1.0 CMO PA Overview

The Georgia Web Portal serves as the *centralized* portal for the submission of authorization requests for certain services provided to Medicaid members enrolled in a Care Management Organization (CMO). The *centralized* PA submission process for CMO PAs is being phased in over time. This means that different CMO authorization request types will be added during each phase. The following table provides a summary of the request types that have been added thus far, and what is projected.

Note: Start dates are subject to change.

1.1 General Submission Requirements

Member/Provider Validation

When a CMO PA request is initiated, the user is prompted to identify the specific CMO (Amerigroup, Peach State, Care Source, or Well Care) in which the member is enrolled. The member ID is validated against CMO member eligibility. In addition, the provider ID(s) is/are validated against CMO provider affiliation. If the member ID or provider ID is not associated with the CMO selected, a warning message informs the user that the member and/or provider does not appear to be associated with the selected CMO. Member enrollment validation is a 'hard edit' which prevents the provider from entering the request. Provider validation is a 'soft edit', and the provider may bypass the warning message and enter the request.

Tracking and Authorization IDs

CMO PAs submitted via the portal are assigned a 12 digit Alliant tracking ID that starts with "7". The requests remain in 'Pending' status until a decision is rendered by the CMOs. The CMOs are responsible for processing the PAs and submitting back to Alliant the review determinations and CMO authorization numbers. The CMO assigned authorization number is loaded to the PA on the *Provider Workspace* and displays in the 'CMO PA Request ID' field. The CMO authorization number is the number used for claims submission/adjudication.

Provider Workspace Functionality

The portal *Provider Workspace* has been customized with functions applicable to CMO PAs.

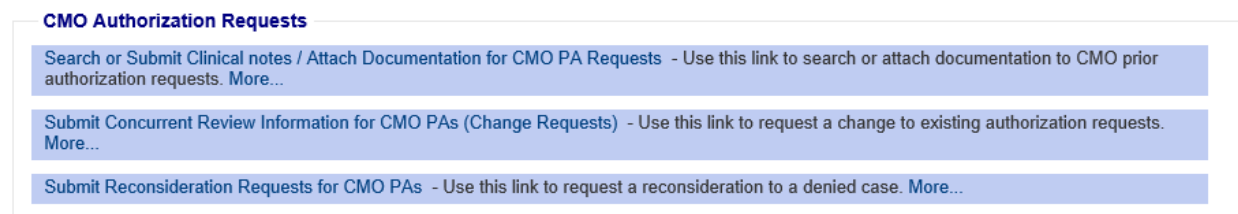

Figure 1

FUNCTION	DESCRIPTION
CMO PA Search	Search submitted PA's, view decisions/edits, and review PA data for CMO PA's.
Attach File	Attach additional clinical data to the CMO PAs form.
Submit Change Requests	Submit a change request with concurrent review information for inpatient admissions.
Submit Reconsideration Requests	Submit a reconsideration of a denied CMO PA.

Table 2

2.0 Orthotics/Prosthetics/Hearing

The Orthotics/Prosthetics/Hearing are submitted via the *Centralized* Portal using an entry similar to submitting CMO or FFS Hospital Admission requests. The Division requires that certain services are approved to the time they are rendered. Prior approval from the division pertains to medical necessity only, not appropriateness of service. It does not guarantee payment of submitted charges, or member eligibility.

When the request is successfully submitted, the system displays the Alliant tracking number. The Alliant tracking ID is a 12 digit number that starts with “7”.
