will be made at 100% of calculated allocation amounts as determined by steps 1 through 7 of Section (III) (B).

1001.22.8. The state share of DSH payment amounts for state governmental and non-state governmental hospitals will come from intergovernmental transfers made on behalf of or by the hospital.

1001.22.9. For allocation of 2008 DSH funds, provider eligibility and DSH limit calculations will be based on information available from hospital fiscal years ending in 2005; for hospitals not in operation during 2005, data for 2006 may be used. For allocation of DSH funds after 2008, eligibility and DSH limit calculations will be based on the most recent year for which comparable data would be available.

1001.22.10. Effective for DSH payment adjustments made on or after July 1, 2024, the following methodology will be used for determining payment amounts n For allocation of 2008 DSH funds, provider eligibility and DSH limit calculations will be based on information available from hospital fiscal years ending in 2005; for hospitals not in operation during 2005, data for 2006 may be used. For allocation of DSH funds after 2008, eligibility and DSH limit calculations will be based on the most recent year for which comparable data would be available.al DSH payment amounts for small, rural hospitals reflects blending of 75% of state fiscal year 2007 net DSH payments and 25% of the allocation calculation based on the methodology specified in section (III)(B)(6);

1001.22.11. Final DSH payment amounts for all other hospitals reflects blending of 50% of state fiscal year 2007 net DSH payments and 50% of the allocation calculation based on the methodology specified in section (III)(B)(6).

1001.22.12. For private hospitals that meet the eligibility requirements of Section (III) (A) and meet Social Security Act Section 1923(b) criteria, allocations payments will be made at 100 % of calculated allocation amounts as determined by steps 1 through 7 of Section (III) (B). For private hospitals that meet the eligibility requirements of Section (III) (A) but do not meet Social Security Act Section 1923(b) criteria,

1001.22.13. The state share of DSH payment amounts for state governmental and non-state governmental hospitals will come from intergovernmental transfers made on behalf of or by the hospital.

1001.22.14. For allocation of 2008 DSH funds, provider eligibility and DSH limit calculations will be based on information available from hospital fiscal years ending in 2005; for hospitals not in operation during 2005, data for 2006 may be used. For allocation of DSH funds after 2008, eligibility and DSH limit calculations will be based on the most recent year for which comparable data would be available

1001.22.15. Effective for DSH payment adjustments made on or after July 1, 2024, the following methodology will be used for determining payment amounts

1001.22.15.1. For each federal fiscal year, the amount of funds available for DSH payments will be determined based on the state's Medicaid DSH federal allotment and required state matching contribution.

1001.22.15.2. Hospitals that meet federal DSH eligibility criteria will be eligible to receive an allocation of available DSH Payments.

1001.22.15.3. The maximum amount of DSH Payments (i.e., DSH Limit) for each hospital will be the hospital's loss incurred for services provided to Medicaid patients, for whom Medicaid is the primary payor, and uninsured patients who have no health insurance or other source of third-party coverage. Medicaid patients will be defined as patients enrolled in either in-state or out-of-state Medicaid fee-for-service or in-state or out-of-state Medicaid Managed Care Organization (MCO) as their primary insurance. Medicaid costs will be determined by applying total per diem costs to Medicaid covered inpatient days and total ratios of cost to charges to Medicaid inpatient and outpatient charges grouped by cost center. The patient day and charge amounts will be determined by Medicaid and Medicaid MCO HS&R reports of paid claims or internal hospital records, while per diem costs and ratios of cost to charges will be determined by available 2552 cost reports. Medicaid payments will include actual claim payments related to Medicaid days and charges, from Medicaid, and Medicaid MCOs, patient payments, and non-claim-based Medicaid, and Medicaid MCO, and payments related to inpatient and outpatient hospital services, Medicaid outpatient settlement estimates and non-DSH rate adjustments. Uninsured costs will be determined by applying the uninsured days and charges reported on the DSH data survey to the same per diems and cost to

charge ratios used to calculate Medicaid costs. Uninsured payments will include patient payments received on uninsured services accounted for on a cash basis. The DSH data surveys will also be used to determine amounts received for services provided to uninsured patients. DSH data surveys are conducted annually and subject to desk reviews and onsite reviews of supporting documentation, as warranted.

1001.22.16. Each hospital's DSH limit is subject to the following DSH limit adjustments for allocation purposes:

1001.22.16.1. For hospitals receiving Upper Payment Limit (UPL) rate adjustments, the allocation basis will be increased by the amount of any intergovernmental transfer or certified public expenditure on behalf of the hospital.

1001.22.16.2. For hospitals receiving rate adjustment payments related to medical education, neonatal services or services provided under contract with the Georgia Department of Human Services, the allocation basis will be increased by the amount of such rate adjustments.

1001.22.16.3. For hospitals receiving direct payment program (DPP) rate adjustments, the allocation basis will be increased by the amount of any intergovernmental transfer or certified public expenditure on behalf of the hospital, effective for DSH payment adjustments made on or after December 1, 2021.

1001.22.17. The amount of funds available for DSH Payments will be allocated between two pools of eligible hospitals. If hospital directed payments from Care Management Organizations (CMO) are more than 10 percent of all provider payments from CMOs, then Methodology A will be followed to determine the Allocation Pools. If hospital payments from CMOs are less than or equal to 10 percent of all provider payments from CMOs, then Methodology B will be followed.

1001.22.18. METHODOLOGY A

1001.22.18.1. Pool 1 will be equivalent to that amount necessary to cover 100 percent of the DSH Limit for eligible critical access hospitals and rural hospitals with less than 100 beds. Pool 2 will be equivalent to the remaining DSH Payments and used in the allocation to all other eligible hospitals.

1001.22.18.2. Maximum DSH allocations for critical access hospitals, rural hospitals with less than 100 beds, and state-owned and operated acute care hospitals are set at 100% of their DSH limit. All other hospitals are set at 75% of their

Adjusted DSH Limit. Eligible hospitals in Pool 2 that are classified as a Rural Referral Center (RRC) by the Centers for Medicare and Medicaid Services (CMS) that are not eligible to participate in the Advancing Innovation to Deliver Equity (AIDE) or Strengthening The Reinvestment Of a Necessary-workforce in Georgia (STRONG) state directed payment programs will receive an allocation no less than 25% of their DSH Limit. No hospital will receive more than 100% of their DSH Limit.

1001.22.19. METHODOLOGY B

1001.22.19.1. Pool I will be equivalent to 13.4% of available DSH funds and used in the calculation of DSH allocations for eligible critical access hospitals and rural hospitals with less than 100 beds. Pool 2 will be equivalent to 86.6% of available DSH funds and used in the calculation of the DSH allocations for all other, eligible hospitals.

1001.22.19.2. The maximum DSH allocation for all hospitals is set at 75% of the Adjusted DSH Limit.

1001.22.20. The department will utilize the following steps to determine the amount each hospital is eligible to receive in DSH payments when Methodology A is followed.

1001.22.20.1. Step 1: Calculate 25% of the DSH limit (as determined in section (III)(B)(3)) for hospitals classified as Rural Referral Center (RRC).

1001.22.20.2. Step 2: Reduce the adjusted DSH limit (as determined in section (III)(B)(4)) by the amount calculated in Step 1.

1001.22.20.3. Step 3: Determine the adjusted DSH limit as calculated in Step 2 as a percentage of total cost for each hospital.

1001.22.20.4. Step 4: For each hospital, multiply the hospital-specific percentage determined in Step 3 by the hospital's adjusted DSH limit as calculated in Step 2. For private hospitals, the outcome of this calculation will be multiplied by the rate of federal matching funds for Medicaid benefit payments.

1001.22.20.5. Step 5: For each hospital, divide the hospital-specific amount identified in Step 4 by the aggregate "step 4" amount derived from all hospitals in the applicable pool, as defined in section (III)(B)(5), which will result in a hospital-specific allocation factor.

1001.22.20.6. Step 6: Apply the hospital's allocation factor calculated

in Step 5 to the total amount of DSH funds available in the applicable pool, as defined in section (III)(B)(5). DSH funds available in Pool 2 will be reduced by the amount calculated in Step 1. This will result in the hospital's DSH payment for all hospitals except RRCs. For RRCs the amount calculated in Step 1 will be added to the DSH payment calculated based on the hospital's allocation factor. Should the DSH payment amount calculated for a hospital exceed the hospital's DSH limit, as determined in section (III)(B)(3), the excess amount will be redistributed to the remaining hospita1s in the applicable allocation pool.

1001.22.21. The department will utilize the following steps to determine the amount each hospital is eligible to receive in DSH payments when Methodology B is followed.

1001.22.21.1. Step 1: Determine the adjusted DSH limit (as determined in section (III)(B)(4)) as a percentage of total cost for each hospital.

1001.22.21.2. Step 2: For each hospital, multiply the hospital-specific percentage determined in Step 1 by the hospital's adjusted DSH limit. For private hospitals, the outcome of this calculation will be multiplied by the rate of federal matching funds for Medicaid benefit payments.

1001.22.21.3. Step 3: For each hospital, divide the hospital-specific amount identified in Step 2 by the aggregate "step 2" amount derived from all hospitals in the applicable pool, as defined in section (III)(B)(5), which will result in a hospital-specific allocation factor.

1001.22.21.4. Step 4: Apply the hospital's allocation factor calculated in Step 3 to the total amount of DSH funds available in the applicable pool, as defined in section (III)(B)(5). This will result in the hospital's DSH payment. Should the DSH payment amount calculated for a hospital exceed the hospital's DSH limit, as determined in section (III)(B)(3), the excess amount will be redistributed to the remaining hospita1s in the applicable allocation pool.

1001.22.22. For allocation of DSH Payments, eligibility and DSH Limit calculations will be based on information available from hospital fiscal years ended during the most recent calendar year for which data is available.

1001.22.23. Audit of Disproportionate Share Payments:

1001.22.23.1. As required by Section 1923(j) of the Social Security Act related to auditing and reporting of disproportionate share hospital payments, the Division of Medical

Assistance will implement procedures to comply with the Disproportionate Share Hospital Payments final rule issued in the December 19, 2008, Federal Register, with effective date of January 19, 2009, to ensure that the hospital specific DSH limits have not been exceeded.

1001.22.23.2. Any funds recouped as a result of audits or other corrections shall be redistributed to other eligible hospitals within the state, provided each hospital remains below their hospital specific DSH limit. Funds shall be redistributed to hospitals within the pools, as identified in (III)(B)(4) above, for which funds were recouped. The recouped funds within each pool shall be redistributed to the governmental facilities that are still below their hospital specific DSH limit. The funds shall be allocated to those hospitals based on their allocation factor that was derived in (III)(B)(6)(b) above. If the redistribution causes a hospital to exceed their hospital specific DSH limit those excess funds will be redistributed using the same methodology until all funds are expended.

1001.23. Adjustments to Rate (Georgia Hospitals Only)

1001.23.1. The Division will issue survey forms for completion by hospitals to document any changes for any additional building and fixed equipment costs associated with a Certificate of Need approved capital improvement since the hospital's base year. Surveys received after the due date will not be used to increase a hospital's capital add-on amount.

1001.23.2. Effective with per case rates calculated for dates of admission on and after July 1, 1993, costs related to the professional services of certified registered nurse anesthetists (CRNAs), pediatric nurse practitioners, obstetrical nurse practitioners and family nurse practitioners will be excluded from base year costs prior to calculating the rates. Effective July 1, 1993, CRNAs and specified nurse practitioners must enroll in the Medicaid program to receive payment for their services directly.

1001.23.3. The Division reviews a hospital's cost report to verify various rate components. The reimbursement methodology assumes that services in the base period will continue; therefore, audited cost reports are reviewed to determine that all services and facilities included in the base period will continue in the reimbursement year. Additionally, all surveyed items are subject to verification. As appropriate, the Division's findings on such items may cause a hospital's rate of payment to be adjusted.

1001.23.4. Subject to the availability of funds, hospitals designated by the Georgia Department of Human Resources as Regional Perinatal Centers will be eligible for rate payment adjustments. These hospitals provide intensive care to high-risk neonatal patients and incur significant unreimbursed

costs associated with the provision of such services. The payment adjustments will be reasonably related to cost, volume or proportion of services provided to Medicaid patients. These rate payment adjustments will be made on a monthly or quarterly basis in lump-sum amounts.

1001.23.5. Subject to the availability of funds, hospitals will be eligible for rate payment adjustments for providing the following program services for the Georgia Department of Human Resources: AIDS Clinic, Poison Control Center, Genetics/Sickle Cell Screening and Maternal and Infant Health Services. Hospitals can incur significant unreimbursed costs associated with the provision of such services. The payment adjustment will be reasonably related to cost, volume or proportion of services provided to Medicaid patients. These rate payment adjustments will be made on a monthly or quarterly basis in lump-sum amounts.

1001.23.6. Subject to the availability of funds, hospitals participating in the residency grant programs administered by the Georgia Board for Physician Workforce will be eligible for rate payment adjustments. These hospitals operate post-graduate training programs for physicians preparing to enter family practice and other medical specialties and incur significant graduate medical education costs associated with the operation of such training programs. The payment adjustment will be reasonably related to cost, volume or proportion of services provided to Medicaid patients. These rate payment adjustments will be made on a monthly or quarterly basis in lump-sum amounts.

1001.23.7. Subject to the availability of funds, any State owned or operated teaching hospital will be eligible for an inpatient rate payment adjustment. Such a hospital can incur significant unreimbursed medical education and other operating costs. The payment adjustment will be the difference between the hospital's Medicaid per case reimbursement rate, exclusive of any DSH payment adjustments, and the hospital's calculated per case rate using Medicare principles of reimbursement. The adjustment results in reimbursement of reasonable cost of inpatient hospital services provided to Medicaid patients and will be made on a monthly, quarterly or annual basis in lump-sum amounts.

1001.23.8. For payments on or after January 1, 2001, State government-owned or operated facilities, non-State government owned or operated facilities and Critical Access eligible hospitals which meet departmental requirements will be eligible for rate payment adjustments, subject to the availability of funds. A facility's status as government owned or operated will be based on its ability to make direct or indirect intergovernmental transfer payments to the State. The rate payment adjustments will be subject to federal upper payment limits and will be based on amounts that would be paid for services under Medicare payment principles. These rate payment adjustments will be made on a monthly, quarterly or annual basis in a manner that will not duplicate compensation provided from payments for individual patient claims.

1001.24. Upper Payment Limit Rate Adjustments

1001.24.1. For payments made for services provided on or after July 1, 2005, the following types of hospitals will be eligible for rate payment adjustments:

1001.24.1.1. State government-owned or operated facilities.

1001.24.1.2. Non-State government owned or operated facilities.

1001.24.1.3. Federally defined Critical Access hospitals.

1001.24.1.4. Hospitals designated by the Georgia Department of Human Resources as Regional Perinatal Centers.

1001.24.1.5. Hospitals providing the following program services for the Georgia Department of Human Resources: AIDS Clinic, Poison Control Center, Genetics/Sickle Cell Screening and Maternal and Infant Health Services; and

1001.24.1.6. Hospitals participating in selected residency grant programs administered by the Georgia Board for Physician Workforce.

1001.24.2. The rate adjustment payments are intended to provide supplemental funding for Medicaid services to these facilities that need sufficient funds for their commitments to meet the healthcare needs of all members of their communities and to ensure that these facilities receive financial support for their participation in programs vital to the state's healthcare infrastructure.

1001.24.3. The rate payment adjustments will be subject to federal upper payment limits. For the appropriate groupings of State government-owned or operated facilities, non-State government owned or operated facilities and all other facilities, aggregate rate adjustment payments available without exceeding upper payment limits will be determined by measuring the difference between:

1001.24.3.1. Amounts paid for services provided to Medicaid patients and

1001.24.3.2. Estimated payment amounts for such services if payments were based on Medicare payment principles. Either cost based or rate payment measures may be used as Medicare payment principles.

1001.24.4. Comparisons of amounts paid for services provided to Medicaid patients and estimated payment amounts for such services if payments were based on Medicare payment principles will also be made for each facility to determine facility-specific rate adjustment payments. If an individual facility cannot be paid a portion of its full rate adjustment payment due to a payment due to a facility-specific charge limit, this rate adjustment amount can be allocated to other facilities that are eligible to receive additional rate adjustment payments without exceeding facility-specific charge limits. These rate payment adjustments will be made on a monthly, quarterly or annual basis and will be determined in a manner that will not duplicate compensation provided from payments for individual patient claims.

1001.24.5. UPL payments will be made on an interim basis. These payments will be subject to a retrospective settlement at a future date, when HS&R report data can be prepared based on complete, paid claims data and when audited cost reports are available. This is necessary as a result of the care management organizations participating in the Georgia Families program. The interim payments will reflect reductions in UPL payments to hospitals.

1001.24.6. A sample of how a rate adjustment payment is calculated is presented as follows:

line	Facility Name	Comments	XYZ Hospital
1	base period report period beginning date		9/1/xxxx
2	base period report period ending date		8/31/xxxx+1
3	HS&R processing date for Medicaid data		9/6/xxxx+2
4	adjustment factor (if period not equal to 1 year)		1.00000
	Medicaid inpatient claims paid at amount > 0:		
6	covered charges	From HS&R report	3,949,268
7	payments	From HS&R report	1,828,506
8	annual covered charges	From HS&R report	3,949,268
9	annual payments	From HS&R report	1,828,506
10	Cost of Medicaid services	worksheets C, Part 1 and D-1, Part II	1,661,931
11	Covered charges for Medicaid services	worksheets C, Part 1 and D-1, Part II	3,725,000
12	inpatient CCR	Line 10 / line 11	0.446156
13	annual cost of services	Line 4 x line 6 x line 12	1,761,990

	adjustment factors		
14	claim completion	For interim calculation only	1.029799
15	inflation	For interim calculation only	1.073852

1001.24.7. Settlement

1001.24.8. For inpatient payments occurring during each calendar year, a comparison of a hospital's total Medicaid payments and its total charges will be made after completion of the calendar year. A refund will be due from the hospital for any amount by which total Medicaid payments are in excess of a hospital's total charges for Medicaid patients. For enrolled non-Georgia hospitals, the comparison will be made beginning with payments and charges for admissions occurring during calendar year 1990 and after. Total Medicaid payments included in the comparison shall not include payment adjustments made to disproportionate share hospitals, but will include inpatient co-payment amounts that the hospitals should collect from members. There will be no other cash settlements except as noted in Sections 1001.3, and 1006.

1001.24.9. Effective December 1, 1999, this provision will not affect critical access eligible

1001.24.10. Reports

1001.24.10.1. An amended audited cost report will not be recognized by the Department for the purpose of adjusting reimbursable costs (outpatient) unless it is received within three (3) years after completion of the initial audit of the cost report. (For definition purposes, this date is established as the date of initial notification of audit completion to the provider.) The Division's paid claims data (Hospital Statistical and Reimbursement Report) used with the audited cost report will be used with the amended audited cost report to calculate the revised outpatient settlement. Amended audited cost reports will not be used to adjust DRG rates and components.

1001.24.11. Transfer Cases

1001.24.11.1. If a patient is transferred from one hospital for admission to a second hospital for medically appropriate cause and the claims for both hospitals fall into the same DRG, both hospitals will be eligible for payment. If the claims would otherwise be paid under the DRG rate methodology, each hospital's payment will be the lesser of the DRG rate or a rate calculated by the CCR methodology. If a patient is transferred from one hospital for admission to a second hospital for medically appropriate cause and the claims for both hospitals fall into different DRGs, each hospital's payment will be the amount that a non-transfer claim would be paid. All transfers are subject to either precertification or retrospective review.

1001.24.11.2. For transfers back to the originating hospital, the originating facility receiving the back-transfer for lower level of care is eligible to receive reimbursement for both confinements. To ensure accurate claim processing, the originating facility must request an adjustment to the precertification date span and adjust any previously paid claim for the initial hospitalization; and combine and resubmit as a single claim for both date spans. The dates of service spent in the alternate facility are reflected as leave of absence days.

Chapter 1100: Utilization Control

1101. General

1101.1. The Utilization Review Program of the Georgia Division of Medical Assistance is designed to promote both quality and utilization control. The requirements of the program apply to all hospitals that have executed a Statement of Participation, thereby contracting to participate in the Georgia Medicaid Program (Title XIX of the Social Security Act). The requirements further apply to all hospital services provided to individuals who are Georgia Medicaid members.

1101.2. Program Objectives

1101.2.1. To ensure that Medicaid members receive care in the setting determined by current professional standards to be the most appropriate and cost effective for the treatment of the individual's medical condition;

1101.2.2. To ensure that Medicaid members receive those services determined to be medically necessary and by current professional standards to appropriately treat the individual's medical condition;

1101.2.3. To ensure that Medicaid members receive necessary services that meet currently accepted professional quality standards of medical practices;

1101.2.4. To ensure that Medicaid members are not subject to over utilization or underutilization of medical services;

1101.2.5. To ensure that providers participating in the Georgia Medicaid program provide appropriate, cost effective quality services; and

1101.2.6. To ensure that hospitals participating in the Georgia Medicaid program monitor patient care by establishing and administering effective utilization Review Plans.

1101.3. Activities and Services Encompassed by the Program

1101.3.1. The Utilization Review Program of the Georgia Division of Medical Assistance meets the requirements of Part 456 - Utilization Controls of the Code of Federal Regulations as revised October 1, 1986, which are based on Subpart C Utilization Control Hospitals of the Social Security Act 1903(g)(1)(a). 1903(g) (1) (b), 1902(a) (30), 1903(g) (1) (c) and 1903(i) (4).

1101.3.2. The program includes, but is not limited to:

1101.3.2.1. Certification of need for acute care;

1101.3.2.2. Plan of treatment;

1101.3.2.3. Review of need for continued stay;

1101.3.2.4. Discharge planning and coordination;

1101.3.2.5. Oversight of hospital utilization review committee monitoring activities;

1101.3.2.6. Data gathering;

1101.3.2.7. post payment review and assessment; including length of stay and ancillary service review; and

1101.3.2.8. Referral for educational services.

1101.3.3. Review Functions for Authorized Hospitals

1101.3.3.1. Hospitals must meet the federal and state requirements for control of utilization of inpatient services including:

1101.3.3.1.1. Certification and recertification of the need for acute care;

1101.3.3.1.2. Treatment pursuant to a plan of care; and

1101.3.3.1.3. Operation of utilization review plans.

1101.3.4. The admitting physician must certify that inpatient services are medically necessary. The certification must be made at the time of admission, or in the case of pending eligibility, before Medicaid payment is authorized. This requirement can be met by a comprehensive note in the medical record at the time of admission.

1101.3.5. The attending physician, or authorized representative, must recertify that inpatient services continue to be medically necessary and appropriate to the acute care setting. This requirement can be met by a comprehensive progress note in the medical record at least every two days.

1101.3.6. Before admission to a hospital for elective admissions, within twenty-four for emergency admissions or, for pending Medicaid-eligible' s, a written plan for each member must be completed prior to authorization for payment. The must include:

1101.3.6.1. Diagnoses, symptoms/complaints indicating the need for admission;

1101.3.6.2. A description of the functional level of the individual.

1101.3.6.3. Medication or treatment orders.

1101.3.6.4. Diet and activity level.

1101.3.6.5. Plans for hospital course; and

1101.3.6.6. Plans for discharge. This plan of care should be a multi-discipline plan of care but at a minimum must include

the attending physician and the nursing staff.

1101.3.7. A current, signed Utilization Review Plan must be submitted every two years. This plan must be approved by the hospital's current governing body (including the UR Committee Chairman and the Hospital Administrator) and must contain the requirements set forth in the Code of Federal Regulations 456, Subpart C, and Utilization Control: Hospitals and Subpart H, Hospital Review Plans.

1101.3.8. The hospital must follow the protocols set forth in the plan submitted to and approved by the Division of Medical Assistance when performing a review of Medicaid (Title XIX) members.

1101.3.9. Determinations regarding medical necessity for treatment rendered in an acute care setting are to be made by the Utilization Committees and DMA'S contracted peer review agent. The Division reserves the right to retrospectively review the appropriateness of all committee determinations.

1101.3.10. Submission of the Utilization Review Plan

1101.3.10.1. The Utilization Review Plan and the name, title and telephone extension of the individual who is to serve as the contact for the hospital should be submitted to:

1101.3.10.2. Attaching your electronic (scanned) UM Plan utilizing the Case Number provided via www.mmis.georgia.gov ; PA/Provider Workspace.

1101.3.11. Program Functions

1101.3.11.1. The Utilization Review Program has four principal functions: admission and continued stay review, data gathering, retrospective assessment and discharge coordination.

1101.3.12. Admission and Continued Stay Review

1101.3.12.1. Based on professionally generated criteria, the admissions to and services provided in an acute care setting will be reviewed by the Division or authorized contract staff as well as the UR Committee of the Medicaid participating hospital. The maximum number of days that will be approved between the continued stay reviews must be included in the Utilization Review Plan. All participating hospital reviews must conform with substantial compliance to procedures outlined in the hospital's utilization review plan. At a minimum, an entry must be made in the utilization review notes on the review date, indicate the name and title of the reviewer

and be signed by the reviewer on the review date. This entry must also indicate if he inpatient review criteria was Met or Not Met for medical necessity of the hospital stay. Failure to document the review criteria (Met/ Not Met) in the utilization review notes may result in the denial for reimbursement of your claim. The UR notes will be reviewed for adherence to the UR Plan.

1101.3.12.2. In the event that electronic entries are made in the utilization review notes, the entry must indicate a unique identifier with the name and title of the reviewer on file as well as the date the entry was made (on the review date) or utilizes an affidavit approved by Medicaid if special conditions are involved.

1101.3.13. Data Gathering

1101.3.13.1. Information related to hospital practices, professional performance and patient outcomes will be collected through the billing process and utilization review reporting mechanism and integrated through the Division's computerized profile system.

1101.3.14. Retrospective Assessment

1101.3.14.1. Focused studies will be performed on defined problem areas. These areas will be identified through the on-going analyses of reports generated through the utilization review reporting system.

1101.3.15. Discharge Coordination

1101.3.15.1. Through coordination with the Division, the hospital will work to identify alternative services and to maintain continuity of care when transferring members from an acute care setting to a nursing care facility or home care setting.

1101.3.16. Notice of Adverse Decisions (Termination of Benefits -TOB)

1101.3.16.1. Each hospital is required to notify the Division of all adverse decisions made by its Utilization Review Committee regarding a member's need for admission or continued stay. Members must receive WRITTEN notification of these decisions within two working days after the date of the adverse decision. The termination letter used by the hospital to inform the members of adverse decisions should contain the information in the draft shown at the end of this chapter. Copies of all adverse determinations are to be sent to:

Alliant Health Solutions
Medical Review
P.O. Box 105330
Atlanta, GA 30348
Fax # 678-527-3066

1101.3.17. Admissions Requiring Review

1101.3.17.1. Federal regulations require that all Medicaid admissions be screened through the Utilization Review program. The Division permits focused review, provided the approach for this review is defined in the Utilization Review plan and the "focused out" categories are periodically monitored to assure continued compliance with utilization and quality standards.

1101.3.18. Review of Pending Eligibility

1101.3.18.1. Utilization review is required when it is known that a patient's Medicaid eligibility is pending. The hospital will be deemed to have knowledge of pending eligibility if the patient can be included in an eligibility group identified in Chapter 100 of this manual.

1101.3.19. Retrospective Reviews

1101.3.19.1. Retrospective reviews by the hospital are only allowed on those members who are admitted and discharged prior to the routine admission review (such as weekends, holidays). All medical claims are subject to retrospective review by the Division.

1101.4. Utilization Review Coverage Issues

1101.4.1. Compliance with Policies

1101.4.1.1. The hospital Utilization Review Committee is not authorized to approve admissions, services, or continued stays, which are not in compliance with policies contained in the Hospital Manual.

1101.4.2. Continued Stay

1101.4.2.1. Continued stay in an acute care hospital is covered only when the acute care setting is appropriate to the specific medical needs of the member with the exception of the grace period and administrative days.

1101.4.3. Grace Period

1101.4.3.1. The grace period is the length of time a member remains in the hospital after the issuance of a denial letter. Each hospital will be reimbursed for a grace period of one day for medically necessary inpatient admissions.

1101.4.4. Administrative Days

1101.4.4.1. Administrative days are those days a member remains in the acute care setting awaiting placement in a nursing facility due to the unavailability of a bed. Administrative days may occur in one of two situations:

1101.4.4.1.1. Following the physician's written order for discharge on the chart;

1101.4.4.1.2. When a denial letter is given prior to the physician's written order for discharge. The allowed reimbursable number of administrative days is three days or 72 hours for either of the above-defined situations. Additional Days a member remains in the Acute Care setting awaiting placement in a Nursing Facility are not Reimbursable.

1101.4.5. Leaves of Absence:

1101.4.5.1. Leaves of absence are non-covered services in the Georgia Medicaid program. Our claims processing system will accommodate leaves of absence if these services are shown on the UB-04 with the non-covered revenue code listed below:

1101.4.6. 180 General classification

1101.4.6.1. Providers are not to go through the actual administrative process of discharging a member when he begins a leave of absence nor are they to complete new admission forms when he returns. The number of leave days and appropriate services should be recorded on the provider's Medicaid Log and shown on the UB-04 as non-covered services using the non-covered revenue code cited above. The date of service field on the UB-04 is to include the period from the date of admission through the date of discharge. The leave of absence days and services, if any, must be itemized in the body of the claim form with a non-covered revenue code and the date of each day of the leave of absence.

1101.4.7. Present on Admission (POA) Indicators, Hospital Acquired Conditions (HAC) and Never Events

1101.4.7.1. The POA indicator identifies conditions present at the time the order for an inpatient admission occurs, including conditions that develop during an outpatient encounter such as an emergency department visit, observation, or outpatient surgery. A POA indicator is assigned to each principal and secondary diagnosis code according to the ICD-10-CM Official Guidelines for Coding and Reporting. There are five (5) different POA Indicators: Y, N, U, W, and 1.

1101.4.7.2. HAC's diagnoses determined by Medicare to be reasonably preventable. The conditions targeted by the Centers for Medicare and Medicaid Services (CMS) are high in cost, high in volume, or both. Medicare selected specific reasonably preventable conditions that have the potential to increase reimbursement under MS- DRGs.

1101.4.7.3. Effective November 1, 2010, and in accordance with Section 5001(c) of Deficit Reduction Act of 2005, the Department will no longer provide reimbursement to hospitals for POA/HAC events, identified as non-payable by Medicare on FFS Medicaid and crossover claims. Effective October 1, 2015, CMS released under ICD-10 implementation an additional 30,000 new diagnosis codes as HACs. Participating hospitals are required to begin submitting their UB-04 claims with the proper POA indicator on all diagnosis. Inpatient claims that are submitted for payment that do not contain the proper reporting of the POA indicator will be denied. The HAC diagnoses will be disallowed, and the claim will be reassigned to a lower DRG for reimbursement.

1101.4.7.4. Effective with the implementation of 5010, Inpatient Prospective Payment System (IPPS) hospitals shall no longer report the POA indicator of "1". ICD-10-CM diagnosis codes that are exempt from the POA reporting requirement shall be left blank instead of populating a "1".

1101.4.7.5. A list of the 28 Never Events is available in Appendix T. DCH's mechanism to review Never Events will be a retrospective review process.

1101.4.7.6. Effective July 1, 2012, the Centers for Medicare and Medicaid Services (CMS) directs states to implement its final rule outlined in 42 CFR 447.26 regarding PROVIDER PREVENTABLE CONDITIONS (PPCs) and HOSPITAL ACQUIRED CONDITIONS (HACs).

These two components listed in the final CMS rule applies to ALL hospital settings and other non-inpatient health care settings. GA Medicaid will not reimburse inpatient facilities (if applicable) nor any enrolled Medicaid providers with any HACs and/or PPCs identified through the claims adjudication and/or medical records review process in accordance to the CMS' directive.

1101.4.7.7. Participating hospitals are required to begin submitting their UB-04 claims with the proper POA indicator on all diagnosis. Inpatient claims that are submitted for payment that do not contain the proper reporting of the POA indicator will be denied. Claims submitted with HAC diagnoses and without supporting medical records attachments—the HAC diagnoses will be disallowed, and the claim may be reassigned to a lower DRG for reimbursement.

1101.4.7.8. The Present on Admission (POA) Indicator requirement and Hospital-Acquired Conditions (HAC) payment provision only apply to Inpatient Prospective Payment Systems (IPPS) Hospitals. At this time, the following hospitals are EXEMPT from the POA Indicator and HAC per CMS:

1101.4.7.8.1. Critical Access Hospitals (CAHs)

1101.4.7.8.2. Long-term Care Hospitals (LTCHs

1101.4.7.8.3. Maryland Waiver Hospitals

1101.4.7.8.4. Cancer Hospitals

1101.4.7.8.5. Children's Inpatient Facilities

1101.4.7.8.6. Rural Health Clinics

1101.4.7.8.7. Federally Qualified Health Centers

1101.4.7.8.8. Inpatient Psychiatric Hospitals

1101.4.7.8.9. Inpatient Rehabilitation Facilities

1101.4.7.8.10. Veterans Administration/Depart of Defense Hospitals

1101.4.8. General Reporting Requirements for POA

1101.4.8.1. POA indicator reporting is mandatory for all claims involving inpatient admissions to general acute care

hospitals or other facilities

1101.4.8.2. POA is defined as present at the time the order for inpatient admission occurs. Conditions that develop during an outpatient encounter, including emergency department, observation, or outpatient surgery, are considered POA..

1101.4.8.3. A POA Indicator (listed below) must be assigned to each principal and secondary diagnosis.

1101.4.8.4. Issues related to inconsistent, missing, conflicting, or unclear documentation must be resolved by the provider.

1101.4.8.5. If a condition would not be coded and reported based on Uniform Hospital Discharge Data Set definitions and current official coding guidelines, then the POA Indicator would not be reported.

1101.4.9. POA Indicators and Definitions and Claim Dispositions

1102. Co	**Reason for Code**	**Claim Disposition**
Y	Diagnosis was present at time of inpatient admission.	Process & Pay
N	Diagnosis was not present at time of inpatient	(Pend for clinical review) Pay at lower DRG
U	Documentation insufficient to determine if the condition was present at the time of	(Pend for clinical review) Pay at lower DRG
W	Clinically undetermined. Provider unable to clinically determine whether the	(Pend for clinical review) Pay at lower DRG

1 Unreported/Not used. Exempt from POA reporting. This code is equivalent to a blank on the UB-04, however; it was determined that blanks are undesirable when submitting this data via the version 4010A1. CMS will not pay the CC/MCC DRG for those selected HACs that are coded as "1" for the POA Indicator. The "1" POA Indicator should not be applied to any codes on the HAC list. Effective with the implementation of 5010, Inpatient Prospective Payment System (IPPS) hospitals shall no longer report the POA indicator of 1.ICD-10-CM diagnosis codes that are exempt from reporting POA shall be left blank instead of populating a 1.	Deny **DO NOT USE**

NOTE: For UB-04 claims submitted with multiple HACs and multiple POAs, the HAC diagnosis codes will be excluded and paid at the lower DRG.

1102.1.1. Hospital Acquired Condition Codes:

Hospital-Acquired Conditions	
Selected HAC	**CC/MCC (ICD-10-CM Codes)**
Foreign Object Retained After Surgery	998.4 (CC) ICD-10 – T81.500A to T81.599A 998.7 (CC) ICD-10 – T81.60XA to T81.69XA
Air Embolism	999.1 (MCC) ICD-10 – T80.0XXA
Blood Incompatibility	999.60 (CC) ICD-10 – T80.30XA 999.61 T80.319A 999.62 T80.310A 999.63 T80.311A
Pressure Ulcer Stages III & IV	707.23 (MCC) ICD-10 - L89.003 to L89.93 707.24 (MCC) L89.004 to L89.94
Falls and Trauma: - Fracture - Dislocation - Intracranial Injury - Crushing Injury - Burn - Electric Shock	Codes within these ranges on the CC/MCC list: ICD-10: 800-829 S02.0XXA to T07 830-839 S03.0XXA to S91.109A 850-854 S06.0X0A to S01.90XA 925-929 S07.0XXA to S77.20XA 940-949 T26.50XA to T32.99

1102.1.2. Administrative Review Process for Medicaid Members

1102.1.2.1. Medicaid members or authorized representative may request that the Division review the procedures, decision making and hospital appeals procedures of the discharging hospital. The Division's review will be limited to assuring that the facility acted in compliance with all procedural requirements. A written request for review must be received at the following address within thirty (30) days of the date of the denial letter.

Division of Medicaid
Director of Medical Policy and Provider Reviews Unit
19th Floor
Martin Luther King Jr. Drive SE, East Tower
Atlanta, Georgia 30303-3159

1102.1.3. Lock-In Members

1102.1.3.1. The Division may restrict the number of providers from whom a member may receive services. This restriction is known as a "lock-in."

1102.1.3.2. The "lock-in" program is limited to those members who have demonstrated a pattern of utilization abuse and who have failed to correct this pattern after notification and counseling.

1102.1.3.3. If a member is found to have utilized Medicaid services at a frequency or amount that is not medically necessary, as determined in accordance with utilization guidelines established by the division, the member will be locked in to a single physician and pharmacy provider for an initial period not to exceed twelve (12) months. At the conclusion of the lock-in period, member usage will be reevaluated to determine whether or not restriction should continue. The members will be given notice of a hearing prior to the lock-in. The Division will select a single physician or pharmacy to provide services to the locked-in member. The provider chosen will be geographically situated to give reasonable access to the members.

1102.1.3.4. A lock-in does not apply to emergency services or if a specialized provider is medically necessary.

1102.1.3.5. The selected physician and pharmacy will be contacted by the Division and that physician and pharmacy may decline participation if so desired. Claims submitted for a lock-in member by providers other than those selected will be denied. Hospitals should be alert to possible abuse of the emergency room and emergency room services by the members whose use of the Medicaid program has been restricted. When such a member seeks services from a hospital that appear questionable and obviously non-emergent in nature, the hospital should contact the physician indicated on the bottom of the Medicaid card. This physician is to be considered the members attending physician and should be consulted prior to rendering services of a non-emergency nature. This may prevent the hospital from incurring costs for non-reimbursable expenditures.

1102.1.3.6. Further, hospitals are asked to identify and report emergency room abuse by Medicaid members who are not currently monitored by the “lock-in” program.

DRAFT TERMINATION LETTER FOR GEORGIA DVISION OF MEDICAL ASSISTANCE

(DATE)

Dear _____:

The Georgia Medicaid program provides payment for necessary hospital, physician and other health-care services. Like most insurance programs, the Medicaid program will not provide payment when services are not services covered under the Medicaid program or are determined to be medically unnecessary.

The Utilization Review Committee of this hospital, acting for the Georgia Division of Medical Assistance, has reviewed your medical record and has discussed your need for hospital care with your physician. Based on information that has been presented regarding your current medical needs, the Committee has determined that hospital care is no longer medically indicated to treat your present condition.

The Committee, in reaching this decision, does not imply that you may not continue to require medical services, nor should this be considered in any way a criticism of the care ordered by your physician. This decision is meant only to inform you that any further services that you wish to be covered by the Medicaid program should be provided in a non-acute hospital setting. Services provided to you as an acute hospital patient will not be paid for by the Medicaid program after _____Date_____.

Your physician has been notified of the Committee's decision and will discuss with you plans for your continued treatment. The hospital will also be happy to assist you in making any necessary arrangements.

As a Medicaid member, you may request a review of the Committee's decision. You may ask your doctor to request a review while you are in the hospital or you may, within 30 days of your discharge from the hospital, request a review from:

Georgia Division of Medicaid
Medical Policy Unit, 19th Floor
2 Martin Luther King Jr. Drive SE, East Tower
Atlanta, Georgia 30303-3159

The review by the Division of Medical Assistance Plans will be limited to assuring that the Committee followed proper procedures in reaching a medical conclusion regarding the level of care required for your condition.

Draft Termination Letter

(UR Coordinator) at (Phone Ext.), a member of the Utilization Review Committee's review staff, may be contacted if you have any further questions or concerns.

Sincerely,

Hospital Administrator
Or/Committee Chairman

cc: Attending Physician
Division of Medical Assistance

This is to acknowledge that this notice of non-coverage has been received. Signed:

Date:

Chapter 1200: Patient Safety Program

1201. General

1201.1. The Division of Medical Assistance is committed to improving safety and reducing medical errors for patients within the hospital. Effective October 1, 2001, each hospital must implement a patient safety program that meets the following requirements:

1201.2. Program Requirements

1201.3. Hospital shall implement a patient safety program that will meet the following minimum criteria:

1201.3.1. Peer review protected infrastructure to promote reporting and sharing of information on patient safety and medical errors.

1201.3.2. Uniform reporting standards and definitions for adverse patient events.

1201.3.3. Safety alerts for quick communication of strategies to prevent errors identified as the most frequently occurring types of sentinel events and other patient safety risk factors.

1201.3.4. Dissemination of evidence-based best practices for reducing medical errors, improving patient safety and enhancing quality of care.

1201.3.5. Provider education to promote adoption of patient safety practices into their clinical practice guidelines and standards.

1201.3.6. Participating in agreements, which require the implementation of internal programs for corrective actions and continuous improvement. The participating hospital shall:

1201.3.6.1. Develop and implement an ongoing, proactive program for defining, identifying and managing risks to patient safety and medical errors throughout the organization with defined executive responsibility for the program;

1201.3.6.2. Measure the effectiveness of process and system improvements.

1201.3.6.3. Establish data reporting systems for the collection of data on defined processes that affect patient safety; and

1201.3.6.4. Implement pertinent best practice for reducing medical errors and enhancing positive care outcomes.

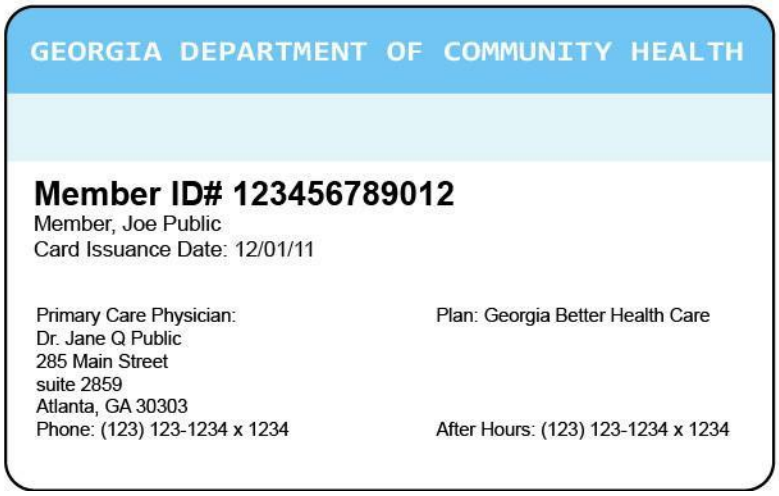

1201.4. Program Compliance

1201.4.1. Hospital providers shall demonstrate compliance with Section 1302. In the event the hospital does not demonstrate compliance, the Division may require the hospital to submit a plan of action. If the plan of action is approved, the Division will permit the hospital to become compliant with policy within a prescribed time period.

Appendix C
Outpatient Hospital and Ambulatory Surgical Center Procedures Requiring Prior Approval

Please refer to the Part II Policies and Procedures for Physician Services Appendix E, O and L (Radiology Codes) for a list of procedure codes that must be pre-certified and/or prior approved before services are rendered in the Outpatient Hospital or Ambulatory Surgical Center setting.

Note that Prior Approval for some procedures, including but not limited to Tonsillectomies and/or Adenoidectomies, Hysterectomies, and Cataract procedures, can be completed by telephone, written submission, or web portal submission. Other procedures are limited to submission in writing or via web portal. For further information, contact the Georgia Health Partnership at (404) 298-1228 (Metro Atlanta) or (800) 766-4456 (Toll free).

Appendix D
State Laboratory Services

Services available through the State Laboratories are not reimbursable through the Hospital program. The following policies and procedures on Public Health Laboratory services must be followed:

A. Newborn Screens

The following follow up tests are allowed on infants less than three (3) months of age when the initial screenings are positive. These claims must be billed with diagnosis code ICD 9 CM 796.6 (ICD 10 CM P09). However, neonatal metabolic screens are required by the State on all infants 24 hours after birth or by the seventh day of life. The initial screening specimen shall continue to be sent on filter paper (DHR Form 3491) to the Public Health Laboratory, Central Facility in Atlanta only.

Procedure Codes

82016	82017	82127	82131	82261	84150
82776	83020	83498	83788	83789	
84030	84436	84437	84442	84443	

Specimens for the above battery of tests may be on a full blood sample (not filter paper) and must be performed by any CLIA certified participating laboratory.

B. Hemoglobin Testing

The Division will not make payment for the following test for sickle cell detection, confirmation or follow-up for infants and family members of infants suspected of sickle cell anemia or trait.

Diagnosis codes include ICD 9 CM 282.6 – 282.69 (ICD 10 CM D57.1 through D57.812).

83020 include SS, SC, SE, S Beta Thalassemia, SO, and SD.

All blood specimens with a sickle cell indicator must be forwarded in an appropriate sickle cell outfit to the Albany or Waycross laboratories.

The Division will provide reimbursement for hemoglobin tests for possible diagnosis other than sickle cell.

C. Gonorrhea and Syphilis Testing

The Department will not provide reimbursement for diagnosis codes ICD 9 CM 098-099.9 (ICD 10 CM A54.00 – A64) with the following procedure codes:

Procedure codes

86592 86593 87070 87081 87205

For diagnosis codes ICD 9 CM 090-097.9 (ICD 10 CM A50.09 – A53.9), the Division will not reimburse for:

86592 86593

All blood/serum specimens for gonorrhea and syphilis must be routed in outfits provided by the State laboratory. Specimens for VDRL's and RPR's may be routed to any of the three State laboratories. Specimens for VDRL's and FTA's must be routed to the laboratory in Atlanta only.

Under no conditions will the Division reimburse for gonorrhea or syphilis testing.

Patients requiring dark field exams must be referred to their local Health Department.

D. Tuberculosis Testing

The following procedures are for tuberculosis (diagnosis codes ICD 9 CM 010.00 -018.96

(ICD 10 CM A15.7 – A19.9) testing:

87116 87118

All sputum with a tuberculosis indicator must be forwarded in the sputum outfit provided by the State to the State laboratory in Atlanta only. Under no condition will the Division reimburse for tuberculosis testing.

E. Salmonella and Shigella Testing

Diagnoses included are ICD 9 CM 003.0 to 004.9 (ICD 10 CM A02.0 – A03.9). The procedures are: 87045, 87081, and 87084.

Stool culture (87045) is often used for the detection of salmonella and/or shigella. Therefore, all stool cultures with a salmonella or shigella indicator must be forwarded in a stool culture outfit (provided by the State) to the State laboratory in Atlanta. Under no condition will the Division reimburse for salmonella or shigella testing

F. HIV/AIDS Test Procedures:

All blood specimen and test requests are no longer restricted to the state laboratory. (Rev 2014)

The State Laboratory Locations and Telephone Numbers are listed below:

Decatur Central Public Health Laboratory
Georgia Department of Public Health Laboratory Services & Supply

1749 Clairmont Road
Decatur, Georgia 30033-4050
Phone # (404) 327-7920
Fax # (404) 327-7922

Waycross Public Health Laboratory
Georgia Department of Public Health Laboratory Services & Supply
1751 Gus Karle Parkway
Waycross, Georgia 31503

Phone # (912) 388-7050
Fax # (912) 338-70611.

Specimen outfits for testing to be done in the Regional Laboratories are available from the preceding addresses; however, the outfits for the tests in the Atlanta Central Laboratory must be obtained from:

Laboratory Services and Supply
1749 Clairmont Road
Decatur, Georgia 30033-4050
Phone # (404) 327-7920
Fax # (404) 327-7922

Appendix E
Newborn Certification

A. Summary Of Newborn Eligibility

The Department implemented a new process to expedite the enrollment of Medicaid eligible newborns. This process enables authorized providers to immediately obtain a Medicaid identification number for a newborn infant, born to a mother eligible for Georgia Medicaid benefits.

Any Physician, Nurse Midwife, Nurse Practitioner, Health Check Provider, Pharmacy, Hospital, Health Department, Durable Medical Equipment Provider, or Birthing Center enrolled as a Georgia Medicaid Provider can obtain a Medicaid identification number for these newborn infants. Enrolled providers can access Gainwell Technology on-line to obtain a Medicaid identification number. Additionally, the manual process, requiring completion of the Newborn Medicaid Certification form, DMA-550, remains in place for enrolled providers who are unable to execute the on-line process. Procedures for both the on-line and manual processes for obtaining a Medicaid identification number for a newborn are specified in this **section.**

B. Manual Procedures for Obtaining Newborn Identification

The manual process requires completion of the form DMA-550, Newborn Medicaid Certification. Upon completion of the form and obtaining the parent's/relative's signature, adhere to the following:

i. Contact Gainwell Technology at 1-800-766-4456 to obtain a Medicaid identification number. Enter that number on the form.

ii. The blue or Certifying Provider copy is retained in the certifying provider's records.

iii. Give the parent the pink (Client) and yellow (Pharmacy) copies of the form. These are temporary Medicaid certificates. They serve as proof of Medicaid eligibility, and they should be presented to the infant's medical care and pharmacy providers.

1. In order to confirm issuance of the number and Medicaid eligibility, mail the white copy of the form to:

Gainwell Technology
P.O. Box 105200
Tucker, Georgia 30085-5200

NOTE:

The month after the number is issued; the infant will receive the plastic Medicaid member identification card.

iv. CAUTION: Providers are encouraged to exercise care when executing the on-line process. Errors on a Presumptive Eligibility record will cause denials or delays in the payment of claims.

v. After the system accepts the information and issues a member identification number, errors on a record, such as an incorrect date of birth, the wrong gender, or an improper spelling of a name cannot be corrected through the system. This must be corrected by contacting the PROVIDER UNIT AT 1- 800-766-4456. When contacting the Provider Unit, describe the erroneous information and state the correct information on the Presumptive Eligibility Pregnancy Medicaid Corrections Report. COMPLETION OF THE NEWBORN MEDICAID CERTIFICATION

vi. This section includes instructions for completing the Newborn Medicaid Certification (DMA-550). This form should only be used for infants who have not yet received their Georgia Medicaid member ID card. After this form has been completed, contact the Newborn Enrollment unit at 1-800-766-4456 to receive the infant's member ID number. This number should be entered in the upper right-hand corner of the DMA-550.

Sample of DMA-550: Newborn Medicaid Certification form next page:

NEWBORN MEDICAID CERTIFICATION
(TEMPORARY)

Please mail completed form to

GHP

DATE COMPLETED

PROVIDER NO.

Please contact GHP to verify the mother's Medicaid eligibility for the month of the newborn's birth, and to obtain the newborn's Medicaid I.D. number.

DMA-550 REV. (07/10)

Newborn Medicaid I.D. No.

Certifying provider must contact the Newborn Enrollment unit to obtain the newborn I.D. number.

From (DOB)

Enter the newborn's date of birth in MM/DD/YY format.

Thru

The Newborn Enrollment unit will provide this date.

Newborn's Name

Enter the complete name. The first name should be entered first, followed by the middle initial, last name and suffix.

Date of Birth

Enter the newborn's date of birth in MM/DD/YY format.

Sex

Check the appropriate box for the sex of the newborn.

Mother's Name

Enter the mother's complete name. The first name should be first, followed by the middle initial and last name.

Mother's Medicaid I.D. No.

Enter the mother's Medicaid identification number exactly as it appears on the mother's Medicaid member identification card.

Mother's Social Security Number

if available, enter the mother's Social Security number.

U.S. Citizen

Check the appropriate box indicating the citizenship status of the mother.

Mailing Address

Enter the mailing address of the newborn. Also enter the name of the county of residence and telephone number of the mother including the area code.

Date of Request

Enter today's date.

Parent/Relative Signature

The parent or guardian must sign the certification. An unsigned certification will not be accepted for processing.

Completed by (Please Print)

Enter the name of the person completing this certification.

Title

Enter the title of the person who is completing the certification.

Provider Name

Enter the provider's name.

Telephone No.

Enter the provider's telephone number including the area code.

Provider Signature

The provider must sign or signature-stamp each certification. Unsigned certifications will not be accepted for processing.

Date Completed

Enter the date the provider signed the certification.

Provider Number

Enter the provider's Medicaid number.

Appendix F
Hysterectomy Information

The Division will make reimbursement only for those hysterectomy procedures, which meet the criteria established in Subsection 911.3 of this Manual.

A copy of the "Patient's Acknowledgement of Prior Receipt of Hysterectomy Information" (DMA-276) is shown on Page I-2 of this Appendix. This form must be signed, either before or after the hysterectomy, as follows and must be attached to the claim form submitted to the Division for payment:

A. Section I - Member's Statement

The member or her representative must sign and date this form in the spaces provided unless the member was sterile prior to the hysterectomy, or the hysterectomy was an emergency.

B. Section II - Physician's Statement

The physician must sign and date this form on all hysterectomies performed. If the member was sterile prior to the hysterectomy, the physician must indicate this condition beside #1 and state the reason for prior sterility. If the hysterectomy was an emergency, the physician must indicate this condition beside #2 and attach the discharge summary and operative record.

NOTE: Medicaid funds are unavailable for sterilization, hysterectomies, or abortions performed without the documentation required by federal regulations (See 42 CFR 441.206 and 441.256).

As such, claims for payment submitted without the required documentation or with incomplete or inaccurate documentation will be denied. The Division does not accept documentation meant to satisfy informed consent requirements which has been completed or altered after the service was performed.

GEORGIA DIVISION OF MEDICAL ASSISTANCE

Medicaid Program

This is a Federally mandated form that must accompany all claims for hysterectomy.

DMA-311 (Rev. 07/15)

Appendix H
Sterilizations

The Division will make reimbursement only for those sterilization procedures, which meet the criteria established in Section 911.2 of this manual. A copy of the "Informed Consent for Voluntary Sterilization" (Form DMA-69) is attached as Pages K-3 and K-4 of this Appendix. The member and the attending physician must properly complete this form on both sides.

A. Some important points in obtaining and submitting a properly executed Form DMA-69 are listed below.

i. Under the physician's statement:

1. The applicable paragraph, (a) or (b) must be designated. (a) States "At least 30 days have passed between the date of the individual's signature on this consent form and the date the sterilization was performed".

2. States "At least 30 days have passed between the date of the individual's signature on this consent form and the date the sterilization was performed".

3. States "This sterilization was performed less than 30 days but more than 72 hours after the date of the individual's signature on the consent form because of the following circumstances."

4. If (b) is designated, the applicable box must be checked and the information requested must be filled in.

5. If the box indicating "Premature delivery" is checked, the individual's date of expected delivery must be given on the line provided.

6. If the box indicating "Emergency abdominal surgery" is checked, the circumstances of the emergency surgery must be described on the line provided.

7. The physician must sign and date the consent form after the surgery is performed.

8. The physician must sign and date the consent form. Signature stamps are not acceptable.

9. All lines on the consent form must be completed, with the exception of the interpreter's statement. The interpreter's statement does not need to be completed unless a language other than English was used to explain the sterilization procedure to the member.

10. The method used by the Division to calculate the 30-day wait is: Begin counting with the first day after the day the member signs the consent form and count forward 30 days. The sterilization may be performed as early as the 30th day.

11. The only consent form acceptable to the Division is: "Informed Consent for Voluntary Sterilization" (DMA-69). No other form can be used.

12. The sterilization informed consent form may not be used for hysterectomy

procedures. Medically necessary hysterectomy procedures require the "Patient's Acknowledgement of Prior Receipt of Hysterectomy Information" form (DMA-276).

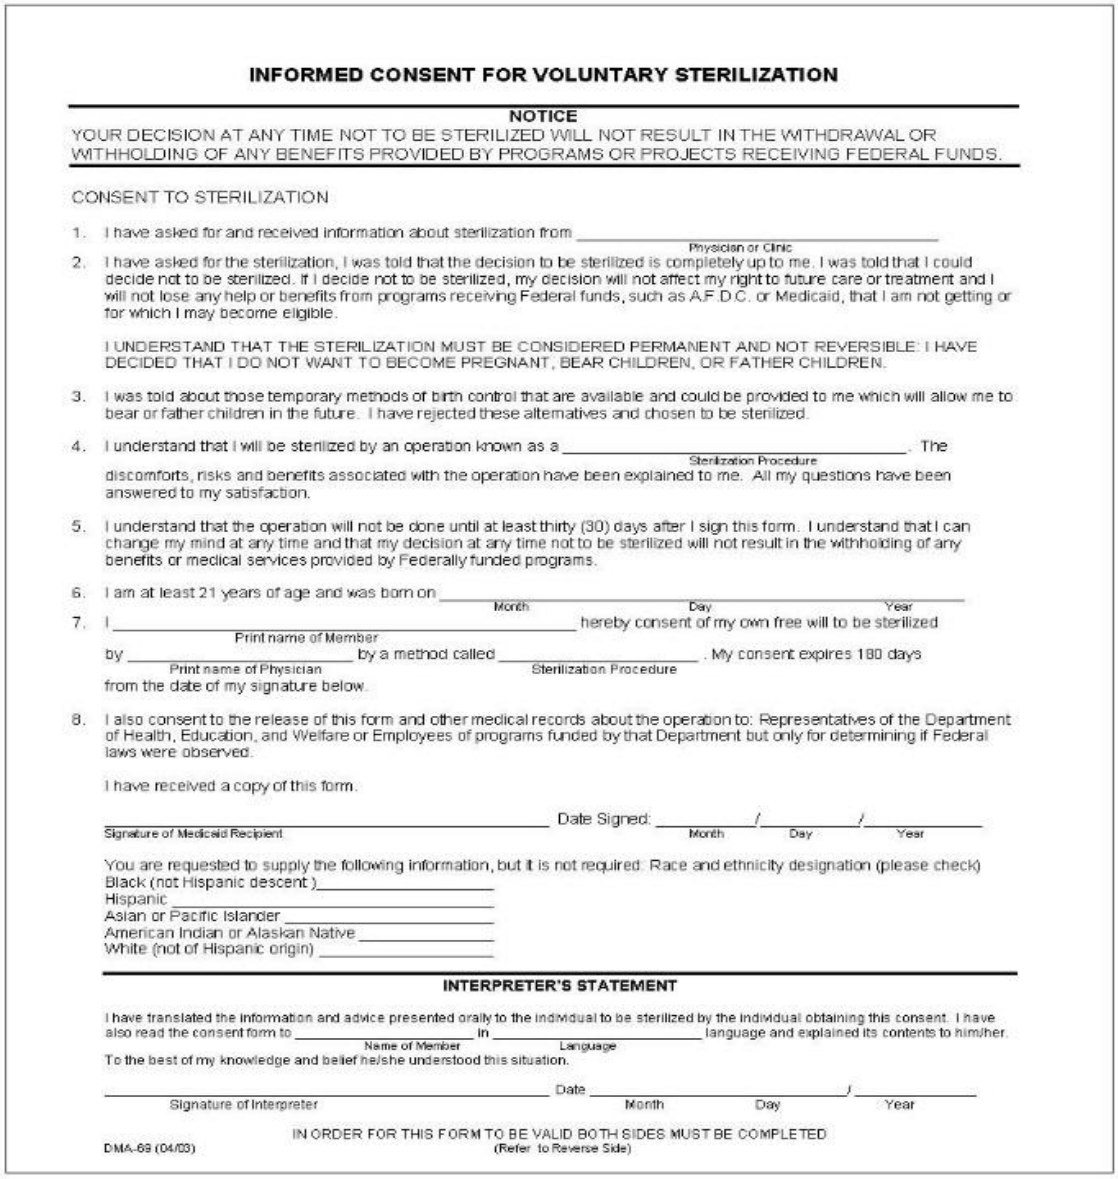

13. Using a generic description and not a specific physician's name is acceptable on line seven (7) of the sterilization consent form when it is not known in advance which specific physician will perform the procedure. The members must be informed that the procedure will be performed by the physician on-call or on duty at the time. The name of the provider (hospital, physicians' group, surgical center, or whomever) should also be entered on line seven (7) of the sterilization consent form.

14. A copy of the properly executed "Informed Consent for Voluntary Sterilization" form must be attached to all claims for services rendered in conjunction with the sterilization when submitted to the Division for payment.

15. NOTE: Medicaid funds are unavailable for sterilization, hysterectomies, or abortions performed without the documentation required by federal regulations (See 42 CFR 441.206 and 441.256). As such, claims for payment submitted without the required documentation or with incomplete or inaccurate documentation will be denied. The Division does not accept documentation meant to satisfy informed consent requirements which have been completed or altered after the service was performed.

CONSENT FOR VOLUNTARY STERILIZATION (DMA-69)

This federally mandated form may be submitted online or as a hard copy. When submitting the hard copy, you must complete both sides and submit it with all claims for sterilization. Review Part II, Chapter 900 of the Policies and Procedures for Hospital Services manual for details on completion of the form. Review blanks and dates on the form to verify age requirements, time lapse, and signature fields (use black ink).

INFORMED CONSENT FOR VOLUNTARY STERILIZATION

NOTICE

YOUR DECISION AT ANY TIME NOT TO BE STERILIZED WILL NOT RESULT IN THE WITHDRAWAL OR WITHHOLDING OF ANY BENEFITS PROVIDED BY PROGRAMS OR PROJECTS RECEIVING FEDERAL FUNDS.

CONSENT TO STERILIZATION

1. I have asked for and received information about sterilization from _____ (Physician or Clinic)
2. I have asked for the sterilization, I was told that the decision to be sterilized is completely up to me. I was told that I could decide not to be sterilized. If I decide not to be sterilized, my decision will not affect my right to future care or treatment and I will not lose any help or benefits from programs receiving Federal funds, such as A.F.D.C. or Medicaid, that I am not getting or for which I may become eligible.

   I UNDERSTAND THAT THE STERILIZATION MUST BE CONSIDERED PERMANENT AND NOT REVERSIBLE. I HAVE DECIDED THAT I DO NOT WANT TO BECOME PREGNANT, BEAR CHILDREN, OR FATHER CHILDREN.
3. I was told about those temporary methods of birth control that are available and could be provided to me which will allow me to bear or father children in the future. I have rejected these alternatives and chosen to be sterilized.
4. I understand that I will be sterilized by an operation known as a _____ (Sterilization Procedure). The discomforts, risks and benefits associated with the operation have been explained to me. All my questions have been answered to my satisfaction.
5. I understand that the operation will not be done until at least thirty (30) days after I sign this form. I understand that I can change my mind at any time and that my decision at any time not to be sterilized will not result in the withholding of any benefits or medical services provided by Federally funded programs.
6. I am at least 21 years of age and was born on _____ (Month) _____ (Day) _____ (Year)
7. I _____ (Print name of Member) hereby consent of my own free will to be sterilized by _____ (Print name of Physician) by a method called _____ (Sterilization Procedure). My consent expires 180 days from the date of my signature below.
8. I also consent to the release of this form and other medical records about the operation to: Representatives of the Department of Health, Education, and Welfare or Employees of programs funded by that Department but only for determining if Federal laws were observed.

I have received a copy of this form.

_____ (Signature of Medicaid Recipient) Date Signed: _____ (Month) / _____ (Day) / _____ (Year)

You are requested to supply the following information, but it is not required. Race and ethnicity designation (please check)
Black (not Hispanic descent) _____
Hispanic _____
Asian or Pacific Islander _____
American Indian or Alaskan Native _____
White (not of Hispanic origin) _____

INTERPRETER'S STATEMENT

I have translated the information and advice presented orally to the individual to be sterilized by the individual obtaining this consent. I have also read the consent form to _____ (Name of Member) in _____ (Language) language and explained its contents to him/her. To the best of my knowledge and belief he/she understood this situation.

_____ (Signature of Interpreter) Date _____ (Month) / _____ (Day) / _____ (Year)

DMA-69 (04/03) IN ORDER FOR THIS FORM TO BE VALID BOTH SIDES MUST BE COMPLETED (Refer to Reverse Side)

the discomforts, risks and benefits associated with it.

I counseled the individual to be sterilized that alternative methods of birth control are available which are temporary. I explained that sterilization is different because it is permanent.

I informed the individual to be sterilized that his/her consent can be withdrawn at any time and that he/she will not lose any health services or any benefits provided by Federal funds.

To the best of my knowledge and belief the individual to be sterilized is at least 21 years old and appears mentally competent. He/She knowingly and voluntarily requested to be sterilized and appears to understand the nature and consequences of the procedure.

SELECT THE APPROPRIATE PARAGRAPH: NUMBER (1) OR NUMBER (2)
(Cross out the paragraph which is not used.)

Use the first paragraph below except in the case of premature delivery or emergency abdominal surgery where the sterilization is performed less than 30 days after the date of the individual's signature on the consent form. In those cases, the second paragraph below must be used.

(1) At least 30 days have passed between the date of the individual's signature on this consent form and the date the sterilization was performed.

(2) This sterilization was performed less than 30 days but more than 72 hours after the date of the individual's signature on this consent form because of the following circumstances (check applicable box and fill in information requested):

☐ Premature delivery
Individual's date of expected delivery _____

☐ Emergency abdominal surgery (describe circumstances): _____

_____

_____

Physician's Signature _____ Date _____

DMA-69 (04/03)

Completion Of the Informed Consent for Voluntary Sterilization (DMA-69)

The DMA will reimburse providers only for the sterilization procedures, which meet the criteria, established in Part II, Chapter 900 of the Policies and Procedures for Hospital Services manual. The recipient and the attending physician must properly complete this form on both sides.

Consent to Sterilization:

Physician or Clinic:
Enter the name of the physician performing the sterilization process.

Sterilization Procedure:
Enter the medical name of the sterilization procedure.

Birth date:
Enter month, day, and year of the member's birth.

Name of Member:
Print the name of the member

Name of Physician:
Print the name of the physician performing the sterilization procedure.

Sterilization Procedure:
Enter the medical name of the sterilization procedure.

Signature of Medicaid Member:
The Medicaid member must sign the consent form. This field cannot be changed or clarified.

Date Signed:
Enter the date that the Medicaid member signed the consent form. This field cannot be changed or clarified and must match date witness signed and dated.

Race and Ethnicity Designation:
the member is requested to supply the race and ethnicity designation, but it is not required. Please check if you elect to do so.

Interpreter's Statement
If the member is not knowledgeable of the English language or is unable to read the Consent to Sterilization, an interpreter must be present to translate the information orally. In addition, the interpreter must complete this portion of the Informed Consent for Voluntary Sterilization form.

Name of Member:
Enter the name of the member signing this form.

Language:
Enter the name of the language used in interpreting the Consent to Sterilization form.

Signature of Interpreter:
The interpreter must sign this statement.

Date:
Enter the date the interpreter signs the statement.

STATEMENT OF PERSON OBTAINING CONSENT
Name of Member:
Enter the name of the member who signed the Consent to Sterilization Form.

Sterilization Procedure:
Enter the medical name of the sterilization procedure

Signature of Person Obtaining Consent:
The person who counseled the member and explained to her/him the nature of the sterilization operation must legibly sign this line. This field cannot be changed or clarified.

Date:
Enter the date that the signature of person obtaining consent was written. This field cannot be changed or clarified.

Facility:
Enter the name of the facility or provider obtaining the consent.

Address:
Enter the complete address of the facility or provider obtaining the consent.

PHYSICIAN'S STATEMENT
Name of Member:
Enter the name of the member who signed the Consent to Sterilization form.

Date of Operation:
Enter the date that the operation was performed.

Sterilization Procedure:
Enter the medical name of the sterilization procedure.

Select Appropriate Paragraph:
Cross out the paragraph which is not used.

Physician' s Signature:
Physician must sign the form and enter the date the form is signed. Signature stamps are not acceptable. This form must be signed and dated after the sterilization is performed to be accepted as a valid consent for reimbursement for sterilization procedures.

Appendix I
Reimbursement Of Clinical Diagnostic Outpatient Laboratory Services

As described in Section 1001.3, effective on and after October 1, 1984, clinical diagnostic laboratory services performed in hospital-based outpatient facilities will be reimbursed at the littlest of 60% of the prevailing charge or the submitted charges. As stated in Section 902, the coding system required for reimbursement of these charges is the Current Procedural Terminology (CPT). These codes must be used in conjunction with the appropriate laboratory revenue code. Additionally, the Principal Diagnosis Description and Principle Diagnosis Codes (ICD-10 CM) must be identified on the submitted claim.

A. The following laboratory services are non-covered by the Division.

i. CPT procedures deleted from previous and current editions of the Current Procedural

ii. Terminology book and those shown as "Unlisted Procedures" which end in "99."

iii. Collection fees except for the services identified in Appendix E.

iv. Services provided free of charge to Medicaid members by State or public laboratories. (Refer to Appendix E).

B. Exclusions:

i. The following laboratory test codes are excluded from the schedule of maximum allowable payments and will be reimbursed in accordance with the policy outlined in Section 1001.3.

1. 85060-85175, Codes dealing with bone marrow smears and biopsies

2. 88104-88140-Certain cytopathology services

3. 86920-Transfusion Medicine

ii. Reimbursement of the clinical laboratory CPT codes is based on the Medicaid's pricing methodology for outpatient lab services which pays the lesser of the following:

1. The Medicaid Allow Amount {Medicaid Rate + Hospital Add-On Rate (Medicaid Rate x .1188) x Number of Units} OR The Medicare Allowed Amount (Medicare Rate x Number of Units).

Appendix J
Reimbursement For Outlier Cases

The prospective reimbursement system for inpatient hospital services is described in Chapter 1000 of this manual. In addition to the specific per case rate amount, an enrolled Georgia or non-Georgia hospital which has an unusually costly admission (or admissions) during the reimbursement year may obtain additional reimbursement for that admission under circumstances described below. This additional reimbursement, determined on a case-by-case basis, may be granted if the cost of the admission in question exceeds the established threshold.

To obtain additional reimbursement for an unusually expensive admission (cost outlier), the claim must first qualify as an outlier with edit code 4399 which is documented on the Remittance Advice (RA). Effective 10/1/16, Gainwell Technologies will no longer accept any paper Outlier Requests. The Outlier request is to be submitted electronically to Alliant/GMCF by the GAMMIS web portal under Provider Workspace/Medical Review Portal, under "Outlier Reviews".

The hospital must submit the required information which will be displayed at the time of the electronic request. The itemized bill is required for ALL Outlier requests. Requests submitted without the required documentation will not be accepted. If the request and all required documentation is not received within (90) days from the paid (RA) in which the Division reimburses the case rate, outlier payment will be denied.

Once an outlier request has been submitted to Alliant/GMCF for review, the providers CAN NOT void the claim via the web. Providers who repeatedly request adjustments or voids generating the need for a positive adjustment may be subject to adverse action by the Division.

A. Itemized Charges for Admission

The itemized bill must be submitted in the following formats indicated below. A sample template is available under the Outlier Review tab.

i. XML

ii. Excel

1. Excel Worksheet should be named "Sheet1"

iii. The column headers should be as follows:

1. ACCOUNT_NUMBER, DATE_OF_SERVICE, REVENUE_CODE,

2. ITEM_NUMBER, DESCRIPTION, QUANTITY, AMT_BILLED

iv. Files should only contain data elements only (no formatting, ie. no blank rows, no page numbers, headers, footers)

v. Failure to submit the Excel file in the required format will result in a denial

ACCOUNT_ NUMBER	DATE_OF_ SERVICE	REVENUE _CODE	ITEM_NUMBER	DESCRIPTION	QUANTITY	AMT_
123456789	4/5/2016	164	16000000	ISOLATION MED SURG	1	$2,10
123456789	4/6/2016	164	16000000	ISOLATION MED SURG	1	$2,10
123456789	4/5/2016	113	15000000	HCHB R&B PRIVATE	1	$938.
123456789	4/6/2016	113	15000000	HCHB R&B PRIVATE	1	$938.
123456789	4/5/2016	250	24000000	OMEPRAZOLE 40 MG CAP, DELAYED RELEASE	1	$25.7
123456789	4/6/2016	250	24000000	OMEPRAZOLE 40 MG CAP, DELAYED RELEASE	1	$25.7
123456789	4/6/2016	270	20000000	BIOPSY SET, LIVER	1	$1,95
123456789	4/5/2016	301	30000000	COMPREHENSIVE METABOLIC PANEL	1	$251.
123456789	4/6/2016	301	30000000	COMPREHENSIVE METABOLIC PANEL	1	$251.
123456789	4/6/2016	360	36000000	BIOPSY LIVER NEEDLE PERC	1	$1,60

vi. The itemization must be listed by revenue code.

vii. The revenue codes included on the itemized bill must match the revenue codes on the claim and UB-04.

viii. The itemized bill revenue totals must match the billed revenue totals on the claim and UB-04. The totals billed must match.

Example: revenue 301 billed amount on the claim and UB04 of $3,265.00 but the billed amount on the itemized bill of $3,465.00. The billed amount on the itemized bill is greater than the billed amount on the claim and UB04.

ix. Each item must contain the description, quantity (units) billed, and the charge for that item. Itemizations that reflect rolled up charges into one-line item will be denied.

x. There cannot be any zero charge items on the itemized bill. The billed amount on the itemized charges and UB claim form must be in agreement.

xi. Negative charges should not be submitted/included on the itemized bill.

xii. Claim revenue codes should not be listed individually. All charges for the revenue code should be billed as one line.

Example: revenue 250, 250, 250, 250, 250, instead revenue code 250 should only be billed once.

xiii. Hospital Acquired Conditions/Never Events must be highlighted or marked through from the itemized claim unless on exception list. (See Section 1102. E of Part II Policies and Procedures for Hospital Services Manual for these exceptions).

xiv. The electronic files are labeled for review and only the documents listed are submitted.

xv. The request is submitted within the 90-day deadline of the paid RA.

xvi. The UR notes must be signed and dated on the review date with Severity of Illness/Intensity of Service (SI/IS) criteria indicated or indicate the guideline stage and progression to next day. UR notes must indicate the severity of illness/intensity of service (SI/IS) that was met for medical necessity of the hospital stay and must be written concurrently on the review date. Failure to document the SI/IS criteria (met/not met) in the utilization review notes may result in the denial of your DRG outlier request. The UR notes must adhere to the frequency indicated in the UR Plan.

xvii. When the Outlier request is submitted, the system will identify which documents are needed for the review. The itemized bill is required for all requests. Additional information may be requested. Only the requested documentation should be submitted. If the entire medical record is submitted, the request will be denied.

xviii. All charges to be considered for additional reimbursement must be in a paid status in the claims processing system prior to submission of the outlier request. Claims for which a third party pays at or in excess of the DRG payment are not to be billed to the Division; therefore, cost outlier reimbursement for such claims is not available. Any services listed on the itemized charges and not billed to the Division must be identified by the hospital. The billed amount on the itemized charges and UB claim form must be in agreement.

xix. For a claim to meet the criteria for consideration of additional reimbursement, the submitted utilization review notes must demonstrate compliance with the hospital's Utilization Review Plan on file and approved by the Division. Hospital utilization review programs must include review of the medical necessity for admission, the appropriateness of services and the medical necessity for continued stay. If this frequency is not followed, this may result in a denial.

xx. In some cases additional information is required to complete the review process. When additional information not identified above is requested, it must be received within (30) days of the date of the paid RA request. If not received by the due date, the request for outlier payment will be denied.

xxi. Hospitals billing for services provided through contractual shared agreements are responsible for submitting a combined itemized bill of both hospitals itemized charges and both set of documents for review if required

xxii. Second and Administrative requests are to be requested the same way listed above with 30 days of the review determination denial letter or within 30 days of the paid RA date.

xxiii. It is the responsibility of the provider to assure that each and every outlier claim and all information necessary to complete the review is received by the Division or its agent.

xxiv. Your Outlier request's status may be viewed on the GAMMIS web portal under the Provider Workspace/Medical Review Portal, under "Outlier Reviews". Questions regarding your Outlier may be sent to GMCF via Provider Workspace/Medical Review Portal under "Contact Us". Please refer to the "Provider Education and Training" link for instructions.

xxv. Calculation of reimbursement for claims that meet outlier criteria is discussed in Chapter 1000 for Reimbursement

xxvi. Day Outlier For dates of admission on or after October 9, 1997, there is no longer an outlier policy for day outliers.

B. Required Outlier Documents Checklist

When the Outlier request is submitted, the system will identify which documents are required for the review. All requests must have an itemized bill submitted. Only the requested documents should be submitted for the review. If the entire record is submitted the Outlier request will not be reviewed, and the provider must resubmit the Outlier record with only the required documents.

i. All Outlier Requests:

1. File format should be one of the following: Itemized bill:

a) XML

b) Excel

2. Excel Worksheet should be named “Sheet1”

3. The column headers should be as follows:

a) ACCOUNT_NUMBER

b) DATE_OF_SERVICE

c) REVENUE_CODE

d) ITEM_NUMBER

e) DESCRIPTION

f) QUANTITY

g) AMT_BILLED

Files should only contain data elements (no formatting)

Billed amount on the itemized charges and UB claim form must be in **agreement. The** revenue codes included on the itemized bill must match the revenue codes on the claim and UB-04. The itemized bill revenue totals must match the billed revenue totals on the claim and UB-04. The totals billed must match. Negative and zero charges should not be submitted/included on the itemized bill.

Claim revenue codes should not be listed individually. All charges for the revenue code should be billed as one line. Example: revenue 250, 250, 250, 250, 250, instead revenue code 250 should only be billed once.

C. Additional Documents that may be required:

i. Cover Letter:

1. Indicates initial, second or administrative request

2. Includes the members name, member number and dates of service. (If this information does not match the RA, an explanation needs to be provided.)

3. Contact person name, e-mail address and phone number.

ii. Claim - UB form:

1. The billed amounts

iii. Utilization Review (UR) Notes:

1. Signed and dated on the review date

2. Severity of Illness/Intensity of Service (SI/IS) criteria indicated (met/not met) guideline stage and progression to the next day

3. Physician Discharge Summary

4. Physician Progress Notes

5. Operative (OP/OR) Procedure Notes (if applicable)

Gainwell Technology

Special Handing Documents

P.O. Box 105208 Suite 750

Atlanta, Georgia 30085-5208

D. REQUIRED OUTLIER DOCUMENTS CHECKLIST

The following items must be submitted as outlined below for Outlier review. Only required chart documents should be submitted for review. If the entire chart is submitted the record will not be reviewed and the provider must resubmit the Outlier record with only the required documents.

i. Cover Letter includes:

1. Member name and number
2. Contact Person, number and e-mail address.
3. Member name, member number and dates of service.
4. (If this information does not match the RA, an explanation needs to be provided.)
5. ICN
6. Initial request, second request or administrative request.

ii. Claim – UB form:

Claims a third party pays at or in excess of the DRG payment are not to be billed to the Division. Itemized Bill - Excel Format containing the following:

1. Column headers should be as follows:
   a) ACCOUNT_NUMBER
   b) DATE_OF_SERVICE
   c) REVENUE_CODE
   d) ITEM_NUMBER
   e) DESCRIPTION
   f) QUANTITY
   g) AMT_BILLED
2. Excel Worksheet tab should be named “Sheet1”
3. Files should only contain data elements only (no formatting, ie. no blank rows, no page numbers, headers, footers, etc.)
4. Total charges and DOS match on itemized bill, RA and UB-04 unless a HAC/ Never Event is present. HAC/Never Events should be highlighted or crossed out.
5. Billed charges on the itemized bill and revenue codes match the UB-04.
6. Charges documented in the itemized bill but not billed on the UB-04 are

identified and marked through on the itemized bill.

ii. Utilization Review (UR) Notes includes:

1. Inpatient review criteria (Met/Not Met) indicated for each review date or indicate the guideline stage and progression to the next day

2. Indicate the name and title of the reviewer

3. Signed by the reviewer on the review date. Retro entries are not acceptable.

4. Adhere to the frequency indicated in the UR plan

iii. Physician Progress Notes:

1. Physician Discharge Summary

2. Operative (OP/OR) Procedure Notes (if applicable)

3. Request submitted within 90-day deadline of paid RA

Completed by:_____ Date of completion: _____

Appendix K
Copayments for Certain Services

A Outpatient Copayment:

A $3 member copayment is required on all non-emergency outpatient hospital visits. Pregnant women, members under twenty-one (21) years of age, nursing facility members, hospice care members and woman diagnosed with breast or cervical cancer who is receiving Medicaid under the Breast and Cervical Cancer (BCC) program or Presumptive Eligibility Aid Categories 245 and 800 only are not subject to the copayment. The copayment does not apply to the following services: Emergency Services, Family Planning Services, Waiver Services and Dialysis Services. When the outpatient cost-based settlements are made for hospital services, the copayment plus Medicaid payment will be compared to the allowable cost to determine the amount of final settlement.

B. Inpatient Copayment:

A copayment of $12.50 will be imposed on hospital inpatient services.

Members affected by the co-payment are limited to adult members of Supplemental Social Security Income (SSI) benefits, certain other adult disabled and aged members and parents of children receiving Aid to Families with Dependent Children (AFDC) benefits. Children under age twenty-one (21), pregnant women, nursing facility residents, or hospice care members and members receiving family planning services are not required to pay this co-payment. Emergency services received by Medicaid members do not require a co-payment. Services cannot be denied based on the inability to pay these co-payments

Women diagnosed with breast or cervical cancer and receiving Medicaid under the Women's Health Medicaid Program (aid category 245 and 800 only) are exempt from co-pay.

Inpatient services must have the Type of Admission, Form Locator 19, and Source of Admission, Form Locator 20, completed on the UB-04 claim form. Type of Admission one (1) Emergency and two (2) Urgent are exempt from inpatient co-payment.

Source of Admission codes 4, 5, and 6 are exempt from inpatient co-payment.

4 = Transfer from a Hospital

5 = Transfer from a Skilled Nursing Home

6 = Transfer from another Health Facility

The provider should check the member's eligibility via web or telephone each month in order to identify those individuals who may be responsible for the co-payment.

Gainwell Technology will automatically deduct the copayment amount from the provider's payment for claims processed. Do not deduct the copayment from your submitted charges. The application of the copayment will be identified on the remittance advice. An explanation of benefit (EOB) code will indicate payment has been reduced due to the application of copayment.

C. COMPLETION OF THE MEDICAID PRECERTIFICATION FORM

The DMA guidelines, set forth in Part II, Chapter 800 of the Policies and Procedure for Hospital Services manual discuss precertification program requirements and procedures. Request for Medicaid precertification should be initiated at least one (1) week prior to the planned admission or procedure. Precertification may be requested by contacting GMCF by any one of the following two methods: (1) telephone: Telephone: 1-800-766-4456 (Provider Call Center) or (2) web portal.

Appendix L
Medicaid Precertification Form

This form is used to submit requests to the Georgia Medical Care Foundation (GMCF) for precertification.

Appendix M
Billing Instructions

A. Claims must be filed on the required form (Electronically) with appropriate information in specific blocks for payment. Claims (must be submitted electronically) for hospital services are:

i. 01 UB-04 (National Uniform Billing Form)

ii. Claim(s) must be submitted within six (6) months from the month of service. Claim(s) with third party resource(s) must be submitted within twelve (12) months from the month of service.

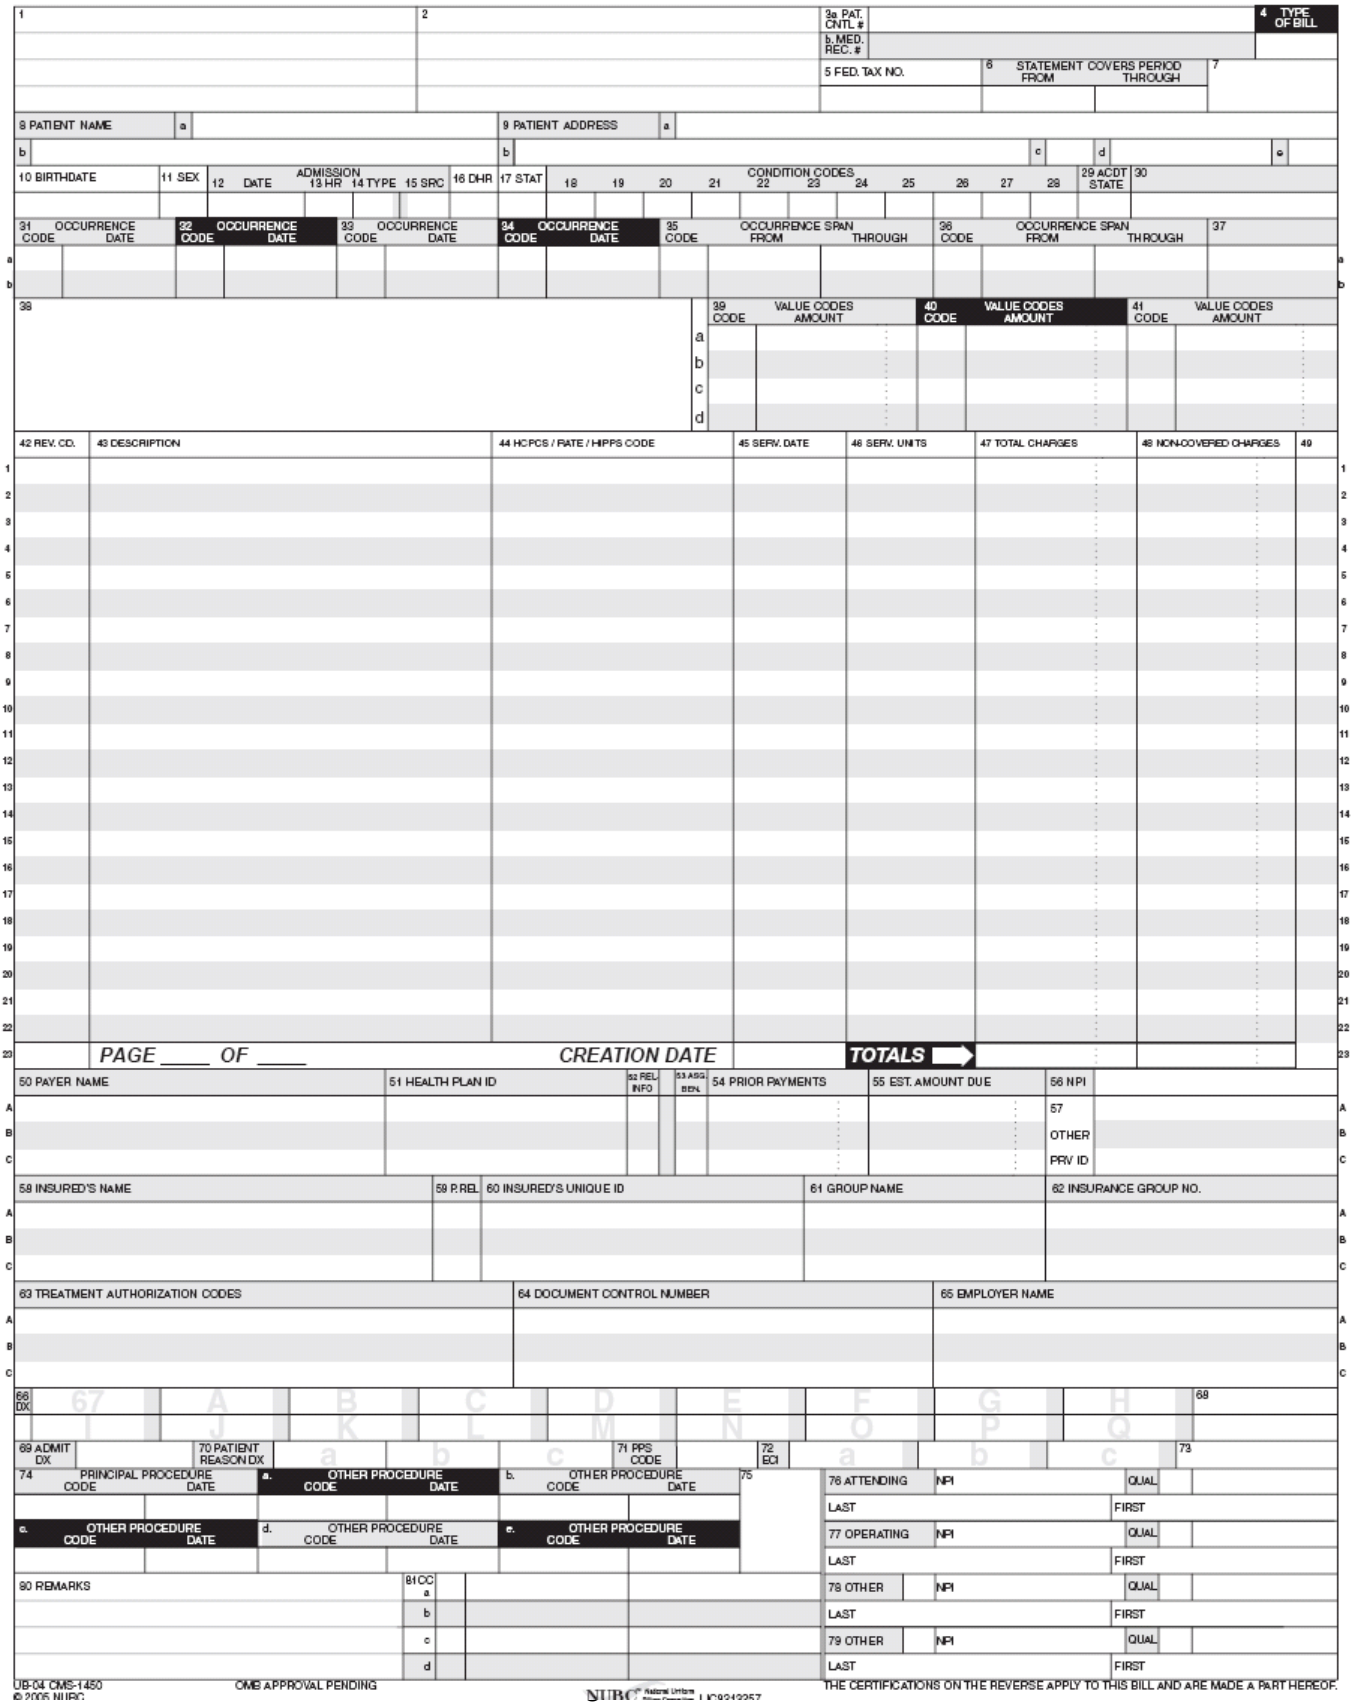

iii. Effective 07/01/2010 a special crossover claim for is no longer required. Claims must be submitted using the UB-04 format. The claim must have an Explanation of Medicare Benefits (EOMB) from Medicare for Medicaid payment if filing hardcopy. Claims must be submitted within twelve (12) months from the month of service.

iv. The Billing Manual has been added to Part I of the Policies and Procedures for the Medicaid/Peach Care for Kids Manual. Please refer to this Billing Manual for general billing instructions and/or questions.

v. All providers filing claims must type the required information in the appropriate fields. No handwritten claims will be accepted for processing. Hospital providers must follow the established billing and timely filing protocols, in accordance with Appendix O and Part 1 of Policies and Procedures Medicaid and Peach Care for Kids.

vi. The GA Medicaid Paperless Initiative into effect May 1, 2015. GAINWELL TECHNOLOGY and A Solutions/GMCF (Alliant/GMCF) will no longer be accepting Paper requests of any type or Outlier paper request. All supporting documentation must be electronically via the GAMMIS Web Portal (www.mmis.georgia.gov) click the Medical Review Portal link located under the Provider information tab. Outlier requests must be electronically requested and all supporting documentation must be electronically attached directly to the user's request through 24/7 access via the Medical Review Portal. Please refer to the DCH Hospital Policy Manual, Appendix L, regarding this change.

UB-04 CLAIM FORM

NOTE:

Form Locators (FL) not required by Georgia Medicaid are not included in these instructions. Form Locators (FL) appearing in bold are used by Georgia Medicaid for claims adjudication and must be present on the claim if applicable.

FL 1 Provider Name, Mailing Address, and Telephone Number:

Enter the name of the provider submitting the bill, the complete mailing address, and telephone number

FL 2 Pay-to Name, address, and Secondary Identification Fields Situational

FL 3 Patient Control Number:

Enter the patient's unique alpha-numeric number assigned by the provider to facilitate retrieval of individual case records and posting of payment

FL 3b Medical/Health Record Number:

Enter the number assigned to the patient's medical/health record by the provider

NOTE:

The medical/health record number is typically used in auditing the history of Treatment and can expedite the processing of claims when medical records are required. It should not be submitted for the Patient Control Number (FL3), which is assigned by the provider to facilitate retrieval of the individual financial record

FL 4 Type of Bill

Enter a code indicating the specific type of bill (e.g., inpatient, outpatient). This three-digit code requires one (1) digit each, in the following sequence:

Type of Facility:

Always use '1' (Hospital).

Bill Classification:

Must be '1' (Inpatient, including Medicare Part A), '3' (Outpatient), or '4' (Diagnostic Referral patient).

Frequency:

The only acceptable inpatient frequencies are '1', '2', '3', or '4'. The only acceptable outpatient frequency is 1. Refer to the definitions for Frequency**.**

FL 5 Federal Tax Number:

Enter provider's federal tax identification number.

FL 6 Statement Covers Period (From-Through):

Enter the beginning and ending service date(s) of the period included on this bill. When combining prior outpatient services to an inpatient claim the "statement covers from "date will be the date of inpatient admission. The outpatient charges should be reported on the inpatient claim with the appropriate revenue code.

FL 8 Patient's Name:

Enter the patient's last name, first name, and, if any, middle initial... If the name on the Medicaid care is incorrect, the member or the member's representative should contact the local DFCS to have it corrected immediately.

FL 9 Patient's Address:

Enter the patient's full mailing address, including street number and name, post office box number or RFD, city, State, and Zip code.

FL 10 Patient Birth date:

Record date of birth (MMDDCCYY) exactly as it appears on the Medicaid card. An unknown birth date is not acceptable. If the date on the Medicaid card is incorrect, the member or the member's representative should contact the DFCS to have it corrected immediately.

FL 11 Patient Sex:

Enter the sex of the patient as "M" for males or "F" for female. If the sex on the Medicaid card is incorrect, the member or the member's representative should contact DFCS to have it corrected immediately.

FL 12 Admission Date:

For inpatient services, the date of admission is considered to be the date the patient began receiving care, including the observation period. Preadmission testing must be included on the inpatient claim.

FL 13 Admission Hour:

Enter the hour (00-23) during which the patient was admitted for inpatient or outpatient care. An unknown hour is not acceptable.

FL 14 Type of Admission/Visit:

Enter the appropriate code to indicate the priority of this admission.

Emergency-the patient requires immediate medical intervention as a result of severe, life-threatening, or potential

disabling conditions. Generally, the patient is admitted through the emergency room. This type of admission is exempt from inpatient co- payment.

Urgent-the patient requires immediate attention for the care and treatment of a physical or mental disorder. Generally, the patient is admitted to the first available and suitable accommodation. This type of admission is exempt from inpatient co- payment.

Elective-the patient's condition permits adequate time to schedule the availability of a stable accommodation

Newborn-use of this code necessitates the use of Special Source of Admission

Codes-see FL 20. (When an infant is transferred from the delivery hospital to a second hospital, the type 4 admission code must not be entered on the claim form submitted by the second hospital.)

FL 15 Source of Admission:

Enter the appropriate code to indicate the source of this admission. Enter code structure (for Emergency, Elective, or Other Type of Admission).

Code Structure (for Emergency, Elective, or Other Type of Admission):

Physician Referral

Clinic Referral

Managed Care Plan Referral

Transfer from a Hospital (different facility)

Transfer from a Skilled Nursing Home

Transfer from another Health Facility

Emergency Room

Court/Law Enforcement

Information Not Available

NOTE:

Source of Admission codes 4, 5, and 6 are exempt from inpatient co-payment.

Code Structure (for Newborn):

Normal Delivery (discontinued 9/30/2007)

Premature Delivery (discontinued 9/30/2007)

Sick Baby (discontinued 9/30/2007)

Extramural Birth (discontinued 9/30/2007)

Born Inside This Hospital

Born Outside of This Hospital (Rev 04/2015)

FL 16 Discharge Hour:

Enter the hour (00-23) that the patient was discharged from inpatient care. An unknown hour is not acceptable**.**

FL 17 Patient Status:

Enter a code indicating patient status as of the "Statement covers thru date". Use the applicable code from the list below:

01 Discharged to home or self-care (routine discharge)

02 Discharged/transferred to another short-term general hospital

03 Discharged/transferred to Skilled Nursing Facility (SNF)

04 Discharged/transferred to an Intermediate Care Facility (ICF)

05 Discharged/transferred to another type of institute

06 Discharged/transferred to home under care of organized home health service organization

07 Left against medical advice

20 Expired

21 Discharged/ transferred to Court/ Law Enforcement

30 Still patient

41 Expired in a medical facility

61 Discharged/transferred within Institution

66 Discharged/Transfer to a Critical Access Hospital

70 Discharged/transferred to another Type of Health Care Institution not Defined Elsewhere in this code list

83 Discharged/Transferred to Skilled Nursing

85 Discharged/ Transferred to a designated Cancer Center

86 Discharged/ Transferred to Home Under Care of Organized Home Health

90 Discharged/ Transferred to an inpatient rehabilitation facility-(IRF)

93 Discharged/Transferred to a Psychiatric Distinct Part Unit of a with a Planned Acute Care Hospital Inpatient Readmission

** Note** Status codes 50, 51, 62, 63, 64 and 65 are billable for straight Medicaid claims, in accordance with Medicare.

FL 18- 28 Condition Codes:
Enter the appropriate codes(s) used to describe conditions or events relating to this bill that may affect payer processing. When billing for Partial Hospitalization condition code 41 must be entered.

FL 31-34 (A&B) Occurrence Codes and Dates:
Enter the codes and associated dates defining a significant event relating to this bill that may affect processing. Format for all dates is MM/DD/YY. Use only those occurrence codes listed in Appendix O.

Occurrence codes and dates are required for Type of Bill "131", when billing Physical Therapy (PT), Speech Therapy (ST), Occupational Therapy (OT), and Psychiatric Services (PY). When billing for PT, OT, and ST, on the same claim form, the occurrence code and date should be specific for PT services. For combined OT and ST claims, the occurrence code and date should relate to ST services. If only one type of therapy is billed, the information should be recorded in the same manner as for a PT claim
The First occurrence code should always be the onset 11, followed by the date that the accident or illness first occurred.

FL 34 Occurrence Span Code and Dates:
Inpatient, provider enters codes and associated beginning and ending dates defining a specific event relating to this billing period.

FL 39- 43 (A, B , C & D) Value Codes:
Enter the appropriate value codes and the units or dollar amounts necessary for the processing of the claim.

80-Covered Days-the number of covered days for inpatient admission.
81-Non-Covered Days-the number of non-covered days for inpatient admission.

FL 42 Revenue Code:
Enter the appropriate Revenue Code. Refer to the Uniform Billing Manual for a listing of revenue codes. FL 44 lists the revenue codes billable to GA Medicaid. "Outpatient only" revenue codes cannot be billed on inpatient claims and Inpatient only codes cannot be billed on Outpatient claims. For emergency and outpatient services, when a span of dates is entered in FL 6 (from thru date of service), a revenue code may be entered more than one time on the claim if the actual dates of service entered in FL 45 and/or the HCPCS codes entered in FL 44 are different.

NOTE:

When billing partial hospitalization, enter revenue code 912 and the number of visits in the units of service field. This is an all-inclusive day rate. Therapy services included in the PHP should not be billed under other therapy revenue codes.

When billing for newborn hearing screening test(s), enter revenue code 479. Also, indicate the CPT code such as 92587, in FL 44.

The last revenue code on each UB-04 should be 001 for the total.

Partial Eligibility/ Revenue Code 180

When a member has lost eligibility during the middle of a hospital stay, this is considered as partial eligibility, and the Revenue Code 180 must be entered along with the number of units for the days that the member was not eligible as well as the associated charges incurred during the ineligible period. For example: A patient is admitted to the hospital from 04/18/09 to 07/17/09, and the member loses eligibility for 05/01/2009 through 05/31/2009; Enter Revenue Code 180 in Field Locator 42, Enter the first date of the ineligible period 05/01/2009 in Field Locator 45, Enter the number of days the member is not eligible in Field Locator 46. The associated charges incurred during the ineligible period are entered in Field Locator 47.

FL 43 Revenue Description:

Enter narrative description of the related revenue categories included on this bill. Abbreviations may be used. The description and abbreviations should correspond with the revenue codes as defined in the 1992 Georgia Uniform Billing Manual. Accommodations must be entered first on the bill.

FL 44 CPT/HCPCS/Rates:

Enter the accommodation rate for inpatient bills and the HCFA Common Procedure Coding System (HCPCS) applicable to ancillary services. Outpatient surgical, obstetrical, diagnostic laboratory, injectable drugs, and radiology procedures require HCPCS/CPT-4 coding regardless of the revenue code billed. Injectable drugs require NDC (National Drug Code) coding for each injectable drug billed under revenue code 636. The CPT-4 codes must be entered in the field, adjacent to the appropriate revenue code. The revenue codes most frequently utilized to identify those services are 260,261, 300-302, 304-307, 310-312, 314, 320-324, 333, 340-342, 351-359, 360-369, 401-403, 413,420, 424, 430, 439, 440, 444,480-481,450, 510-519, 610-612, 636, 730, 731, 732, 760,761, 762 790, 901 and 943. Claims submitted without CPT-4 codes adjacent to these codes will reject or deny. The appropriate revenue code must also be entered in FL 42. Do not use CPT-4 codes on inpatient claims.\ When billing.

IV Infusion/solutions for hydration therapy, use the appropriate primary revenue code: with the charge for that procedure code on each line. The CPT codes used for the revenue code are to be reported below as 96360-96379. The primary procedure code must be either billed and paid in history prior to billing the add-on infusion code on the claim or can be billed along with the add on code on the same claim with the revenue code. Bill the appropriate CPT/HCPCS infusion code on each detail line. Do not combine the IV infusion codes on one detail line. The primary CPT/HCPCS code must be billed with the appropriate add on codes as listed follows according to the:

2011 Current Procedural Terminology (Standard Edition):

Add-on code	IV Infusion Primary Codes
96361	96360, 96365, 96374, 96409, 96413
96366	96365
96367	96365, 96374, 96409, 96413
96368	96365, 96413, 96415, 96416
96370	96369
96371	96369
96375	96365, 96374, 96409, 96413
96376	96365, 96374, 96409, 96413
96411	96409, 96413
96415	96413
96417	96413
96423	96422

NOTE: When billing for multiple surgeries, each procedure should be listed adjacent to the appropriate surgical revenue code with the charge for that procedure on each line. Do not combine surgical charges on one line. All 360 revenue code charges must have a valid CPT/HCPCS code and a valid doll When billing emergency room visit list revenue code 450 and the appropriate CPT/HCPCS code.

If a surgical procedure is performed in an emergency room setting, the appropriate surgery code (CPT codes 10021-69990) must be reported in FL 44 HCPCS/Rates, with Revenue Code 450.ar amount entered on the claim.

When billing injectable drugs, the 11-digit NDC (National Drug Code) must be billed along with revenue code 636. When billing using an electronic format (EDI, Web) the appropriate CPT/HCPCS code must be entered along with the NDC code. The 11-digit NDC (National Drug Code) must be billed in Field Locator 43. Enter the 2-digit qualifier "N4" as a prefix to the 11-digit NDC number. Example: N4455513028310. The associated CPT/HCPCS code must be entered into Field Locator 44.

FL 45 Service Date:

Enter the actual date the service was provided if a span of dates is billed, the actual date the service was provided must be entered adjacent to the appropriate revenue code(s). For emergency and outpatient services, if a span of dates is entered in FL 6 (from thru date of service), the actual date of service must be entered in FL 45 adjacent to the appropriate revenue code(s).

FL 46 Units of Service:

Enter the units of service or number of days associated with Revenue Codes in FL

NOTE: When billing for observation revenue code 762, units must be entered to indicate number of hours. For example: if member is in the observation room for ten (10) hours, the units are ten (10). Revenue code 762 is covered for both inpatient and outpatient claims. When combining prior observation/outpatient services to an inpatient claim the "statement covers from" date will be the date of inpatient admission. The outpatient charges should be reported on the inpatient claim with the appropriate revenue code.

FL 47 Total Charges (by Revenue Category):

Enter the total charges pertaining to the related revenue code for the current billing period as entered in the statement covers period. Only charges relating to the covered eligibility dates should be included in total charges. The figures in this field add up to a total, which is reported in this FL using revenue code 001.

FL 48 Non-covered Charges:

The total non-covered charges pertaining to the related revenue code in FL 42 are entered here.

NOTE: Lines A, B, and C are used for FL 50 through 66 to indicate primary (A), secondary (B) and tertiary (c) payers. For examples: If Medicaid is the primary payer listed online A of FL 50, Medicaid information must be listed online A through FL 66

FL 50 (A, B,C) Payer Identification:

Enter payer name and carrier code of any liable third-party payer other than Medicare. A reasonable effort must be made to collect all benefits from other third-party coverage. Federal regulation requires that Medicaid be the payer of last resort. (See Chapter 300 of the Policies and Procedures Manual applicable to all Medicaid providers.)

When a liable third-party carrier is identified on the card, the provider must bill the third party.

FL 51 (A, B, C) Health Plan ID:

Enter the number assigned to the provider by the payer indicated.

FL 52 (A, B, C) Release of Information Certification Indicator

FL 54 (A, B, C) Prior Payments:

Enter the amount that the hospital has received toward payment of this bill from the carrier.

FL 56 National Provider ID (NPI):

FL 57 Other Provider ID (primary, secondary, and/or tertiary):

Report other provider identifiers as assigned by a health plan (as indicated in FL50 lines 1-3) prior to May 23, 2007.

FL 58 (A, B,C) Insured's Name:

Enter the insured's last name, first name, and middle initial. Name must correspond with the name on the Medicaid card. If the name on the Medicaid card is incorrect, the member or the member's representative should contact the local DFCS to have it corrected immediately.

FL 59 (A, B,C) Patient's Relationship to Insured:

If the provider is claiming payment under any of the circumstances described under FL's 58 A, B, or C, code must be entered indicating the relationship of the patient to the identified insured, if this information is readily available.

FL 60 Insured's Unique ID (Certificate/ Social Security Number/ HI Claim / ID Number (HICN).

Enter on the same lettered ling (A, B, or C) that corresponds to the line on which the payer information is shown in FLs50-54, the provider enters the patient's number as it appears on the patient's ID card.

FL 61 (A, B,C) Insured Group Name:

Enter the name of the group or plan through which the insurance is provided to the insured. Medicaid requires the primary payer information on the primary payer line when Medicaid is secondary.

FL 62 (A,B,C) Insurance Group Numbers:

Enter the identification number, control number, or code assigned by the carrier or administrator to identify the group under which the individual.

FL 63 A,B,C) Treatment Authorization Code (Precertification):

A number or other indicator that designates that the treatment covered by this bill has been authorized by the DMA. Enter the 12-digit authorization number as required for inpatient hospital admissions and selected outpatient procedures, if applicable.

FL 64 (A,B,C) Document Control Number (DCN):

Enter the control number assigned to the original bill by the health plan or the health plan's fiscal agent as part of their internal control.

FL 65 (A,B,C) Employer Name:

Enter employer name that might or does provide health care coverage for the individual in FL58

FL 66 Diagnosis and Procedure code Qualifier (ICD Version Indicator):

This qualifier denotes the version of International Classification of Diseases (ICD)reported. The following qualifier codes reflect the edition portion of the ICD-10 codes Revision.

FL 67 Principal Diagnosis Code:

Codes prefixed in 'E' or 'M' are not accepted by the Department. A limited number of 'V' codes are accepted.

FL (67A-67Q) Other Diagnosis Codes:

Enter ICD-10 codes for up to eight additional conditions if they co-exist at the time of admission or developed subsequently, and which had an effect upon the treatment or length of stay. It may not duplicate the principal diagnosis listed in FL 67 as an additional or secondary diagnosis. Note: Medicaid will ignore data submitted in 67I-67Q.

FL 69 Admitting Diagnosis:

The admitting diagnosis is the condition identified by the physician at the time of the patient's admission requiring hospitalization.

FL 70A-70C Patient's Reason for Visit:

Patient 's Reason for visit is required for all un-schedule's outpatient visits for outpatient bills.

FL 74 Principal Procedure Code and Date:

Inpatient claims when a procedure was performed. Not required on outpatient claims.

FL 74A-74E Other Procedure Codes and Dates:

Inpatient claims when additional procedures must be reported.

FL76 Attending Provider name and Identifiers (including NPI):

Required when claim/encounter contains any services other than nonscheduled transportation services. The attending provider is the individual who has overall responsibility for the patient's medical care and treatment reported in the claim/encounter.

0B-State License Number

1G-Provider UPIN Number

G2-Provider Commercial Number

FL 77 Operating Provider Name and Identifier (including NPI)

Required when a surgical procedure code is listed on the claim. The name and identification number of the individual with the primary responsibility for performing the surgical procedure(s).

0B-State License Number
1G-Provider UPIN Number

E1-Employer's Identification Number

SY-Social Security Number

FL 78 &79 Other Provider Name and Identifiers (including NPI):

The name and ID number of the individual corresponding to the qualifier category indicated in this section of the claim.

DN-Referring Provider: The provider who sends the patient to another provider for services. Required on an outpatient claim when the referring provider is different that the attending physician.

ZZ-Other Operating Physician: An individual performing a secondary surgical procedure or assisting the Operating Physician.

82-Rendering Provider: The health care professional who delivers or completes a particular medical service or non-surgical procedure

Second Identifier Qualifiers:

0B-State License Number

1G-Provider UPIN Number

EI-Employer's Identification Number

SY-Social Security Number

Helpful Hints:

Interim billing valid type of bills: 112,113 and 114. When billing Medicare interim claims, do not bill Medicaid until the final bill has been submitted and paid by Medicare. Medicaid does not accept interim Medicare Crossover claims.

TOB 141 – Revenue code allowed:
300-329, 341-350, 380-409, 460-469, 471, 482, 730, 731, 740, 749, 001

Value code units for therapies should reflect total number of visits at this facility from onset of condition.

If code is not an emergency code and provider feels it is an emergency, bill and attach documentation to claim.

$3.00 co-pay per visit for outpatient services.

Guidelines for submitting Medicare Crossover claims UB-04

ALL CLAIMS ARE SUBMITTED ELECTRONICALLY.

DEFINITIONS FOR FREQUENCY (FL 4)

Admit Through Discharge Claim (1)

This code is to be used for a bill that is expected to be the only bill to be received for a course of treatment or impatient confinement. This will include bills representing a total confinement or course of treatment, and bill which represent an entire benefit period of primary third-party payer.

Interim First Claim (2)

This code is to be used for the first of a series of bills to the same third-party payer for the same confinement or course of treatment

Billing for Interim Claims Effective for Dates of Admission 07/01/1998 or Greater

Admit through discharge claims are the preferred method of submission.

First Interim Claims – Bill Type 112

First Interim claims can only be submitted if the covered days span at least 61 days. All first interim claims submitted with an interim Bill Type and less than a 61-day span will deny. The first interim claim should be

submitted with a 112 Bill Type, indicating Interim-First Claim and a Patient Status of 30 (still a patient). The DRG is assigned to this claim. The DRG allowable will be paid. This amount may NOT be the final DRG payment. Subsequent claims, interim/final, may affect payment.

Continuing Interim Claims – Bill Type 113

All continuing interim claims received after the initial interim claim will be treated as "replacement claims".

When the replacement claim is processed, the Remittance Advice (R/A) will reflect a complete recoupment of the previous claim submitted with a 112 Bill Type. Each time a replacement claim is processed, the previous payment is recouped on the same R/A. The new payment amount will include any change in DRG.

Continuing interim claims may only be submitted if there are at least 60 days from the To Date of Service on the previous claim and the To Date of Service on the current claim.

Hospital must submit a discharge claim for each stay so that information on each stay will be complete. To encourage timely billing and prevent open-ended sets of claims (series with no discharge), some claims may be recouped. If a subsequent claim is not received within 180 days of the pay date on the R/A of the previous claim, the previous claim will be recouped. The claims processing cycle auditing interim claims run every 30 days; therefore, some claims outside of the180-day guideline may not be recouped on the exact 180th day. Recoupments will not occur until a minimum of 180 days has elapsed. Medicaid will pay for stays that have been recouped in cases where the discharge claim was not submitted within 180 days. In order to receive payment, the provider should resubmit a claim for the entire stay using Bill Type 111 or combination of Bill Type 112 and Bill Type 113. Medicaid's objective is to obtain a discharge claim for every stay.

The only valid Bill Type for replacement claim is 113.

Discharge Claims – Bill Type 114

The final claim, or discharge claim, must be submitted with a 114 Bill Type and a Patient Status of discharged, expired or transferred (01-08 or 20).

The discharge claims MUST be received no more than 180 days from the previous interim claim. If a discharge claim is not received within 180 days of the pay date on the R/A of the previous claim, all previous payments will be recouped. The claims processing cycle auditing discharge claims runs every 30 days; therefore, some claims outside of the 180-day guideline may not be recouped on the exact 180th day.

Reminders:

All interim claims must have an Admit Date equal to the From Date of Service.

First interim claims can only be billed with a Patient Status of 30 (still a patient).

All discharge claims must be billed with a Bill Type 114 and Discharge Status of 01-08 or 20.

The only valid Bill Type for first interim claim is 112. The only valid Bill Type for other interim claims is 113.

Information submitted on replacement claims must reflect all accumulated charges.

All third party and patient liability amounts must be accumulated amounts for the entire stay.

Every claim must reflect the appropriate diagnoses and procedures for the entire stay.

Interim claims must be submitted at least every 180 days and no more than every 60 days.

EXAMPLE:

This claim will pay at the DRG allowable.

Claim 1					
Type of Bill	112	Patient Status	30	Admit Date	070198
FDOS	070198	TDOS	110598		

This claim replaces the previous claim. Payment for Claim 1 is recouped and paid for Claim 2, if appropriate. There are at least 60 days from the TDOS for Claim 1 and the TDOS for Claim 2.

Claim 2					
Type of Bill	113	Patient Status	30	Admit Date	070198
FDOS	070198	TDOS	020199		

This claim will pay at the DRG maximum allowable. Payment for Claim 2 is fully recouped, and the claim is replaced and repaid by Claim 3. For claims 2 and 3 in this example, all accumulated charges, third party and patient liabilities, and appropriate diagnoses and procedures entered reflect the entire length of stay.

Claim 3					
Type of Bill	114	Patient Status	01	Admit Date	070198
FDOS	070198	TDOS	040699		

CONDITION CODES (FL 18-28):

Insurance Codes

Insurance Codes		**D**
01	Military Services Related	Medical condition incurred during military
02	Condition is Employment Related	Patient alleges that medical condition is due to Environment/events resulting from employment.
03	Patient Covered Not Reflected Here	Indicates that patient/patient beyond that reflected on this
04	Information Only Bill	Bill is submitted for information purposes only.
05	Lien Has Been Filed	Provider has filed legal claim for recovery of funds Potentially due a patient as a result of legal
06	ESRD Patient in First Year of Entitlement Covered by Group Health	Indicates Medicaid may be a secondary insurer if the patient is also covered by employer group health

41	Partial Hospitalization	Indicates that the claim is for partial
G0	Distinct Medical Visits	Multiple medical visits occurred on the same day, but the

Appendix O
Indigent Care Trust Fund (ICTF) Program

A. General Information

The Indigent Care Trust Fund (ICTF) program provides funds to certain hospitals to cover all or a portion of the costs of medical services to the medically indigent that, for example, may be uninsured or have accrued medical bills that Medicaid does not cover. The Department of Community Health (Department) is authorized by statute to establish rules that support the purposes for which contributions, deposits and transfers to the ICTF may be made. Chapter 111-3-6 of the Rules of the Department sets forth those rules, which include a provision for the issuance of this Manual.

In this Manual, the Department provides the conditions for participation, policies, procedures, instructions, forms, dispute-resolution procedures, sanction provisions for non-compliance, and other items for use by each eligible hospital in operating programs consistent with the Rules for the ICTF program. In addition to this, the Department's Policies and Procedures for Hospital Services, the Policies and Procedures outlined in Part I for all Medicaid providers shall also apply to each participating hospital.
Funds appropriated or transferred to the Department for the ICTF program only may be used for the following purposes:

i. To expand Medicaid eligibility and services;

ii. For programs to support rural and other health care providers, primarily hospitals, who serve the medically indigent;

iii. For primary health care programs for medically indigent citizens and children of the state of Georgia; or

iv. Any combination of the above-stated purposes.

Such funds shall be used to match federal funds or any other funds from a public source or charitable organization that are made available for these purposes

B. ICTF Program Objectives

The objectives of the ICTF program are designed by the Department to guide each participating hospital in the appropriate utilization of funds in accordance with the purposes outlined by the General Assembly. Although this list is not intended to be exhaustive, these program objectives will assist the hospital in formulating and implementing its program for which ICTF payments may be allocated:

i. To ensure that quality medical services are made available and accessible to patients eligible for Medicaid, Medicare or determined to be medically indigent according to criteria established by the Department.

ii. To support the provision of medical services to medically indigent persons so that they may receive care without charge or at a reduced rate.

iii. To ensure that medically indigent patients receive care in the setting determined by current professional standards to be the most appropriate and cost effective for the treatment of the individual's medical condition.

iv. To ensure that medically indigent patients are not denied medical care or subjected to the under-utilization of medical services

v. To reduce significant local health care problems within the hospital's medical service area.

vi. To establish and identify an appropriate and regular source of primary care for medically indigent patients.

vii. To provide services in which evidence of community support and linkage to local health planning is shown.

C. ICTF-Eligible Hospitals:

Each hospital that is designated as a Disproportionate Share Hospital (DSH) is eligible to participate in the ICTF program. The hospital must be licensed in Georgia and meet at least one of the criteria established by the Department for designation as a hospital which serves a disproportionate number of low-income patients with special needs.

ii. Requirements for Participation in the ICTF Program:

1. Each hospital shall meet the conditions specified by the Department in this Manual in order to begin and continue participation in the ICTF program. Requirements for participation in the ICTF program are divided into the following categories:

a) Contractual Obligations

b) Conditions for Receipt of ICTF Payment Adjustments

c) Free and Reduced-Charge Care

d) Public Notification about the ICTF Program

e) Financial Reporting

f) Hospital's Resolution Process

g) Compliance

D. Contractual Obligations

i. Letter of Agreement.

Each participating hospital shall execute a Letter of Agreement (or similar form) provided by the Department, which incorporates the provisions of the Rules, the Manual, and the applicable policies and procedures of the Department. The Letter of Agreement permits the Department to assess liquidated damages against the hospital as follows:

1. In an amount established by the Department for each calendar day in which the hospital fails to comply with the Department's Rules, Policies and Procedures of the Department or this Manual.

2. In an amount not greater than the disproportionate share payment for the year in which the hospital knowingly and willfully makes or causes to be made any false statement or misrepresentation of material fact with respect to:

    a) The use of funds from the Trust Funds by the hospital; or

    b) The response of the hospital to any request for information from the Department related to the Trust Funds, including without limitation the submission of any report required under the Department's Rules, Policies and Procedures or this Manual.

The assessment of liquidated damages against the hospital shall be in addition to every other remedy available to the Department at law, in equity, by statute or under contract. In its discretion, the Department may also require the hospital to submit a corrective plan of action, if applicable, that demonstrates the hospital's compliance with its contractual obligations.

E. Intergovernmental Deposits and Transfers

ICTF payments to hospitals are dependent, in part, on the availability of funds received from intergovernmental deposits and transfers. Under Georgia law, hospital authorities and other governmental or public entities are authorized to make such deposits and transfers to the ICTF. Each year, the Department provides instructions to participating hospitals and affiliated hospital authorities regarding the amount of funds needed and the manner by which funds can be deposited or transferred**.**

F. Conditions for Deposits and Transfers to the ICTF

All moneys that are deposited or transferred to the Trust Fund are irrevocable, and no limitation on the use of the moneys is permitted except as set forth by the Department or the Rules. Hospital authorities, counties, municipalities, or other state or local public or governmental entities may deposit or transfer moneys to the Trust Fund. To facilitate the deposit or transfer, each entity must execute a Letter of Intent to deposit or transfer funds as outlined in Section II.A.5.

G. Refunds or Returns of Deposits and Transfers to the ICTF

i. Inappropriate Deposits and Transfers:

Deposits and transfers to the ICTF that are not properly designated or that do not satisfy the Rules and the contracts, agreements or other instruments with the Department shall be returned to the depositor or transferor with interest earned after payments are collected from the appropriate hospital, except that penalties so transferred to the Trust Fund shall not be refunded.

ii. Hospital Closing:

If a participating hospital closes during the fiscal year in which funds are received, deposits and transfers shall be returned with interest earned pro rata to such hospital, unless the hospital has received a DSH payment for that fiscal year.

iii. Failed or Void Appropriations:

Deposits and transfers to the ICTF and interest earned thereon will be refunded to the entity depositing or transferring if such monies:

1. Have not been appropriated by the end of the fiscal year; or

2. Have been appropriated but have been determined to be:

a) A void appropriation in violation of O.C.G.A. 31-8-156;

b) ineligible for anticipated matching federal funds;

c) Not contractually obligated at the end of the fiscal year for which they were appropriated;

d) Subject to return based on any Rule of the Department; or

e) Void because the Department violated the terms of a contract, agreement or other instrument facilitating transfers to the ICTF. The Department will ensure that any appropriate refunds are made no less than thirty (30) days from the end of the fiscal year or other time determined by the Department as applicable.

H. Conditions for Receipt of ICTF Payment Adjustments:

i. As a condition for receipt of ICTF payments, each participating hospital must:

1. continue participation in the Medicaid program;

2. comply with the Department's Rules and the Department's Policies and Procedures, including specifically Part II of the Hospital Services manual including the Appendix Q;

3. comply with the Department's requests for reports and verification thereof on the use of the funds from the ICTF;

4. use the funds from the ICTF to provide health care services to Medicaid recipients and medically indigent citizens of the state; and

5. meet the following additional conditions, if the hospital is a Disproportionate Share Hospital:

a) Continue participation in the Medicare program.

b) Make available medical services to Medicaid and Medicare recipients

without discrimination.

c) Provide obstetrical care services if such services are presently provided.

d) Comply with the patient transfer requirements provided in the Emergency Medical Treatment and Active Labor Act (EMTALA) of 1986, as amended.

e) Ensure that patients are not transferred or denied services based solely or in significant part on economic reasons.

f) Make arrangements with sufficient numbers of physicians for each service to assure that Medicaid patients have full access to the facility's services without being required to pay physicians for Medicaid covered services.

g) Make arrangements with physicians to ensure Medicaid and medically indigent patients are not required to have a physician with staff privileges as a condition of admission or treatment when such admission or treatment is determined to be medically necessary and within the scope of service capability of the hospital.

h) Document which physicians with staff privileges accept and will treat Medicaid patients in their offices, and assist Medicaid patients with referrals to such physicians. The hospital shall encourage full provider participation in the Medicaid program.

i) Ensure that preadmission deposits are not required on demand as a condition of treatment of Medicaid eligible persons or medically indigent persons.

i. For treatment of medically indigent patients, ensure that inability to pay does not act to deny or substantially delay receipt of medically necessary services. The hospital shall provide assistance to medically indigent patients by operating a program under which patients may receive care without charge or at a reduced charge, as more specifically set forth in this Manual under Section II.D, Free and Reduced - Charge Care.

ii. Effectively advise the public of the hospital's participation in the program, the availability of services provided, the terms of eligibility for free and reduced charge services, the application process for free and reduced charge services, and the person or office to whom complaints or questions about the hospital's participation in or operation of the program may be directed. Upon request by the Department, the hospital shall provide evidence of its compliance with the public notification requirements of this section. Refer to the subsection in this manual entitled Public Notification about the ICTF Program.

iii. Submit to the Department a report on the use of ICTF payment adjustments each calendar year. Such reports shall:

1. Be in a format established by the Department;

2. Be available to the public for examination; and

3. Include a report of the number of medically indigent persons served without charge in both inpatient and primary care settings and the dollars expended for such services. Hospitals shall report dollars expended using a cost-to-charges ratio of 65 percent. Over a twelve-month period, each hospital will be expected to report a medical indigence services expenditure of an amount equal to no less than 100 percent of the hospital's total ICTF payment adjustments minus the amount transferred or deposited to the Trust Fund by or on behalf of the hospital.

The following example describes the amount as the medical indigence services requirement to be calculated as follows:

($100 - $40) x 100% = $60

$100 =Total DSH payment adjustment

$40 = Amount transferred or deposited to the Trust Fund by or on behalf of the hospital

$60 =Amount to be reported to the Department as indigence services expenditures

Failure to provide such reports in the format prescribed and within the time periods established by the Department, or to demonstrate timely accessibility to ICTF supported services may result in a withholding or recoupment of ICTF payment adjustments.

Complete and fulfill the requirements as more specifically set forth in this Manual under Section II.A, Contractual Obligations.

For the development and provision of new institutional health services or health care facilities, comply with the rules and requirements of the Certificate of Need program under the Division of Health Planning of the Department, as set forth more specifically in O.C.G.A. Sections 31-6-40 et seq., and the annual reporting requirements under O.C.G.A. Section 31-6-70.

I. Free and Reduced-Charge Care

Each disproportionate share hospital must ensure that, for treatment of medically indigent patients, the inability to pay does not act to deny or substantially delay receipt of medically necessary services. The hospital shall provide assistance to medically indigent patients by operating a program under which such patients may receive care without charge or at a reduced charge, except that no hospital shall be required to provide services without charge or at a reduced charge once the hospital's expenditures meet the medical indigence services requirement described on page R-7 subsection II.B (e) 12(c) in this Manual

The Department may approve a plan for the operation of a disproportionate share hospital's program under Rule 111-3-6-.03(4)(e)10 which contains one or more variances from the manual

for the purpose of allowing a disproportionate share hospital to coordinate its program with an existing program of care for the medically indigent sponsored by a local government, provided that the program is operated in a manner consistent with these Rules and further provided that no patients are rendered ineligible for serviced without charge or at a reduced charge who would have been eligible if the variance had not been granted. The hospital can mail their request to:

Director of Medical Policy Unit
Division of Medicaid, 19th Floor
2 Martin Luther King Jr. Drive SE, East Tower
Atlanta, Georgia 30303-3159

J. Eligibility Criteria

i. The hospital shall apply standard eligibility criteria for each person requesting free and reduced charge care that enables the hospital to:

1. Provide services for no charge to persons with incomes below 125 percent of the federal poverty level; and

2. Provide services for no charge or adopt a sliding fee scale (reduced-charge services) for persons with incomes between 125 and, at a minimum, 200 percent of the federal poverty level.

ii. General instructions for hospital include:

1. Income:

a) Income is the family unit's gross income. Use either the average monthly income for the previous three months or for the previous year, whichever is more favorable to the applicant. (This is consistent with Hill-Burton uncompensated care regulations.)

b) For self-employed individuals, the amount of income to be counted is gross income minus work expenses directly related to producing the goods or services and without which the goods or services could not be produced.

c) For money received that may be considered as a non-recurring lump sum (insurance settlements, accumulated back RSDI payments, etc.), consider the gross amount received as income in the month received.

d) Temporary Assistance Needy Families (TANF) or Social Security Insurance (SSI) income received by any family member should be excluded.

e) Do not count income from any person who is not financially responsible for the patient. For example, do not count income from one sibling as available to another sibling for purposes of paying medical bills. Likewise, do not count income from any child (minor or adult) in considering eligibility under the ICTF for the child's parent.

2. Verification of income:

   a) You may require reasonable methods of income verification such as pay stubs, award letters, employer statements, income tax returns, etc.

   b) The applicant's statement of zero income maybe accepted.

3. Sliding fee scale:

   a) Outline and publish the sliding scale you intend to apply.

4. Family unit:

   a) The family unit consists of individuals living alone; and spouses, parents and their children under age 21 living in the same household.

   b) A family unit may include minor children living with a legal guardian. The child, legal guardian, and the legal guardian's family unit living in the same household may comprise a family unit.

K. Program Requirements:

i. The hospital shall comply with each provision below to implement and maintain its program for free and reduced charge services:

ii. Designate a point of contact within the facility to receive applications and determine eligibility for free and reduced-charge services. Consider the out-stationed eligibility worker assigned to the facility so that individuals also may receive help to apply for Medicaid if appropriate. You must also establish adequate procedures to safeguard confidentiality of patient information.

iii. Provide application forms or an application request sheet in the admissions area, business office, emergency room, and outpatient department so that individuals receiving services at times when the designated office is closed may apply or indicate their intention to apply for assistance.

iv. Apply the eligibility criteria included in this manual.

v. Accept applications at any time, including after initiation of a collection effort.

vi. For patients applying for Medicaid or other assistance and those attempting to obtain any necessary verification of income, make a determination that they are conditionally eligible for assistance under the ICTF. Adjust the Log of Patient Accounts to reflect the final determination when it is made.

vii. Make determinations of eligibility within 5 working days from the date of application information is complete.

viii. Issue written notices to applicants informing them of the results of the determinations. If an applicant is determined ineligible, include the reasons and the information you relied upon to make the determination.

ix. Include in the notice information on how to be reconsidered if the patient disagrees with the initial decision. Appoint someone different from the person who makes initial determinations of eligibility to reconsider applications.

x. Issue a written final determination of eligibility. Include the Department's toll-free number 1-877-261-3117 or local 404-463-5827 to call if the applicant still disagrees with the determination you have made.

xi. Maintain and make available for inspection by the Department and members of the public a Log of Patient Accounts, with patient identifying information deleted that is specific to the free and reduced-charge services available at the hospital under the Trust Fund program. Refer to Page R-32 for the form entitled "Log of Patient Accounts".

xii. Maintain written records and documentation of each application and all notices to applicants for free and reduced-charge services for a minimum period of five (5) years. All such documentation shall be made available to the Department upon request.

L. Program Limitations:

If the hospital plans to place any limitations on services available under the free and reduced-charge services program, it must obtain written prior approval from the Department for its policy. Upon approval from the Department, the hospital must include information on any such limitations on its signs and on written notices for patients and the public. Limitations that are prohibited and will not be approved by the Department include without limitation:

i. Restricting coverage to emergency services only

ii. Restricting coverage to non-emergency services only

iii. Restricting coverage in a way that could have the effect of discriminating against a particular group or groups of individuals

iv. Restricting coverage in a way that could have the effect of discriminating against individuals with particular types of conditions, provided that the needed services are within the scope of those ordinarily provided by the facility

M. Geographic limitations

i. Variances:

The Department may approve a hospital's plan containing one or more variances from this Manual for the purpose of allowing the hospital to coordinate its program with an existing program of care for the medically indigent sponsored by the local government. The Department will not approve a variance that permits a program to operate in a manner inconsistent with the Rules, nor that renders ineligible those persons who would have been eligible for free or reduced-charge services if the variance had not been granted. For additional information or to request a variance from a requirement of this Manual, contact the Department. Any variance granted by the Department must be approved in writing by the Chief of the Medical Assistance Plans prior to its implementation and will become part of the Letter of Agreement.

N. Public Notification about the ICTF Program

Each hospital is required to give adequate notification to the public regarding services that are hospital must provide forms and instructions to assist those who may be eligible to apply for services. Utilization of the methods listed below is required. The hospital shall provide the Department, upon request, with other methods of public notification that it utilizes.

i. The Notice shall include the following:

1. The availability of free and reduced-charge services.
2. The patient's ability to gain admittance without pre-admission deposits.
3. The right not to be transferred solely or insignificant part for economic reasons
4. The availability of services provided.
5. The terms of eligibility for free and reduced-services.
6. The application process for free and reduced- charges services.
7. The person or office to which complaints or questions about the hospital's participation in or operation of the program may be directed.

ii. Publish notices in newspapers of general circulation in the area and distribute notices through other organizations and mechanisms to reach the population in need of free or reduced-charge services.

iii. Provide similar individual written notices to each patient potentially eligible for free or reduced charged care under the Trust Fund program. Also, include these notices with bills to the patient. Include in the notice the Department's toll-free telephone number 1-877-261-3117 or local 404-463-5827 for individuals to call if they are unable to resolve any problems they experience with the Trust Fund program at the facility.

iv. Place easily readable signs in the emergency room, business office and the admissions area that include the appropriate program information. Refer to page R-23 for a sample sign entitled "Help Getting Health Care Services and Help with Your Hospital Bills" for posting in various areas of the facility.

v. Provide notices in English, Spanish and any other languages as appropriate.

vi. Instruct staff to communicate the content of the notices to people who are unable to read and to assist individuals who have difficulty applying for available services.

vii. The hospital's business office staff, social workers and others having contact with patients regarding the payment of bills should receive adequate training about the hospital's ICTF program. The staff shall also make appropriate efforts to refer inpatients and outpatients needing financial assistance to the local county office of the Department of Family and Children Services (DFCS) for Medicaid eligibility determinations

O. Financial Reporting

The hospital must provide appropriate data to the Department on the use of Trust Funds. The hospital must institute written policies and procedures by which patients are determined to be medically indigent. Adoption of and compliance with this manual shall satisfy the requirement to institute written policies and procedures.

Each participating hospital must submit an annual financial report documenting its expenditures for services to medically indigent patients. A hospital must use the Hospital Financial Survey form issued by the Division of Health Planning of the Department to report this information and must file the report within the time period specified by the Division.

P. Hospital's Resolution Processes

Free and Reduced-Charge Services. Hospitals in the ICTF program shall inform persons who have been denied free or reduced-charge services under the hospital's ICTF program that they have an opportunity for reconsideration by the hospital. Refer to subsection D in this manual entitled Free and Reduced- Charge Care. The hospital shall maintain written evidence verifying that its reconsideration process has been utilized.

i. Each hospital shall implement and maintain a process that includes the following mechanisms for tracking and documenting requests for reconsideration:

1. Keep an application on file for each person applying for free or reduced-charge services

2. Issue written notice to the applicant that approves or denies free or reduced-charge services from the hospital within five (5) working days from the date of application information is complete. Notices that deny free or reduced-charge services or that only approve reduced-charge services must include a provision informing the applicant that the request can be reconsidered. The hospital must appoint someone to reconsider applications other than the personnel issuing the original notice. Notices must include specific contact information to hospital personnel. The formats for these notices are included in this manual as follows:

a) Eligible and approved for free services: Page R-26 (no reconsideration required)

b) Eligible and approved for reduced-charge services: Page R-27

c) Ineligible for free or reduced-charge services: Page R-28

3. Issue written notice to the applicant of the hospital's final decision after reconsideration is made by the appropriate hospital personnel. The formats for final notices are included in this manual as follows:

a) Reconsidered and approved for free services: Page R-30 (no reconsideration required)

b) Reconsidered and confirmed original denial of eligibility for free or reduced-charge services: Page R-29

c) Reconsidered and approved for reduced-charge services: Page R-3

ii. All Other Complaints

The hospital shall seek to resolve complaints in a timely manner regarding its compliance with the Rules, Policies and Procedures of the Department, including this Manual, or with the maintenance of the hospital's ICTF program as required by the Department.

iii. Compliance:

In the event that a hospital fails to comply with the Rules, the Department's Policies and Procedures or this Appendix Q, the Department may, in addition to any legal remedies, assess liquidated damages against the hospital under its Letter of Agreement in an amount(s) established by the Department for each calendar day in which the hospital is non-compliant. These liquidated damages are not and shall not be construed to be penalties and shall be in addition to every other remedy now or hereinafter enforceable at law, in equity, by statue, under contract.

In the event that a disproportionate share hospital knowingly and willfully makes or causes to be made any false statement or misrepresentation of material fact with respect to the hospital's use of funds from the Trust Fund or in response to any request for information from the Department related to the Trust Fund, including without limitation the submission of any report required pursuant to these Rules, the Department may, in addition to any other legal remedies available, assess liquidated damages against the disproportionate share payment or the year in which the false statement or misrepresentation occurred. These liquidated damages are not, and shall not be construed to be penalties, and shall be in addition to every other remedy now or hereinafter enforceable at law, inequity, by statue, or under contract.

[Sample sign to be posted in facility. The signs should be printed in large format (at least 14" by 17"). Signs should be placed as specified in the required areas in a prominent spot so that patients can easily read it.]

Assistance Information for Health Care Services or your Hospital Bills:

This hospital participates in the Georgia Indigent Care Trust Fund. As our patient, you receive certain benefits under the Trust Fund.

You have a right to:

The availability of free and reduced-charge services
The ability to gain admittance without pre-admission deposits.
Not be transferred solely or insignificant part for economic reasons
The availability of services provided.
The terms of eligibility for free and reduced services
The application process for free and reduced charges.

*And the person or office to which complaints or questions about the hospital's participation in or operation of the program may be directed

Help with your hospital bills:

You may be eligible for financial help with your bills for inpatient and outpatient services at this hospital. Under the Trust Fund, we offer a certain amount of free and reduced charge care each year. Apply at _

If you have problems:

If you have any concerns about how we operate programs under the Trust Fund rules, please let us try to work with you to resolve them. However, if you are not satisfied with our handling of your situation, you may call the Department of Community Health toll-free at , or write to:

Dear

Thank you for your application for assistance with your hospital bills under the Georgia Indigent Care Trust Fund. We are pleased to tell you that you are eligible for reduced charge services because of your income.

We have determined that your income is [$ per] for your family size of [#], which qualifies you to pay only [%] of our usual charge. A hospital bill of [$] for services received by [name of patient] on [date(s)] is being reduced to [$]. We will contact you about arrangements for payment on this bill. We will send you a detailed bill if you request it.

Please call at if you have any questions. If you disagree with this decision and believe that you should qualify for a further reduction in your payment, you may ask for another review of your application. Please contact [person / office / telephone number].

Sincerely,

Name Title,

Dear

We have reconsidered our original decision on your application for assistance with your hospital bills under the Georgia Indigent Care Trust Fund. We are pleased to tell you that you are eligible for free services because of your income. We are therefore writing off the hospital bill of [$] for services received by [name of patient] on [date(s)]. Please call if you have any questions.

Sincerely,

Name Title,
Telephone

[For hospitals without physicians who are on salary at the facility or who have agreed to treat patients without charge, add the note below:]

Note: If you received services from physicians not employed by this hospital, you may receive bills for treatment they provided to you unless you have made arrangements with them.

Dear

We have reconsidered our original decision on your application for assistance with your hospital bills under the Georgia Indigent Care Trust Fund. We are pleased to tell you that you are eligible for reduced charges for our hospital services based on your income.

We have determined that your income of [$ per] for your family size of [#] qualifies you to pay only [%] of our usual charge. A hospital bill of [$] for services received by [name of patient] on [date(s)] is being reduced to [$]. We will contact you about arrangements for payment on this bill. We will send you a detailed bill if you request it.

Please call at if you still disagree with this decision and believe that you should qualify for free services or a further reduction in your payment, you may contact the Department of Community Health by writing to the address below or by calling local 404-463-5827 or toll-free 1-877-261-3117.
